CONSOLIDATED MASTER STATEMENT OF WORK (SOW)

UNIFIED TECHNICAL SPECIFICATIONS • DALAL MACHINE TOOLS & OMPI INDIA

Document Ref: **DMTA-OMPI-SOW-2026-v1.0**
Effective Date: **30 October 2026**
Attachment To: **Proposal DMTA-OMPI-PROP-2026-v1.0**
Classification: **STRICTLY CONFIDENTIAL**

Client Entities (Joint Beneficiaries) — CORPORATE PRINCIPALS

1. Dalal Machine Tools Agency Pvt. Ltd.
Regd. Office: 202/203, Tardeo AC Market Building, Tardeo Road, Mumbai 400034, MH, India.
Pune Stockyard: Gat No. 248/2, Chakan Industrial Area Phase II, Vasuli, Pune 410501.

2. OMPI India LLP
Regd. Office: Plot No. W-112, S-Block, MIDC Bhosari Industrial Area, Pune 411026, MH, India.

Technology Consultant (System Architect) — ENGINEERING PRACTICE

Suyash Shinde — Lead Solutions Architect & Enterprise Consultant
Office: Baner, Pune 411045, Maharashtra, India
Direct Phone / WhatsApp: +91 94038 92055 • Email: suyashshinde360@gmail.com
Tax Status: PAN provided on invoice • GST Status: Not Registered (CGST Sec 22 Threshold)

Binding Scope Agreement & Document Hierarchy: This Consolidated Master Statement of Work (SOW) defines the exact, complete, and legally binding engineering deliverables for both **Dalal Machine Tools Agency Pvt. Ltd.** and **OMPI India LLP**. Pursuant to Section 1 of Proposal `DMTA-OMPI-PROP-2026-v1.0`, this document supersedes and consolidates all prior informal emails, drafts, and individual SOWs into a single authoritative baseline.

Master Engagement Architecture & Entity Commercial Split

The engagement is structured into two distinct, standalone operational scopes unified under one integrated technology architecture. Each entity receives dedicated deliverables, distinct commercial invoicing, and decoupled intellectual property transfer:

SCOPE DOMAIN & ENTITY	CORE DELIVERABLE SCOPE	TIMELINE	FIXED FEE
PART A: SOW-01 (Dalal Platform) Dalal Machine Tools Agency Pvt. Ltd.	24-Page Public Portal, High Seas Sales Calculator, 60 Machine Catalog, Staff/Super-Admin Portals, WhatsApp RFQ, SEO, GEO feeds, GA4 Telemetry.	Month 1 (Go-Live)	**₹2,00,000 Flat**
PART B: SOW-02 (OMPI ERP System) OMPI India LLP	Italian Clutch-Brake Web Showcase, Customer Portal & Central Business ERP (33 Modules across Sales, Landed Cost, Spares & GST).	Months 2-8 (7 Sprints)	**₹5,60,000 Flat**
Integrated Maintenance & Training Joint Operational Inclusions	Defect remediation during 8-month lifecycle + up to 12 hours staff training at Pune yard with video walkthroughs and PDF User Manual.	Full Lifecycle	**Included (₹0)**
TOTAL UNIFIED ENGAGEMENT INVESTMENT (WEBSITE ₹2,00,000 + OMPI ERP ₹5,60,000)			**₹7,60,000 Flat**

MASTER SOW DOCUMENT STRUCTURE & NAVIGATION INDEX

PART A: SOW-01 (DALAL)
- 24-Page Public Catalog Sitemap
- 10-Parameter Technical Grid
- High Seas Savings Calculator
- 1-Click PDF Spec Sheet Engine
- WhatsApp Routing & Telemetry
- Staff CMS & Super-Admin Console
- 60 Machine Upload Protocol

PART B: SOW-02 (OMPI ERP)
- OMPI Web Showcase & Portal
- Sales Pipeline (10 Modules)
- Italy Landed Cost (7 Modules)
- Spares Warehouse (8 Modules)
- Finance & GST (8 Modules)
- On-Premise LAN Hardware Specs
- 7-Sprint Phased Roadmap

PART C: GOVERNANCE
- 12-Hour Staff Training Protocol
- Explicit Scope Exclusions
- Change Request (CR) Protocol
- Early Termination Protection
- Defect Dispute & Payment Integrity
- Formal Execution Signatures

PART A: SOW-01 — DALAL MACHINE TOOLS PLATFORM

B2B HEAVY MACHINERY DIGITAL CATALOG, CALCULATORS & LEAD ENGINE

Entity: **Dalal Machine Tools Agency Pvt. Ltd.**
Deliverable Code: **SOW-01-DMTA**
Commercial Allocation: **₹2,00,000 Flat**
Target Delivery: **Month 1 (Go-Live)**

1.0 Executive Scope & Commercial Purpose

SOW-01 delivers a high-performance, mobile-responsive B2B heavy machinery web platform engineered to showcase 50,000 sq. ft. of capital presses, forging equipment, and metal-forming machinery stock at the Chakan stockyard in Pune to corporate manufacturing buyers across India.

1.1 FULL 24-PAGE PUBLIC INFORMATION ARCHITECTURE

The public web platform comprises exactly 24 interconnected, high-performance responsive pages structured across 4 functional tiers:

Corporate & Stockyard Hub (Tier 1 & 2) — 6 PAGES

- **Page 1 (Homepage):** Hero inventory spotlight, live tonnage search, recent warehouse arrivals, buyer trust credentials, and corporate overview.
- **Page 2 (About the Agency):** 20+ years industrial heritage, leadership credentials, national client base, and technical machinery inspection methodology.
- **Page 3 (Pune Stockyard Showcase):** 50,000 sq. ft. central warehouse showcase, live power testing bay, overhead crane infrastructure, and live trial booking.
- **Page 4 (High Seas Sales Calculator):** Interactive customs duty, IGST, port handling, and landed capital cost comparison engine.
- **Page 5 (Technical Inspection & Services):** Machinery reconditioning, power testing protocols, and OMPI clutch conversion capabilities.
- **Page 6 (Contact Us & Directions):** Stockyard GPS coordinates, office locations (Mumbai HQ + Pune yard), inquiry forms, and direct calling links.

Machinery Categories & Policies (Tier 3 & 4) — 18 PAGES

- **Pages 7–18 (12 Core Machinery Categories):** Dedicated listing portals for Mechanical Forging Presses, Hydraulic Presses, Pneumatic Friction Clutch Presses, Knuckle Joint Presses, Plate Bending Rolls, Shearing Machines, Press Brakes, Drop Forging Hammers, Milling Centers, Lathes, Surface Grinders, and Toolroom Machinery.
- **Pages 19–21 (Specialized Industrial Pages):** European Machinery Imports Showcase, Automotive Press Lines, and Heavy Forging Solutions.
- **Page 22 (Standard Dynamic Machine Detail):** Reusable parametric template rendering rich technical specifications, photo galleries, PDF datasheets, and WhatsApp RFQ.
- **Pages 23–24 (Compliance & Legal):** Formal Privacy Policy and Terms of Commercial Use.

1.2 STANDARDIZED 10-PARAMETER MACHINERY ENGINEERING GRID

Every machinery item rendered within the catalog conforms to a standardized 10-point technical engineering specification schema:

PARAMETER FIELD	ENGINEERING DESCRIPTION & SCHEMA STANDARD	BUYER COMMITTEE UTILITY
1. Machine Model & Make	Manufacturer name, European/Japanese origin, model designation.	Brand heritage & reliability rating
2. Rated Tonnage Capacity	Nominal pressing force in Metric Tons (e.g. 400T, 1600T, 4000T).	Primary sizing & forging capability filter
3. Stroke Length & Adjustment	Slide travel distance (mm) and motorized slide adjustment range.	Die shut-height & tooling compatibility
4. Continuous Speed (SPM)	Strokes per minute rating under continuous and single-stroke modes.	Production cycle time & output throughput
5. Bed & Bolster Dimensions	Left-to-Right × Front-to-Back platen dimensions (mm).	Die footprint & bolster plate clearance
6. Die Shut Height (SDAU)	Distance between bed and slide with stroke down, adjustment up.	Existing customer tooling fitment verification
7. Clutch & Brake Mechanism	Pneumatic friction, hydraulic, or mechanical unit (OMPI compatible).	Safety compliance, cycle speed, and retrofit status
8. Main Drive Motor Power	Electrical motor rating in kW / HP, voltage, and flywheel RPM.	Factory power substation capacity requirement
9. Gross Physical Weight	Total assembled machine weight in Metric Tons (approx. MT).	Foundation civil design & transport logistics
10. Physical Condition & Trial	Operational status: Under Power, Fully Tested, As-Inspected.	Readiness for immediate live stockyard inspection

1.3 INTERACTIVE HIGH SEAS SALES SAVINGS & CUSTOMS DUTY CALCULATOR

An interactive, client-facing financial estimation tool enabling corporate manufacturing buyers to calculate projected capital savings when purchasing machinery on a High Seas Sale basis versus domestic cleared stock:

- **Input Parameters:** Base Machine Purchase Price (EUR/USD/INR), Basic Customs Duty (BCD) %, Port Handling & Wharfage charges, Inland Transit Freight to buyer plant.
- **Computational Output:** Calculation of IGST (18%), statutory landing charges, high-seas commercial markup, and net landed capital savings in INR.
- **Commercial Disclaimer:** Calculator is strictly an indicative computational utility; final customs assessment remains subject to Indian Customs evaluation and client's licensed Customs Housing Agent (CHA).

1.4 Sales Conversion Engines & Technical Discovery Architecture

1-Click Branded PDF Spec Sheet Generator — COMMITTEE ASSET

- **Automated PDF Engine:** Generates a clean, print-ready A4 technical datasheet dynamically rendered from live catalog parameters.
- **Institutional Letterhead:** Features official Dalal Machine Tools corporate branding, registered Mumbai HQ & Pune stockyard addresses, and contact numbers.
- **Buyer Committee Utility:** Enables purchase managers to download and present uniform machine specifications directly to internal technical vetting boards.

Direct WhatsApp RFQ Routing & Telemetry — LEAD ACCELERATION

- **Instant WhatsApp Routing:** "Request Quotation" buttons construct pre-filled WhatsApp click-to-chat links routed directly to the Director's phone.
- **Pre-Populated RFQ Tags:** Inquiries include exact Machine SKU, Model, Rated Tonnage, buyer contact details, and timestamp.
- **1-Click CSV/Excel Leads Export:** Inquiries logged to local database with 1-click RFC-4180 CSV export featuring UTF-8 BOM for Microsoft Excel.

1.5 GOOGLE SEO, AI SEARCH (GEO) & WEB TELEMETRY INFRASTRUCTURE

- **Dynamic XML Sitemaps:** Dynamic XML sitemap generator indexing 83 canonical URLs with Google Image extensions for machinery photos.
- **Schema.org Rich Data:** Comprehensive JSON-LD structured data for `LocalBusiness`, `Product`, and `BreadcrumbList`.
- **AI Search (GEO) Feeds:** Live `/llms.txt` and `/llms-full.txt` feeds formatted for AI search crawlers (GPTBot, ClaudeBot, Perplexity).
- **Robots.txt Crawler Governance:** Grants explicit access to high-intent search crawlers while disallowing admin routes.
- **Web Telemetry:** Google Tag Manager container (`GTM-DMTA2026`) and GA4 custom events for datasheet downloads, trial bookings, and RFQs.
- **Google Search Console:** DNS ownership verification and dynamic sitemap ping configuration.

1.6 STAFF ADMIN OPERATIONS CMS & SUPER-ADMIN SECURITY CENTER

Staff Admin CMS Portal (`/admin`) — OPERATIONS

- **Machinery Inventory Management:** Complete CRUD interface for creating, updating, archiving, and categorizing machinery stock items.
- **Availability Toggles:** 1-click status switches: `In Stock`, `Under Inspection`, `Reserved`, and `Sold`.
- **Lead Management Dashboard:** Centralized inbox of buyer inquiries, trial bookings, and contact requests with follow-up tracking.

Super-Admin Security Center (`/superadmin`) — ZERO-TRUST SECOPS

- **Zero-Trust Cloaked Decoy:** Unauthorized probes on admin routes return standard HTTP 404 (Not Found) to hide admin surfaces from scanners.
- **Cryptographic Gate Pass:** Access requires secure portal passcode issuing cryptographically signed cookies (`dmta_gate_pass`).
- **Tamper-Evident SHA-256 Audit Log:** Cryptographic hash-chained audit ledger tracking logins, inventory updates, and lead dispatches.

1.7 CATALOG POPULATION PROTOCOL & 60-MACHINE CEILING

Division of Catalog Onboarding Responsibilities:

- **Client Deliverables:** Client shall provide technical machine specifications, dimensions, and high-resolution photographs organized within a standardized Excel/CSV template provided by Consultant.
- **Consultant Ingestion & Verification:** Consultant will programmatically validate, ingest, format, optimize images, and publish **up to 60 distinct machinery stock items** into the production catalog.
- **Out-of-Scope Data Entry:** Physical typing of paper records or catalog onboarding exceeding 60 items is quotable under a separate Change Request.

1.8 SOW-01 MILESTONE DELIVERABLE & IP TRANSFER PROTOCOL

Dalal Platform deliverables are completed in Month 1 upon Go-Live acceptance. Following Go-Live acceptance AND full clearance of the ₹2,00,000 mobilization fee, Consultant executes a **formal written Deed of Intellectual Property Assignment** transferring full custom source code, templates, and digital assets to Dalal Machine Tools Agency Pvt. Ltd. within 7 business days.

PART B: SOW-02 — OMPI INDIA CENTRAL ERP SYSTEM

COMMERCIAL ARCHITECTURE • SALES PIPELINE • ITALY LANDED COST ENGINE

Entity: **OMPI India LLP**
Deliverable Code: **SOW-02-OMPI**
Commercial Allocation: **₹5,60,000 Flat (7 Sprints)**
Architecture: **ACID SQLite on Local LAN**

2.0 Executive Scope & Industrial Context

SOW-02 delivers a centralized on-premise Enterprise Resource Planning (ERP) suite and dedicated public web showcase engineered for **OMPI India LLP** as the authorized national distributor for **OMPI Italy (Modena)** industrial pneumatic/hydraulic clutch-brake systems, mechanical units, and press retrofit spares.

2.1 OMPI INDIA DIGITAL WEB SHOWCASE & CUSTOMER PORTAL

Italian Clutch-Brake Web Showcase — BRAND PORTAL

- **Official Partnership Showcase:** Professional brand showcase highlighting authorized distributorship for OMPI Italy (Modena).
- **Product Series Catalog:** Pneumatic combined clutch-brakes (Series 4000, 5000), hydraulic units, rotating unions, and safety dual valves.
- **Retrofit Technical Inquiry Forms:** Structured technical forms capturing client press tonnage, shaft dimensions, and clutch requirements.

Customer & Technician Service Portal — FIELD OPERATIONS

- **Service Job Card Lookup:** Enables client manufacturing plants to track the overhaul, retrofit, or warranty status of press clutch units.
- **Downloadable Technical Bulletins:** Italian mounting schematics, torque calculation formulas, air pressure charts, and maintenance manuals.
- **Unified Lead Injection:** Public web inquiries flow directly into the OMPI Central ERP sales enquiry pipeline without manual re-entry.

3.0 Comprehensive 33-Module Functional ERP Specification

The OMPI Central ERP is organized across 4 dedicated operational engines comprising exactly 33 documented modules:

ENGINE 1: SALES, CRM & MULTI-REVISION PIPELINE (10 MODULES)

MODULE NAME	CORE FUNCTIONAL CAPABILITIES	BUSINESS OUTPUT
1. Customer Master	Comprehensive buyer database with multiple billing/shipping addresses, GSTIN, PAN, credit limits, and payment terms.	Verified customer accounts
2. Customer 360° Profile	Single-pane view aggregating full customer order history, active quotations, pending job work cards, and outstanding dues.	Unified account audit
3. Enquiry Pipeline	Stage-based deal tracking (New, Under Technical Review, Costed, Quoted, Won, Lost) with mandatory lost-deal forensics.	Sales velocity tracker
4. Costing Sheets	Commercial margin calculator capturing base landed cost, freight, transit insurance, overheads, and target gross margin %.	Protected profit margins
5. Quotation Engine	Multi-revision quotation generator producing immutable versions (V1, V2, V3) with audit trails and manager authorization.	Revision-controlled quotes
6. Customer PO (CPO)	CPO registration, price and delivery terms cross-matching against quotation, and discrepancy variance alerts.	Validated customer orders
7. Sales Order (SO)	Formal sales order generation linking confirmed customer orders directly to warehouse stock or back-to-back Italian factory POs.	Locked order commitments
8. Proforma Invoice (PI)	Configurable milestone commercial proforma invoicing with advance payment schedules (e.g. 30% advance, 50% on BL, 20% on delivery).	Statutory commercial PIs
9. Communication Log	Time-stamped audit log recording staff phone calls, email interactions, site visit notes, and technical follow-ups.	Account interaction history
10. Approval Workflow	Management override hierarchy requiring Director/Partner digital approval for quotes with margins below standard thresholds.	Enforced discount controls

ENGINE 2: PURCHASE & ITALY LANDED COST ENGINE (7 MODULES)

MODULE NAME	CORE FUNCTIONAL CAPABILITIES	BUSINESS OUTPUT
11. Supplier Master	Profiles for OMPI Italy (Modena) and domestic tooling/seal vendors, contact parameters, bank wire instructions, and terms.	Approved supplier directory
12. Supplier RFQs	Generates structured price and lead-time requests directly to OMPI Italy in EUR with machine serial references.	Standardized factory RFQs
13. Supplier Quotations	Multi-vendor quotation logging, price comparison matrices, validity tracking, and international freight options.	Comparative purchase audit
14. Supplier PO (SPO)	Formal international purchase orders in EUR with Italian delivery incoterms (FOB/CIF), milestone terms, and dispatch schedules.	Official EUR purchase orders
15. Multi-Currency FX Engine	EUR to INR conversion tracking via manual rate entry or online fetch (when internet connected) with historical FX rate logging.	Transparent currency audit
16. Landed Cost Calculator	Calculates exact landed unit cost in INR: Base Invoice Price + Ocean/Air Freight + Basic Customs Duty (BCD) + Port Clearance.	True landed unit cost
17. Goods Receipt Note (GRN)	Warehouse receipt verification tallying physical Italian shipments against packing lists with damage inspection logging.	Formal stock intake record

ENGINE 3: SPARES INVENTORY, GODOWN & FIELD RETROFITS (8 MODULES)

MODULE NAME	CORE FUNCTIONAL CAPABILITIES	BUSINESS OUTPUT
18. SKU Spares Inventory	Stock tracking for Italian clutch plates, friction linings, brake discs, air seals, springs, and dual valves with min-stock alert thresholds.	Real-time warehouse stock
19. Godown Bin Mapping	Precise rack/shelf/bin coordinate mapping in the Pune godown to accelerate physical picking and reduce technician dispatch errors.	Visual inventory locating
20. Stock Transfers	Inter-warehouse transfer challans and tracking between Pune godown, consignment stock locations, and customer site staging areas.	Reconciled stock movement
21. Delivery Challans (DC)	Generates statutory delivery challans for full dispatches, partial deliveries, and replacement parts with vehicle details.	Official dispatch challans
22. Security Gate Passes	Generates Returnable (RGP) and Non-Returnable (NRGP) security gate passes for plant equipment, tools, and contractor movements.	Audited warehouse security
23. Digital Job Work Cards	Field service cards for technicians performing press clutch retrofits, friction lining relining, torque testing, and emergency overhauls.	Tracked retrofit labor
24. Quality Control (QC)	Incoming inspection logs for new Italian shipments and outgoing inspection certificates for overhauled clutch-brake units.	Certified QC documentation
25. RMA & Warranty Claims	Logging and tracking of damaged, defective, or warranty replacement units returned to OMPI Italy with fault forensics.	Factory warranty claims

ENGINE 4: FINANCE, GST ACCOUNTING & ADMINISTRATION (8 MODULES)

MODULE NAME	CORE FUNCTIONAL CAPABILITIES	BUSINESS OUTPUT
26. GST Sales Invoicing	Automated tax invoicing calculating CGST, SGST, and IGST for industrial clutches, press spares, and service labor under HSN 8483.	Compliant GST tax invoices
27. Credit & Debit Notes	Statutory credit/debit note generation for rate variance adjustments, post-dispatch discounts, and returned goods.	Reconciled tax credit notes
28. Accounts Receivable	Customer payment recording (NEFT/RTGS/Cheque), invoice reconciliation, and automated aging analysis (30, 60, 90+ days).	Cash collection ledger
29. Profitability Analytics	Real-time gross profit analytics per sales invoice, product category, customer account, and field retrofit job.	Actionable margin analytics
30. Universal Global Search	Instant multi-entity search bar across all 33 modules searching PO numbers, serial numbers, part codes, customers, and invoice IDs.	Sub-second data lookup
31. Automated PDF Dispatch	1-Click branded PDF generation for sales orders, proformas, tax invoices, and quotation packages on official letterhead.	Instant document dispatch
32. Role-Based Access (RBAC)	Granular security permissions by role (Director, Sales Manager, Accountant, Godown Supervisor, Field Technician).	Strict data access isolation
33. Disaster Recovery Engine	Automated rolling 3-tier local database snapshot engine protecting business records against system crashes or user error.	Automated backup archives

Statutory Tax Disclaimer: The GST invoicing and landed cost calculation engines are administrative computational utilities. Regulatory tax filing, HSN tariff classification, input tax credit (ITC) reconciliation, and statutory tax compliance remain solely the legal responsibility of OMPI India LLP and their Chartered Accountants.

2.4 On-Premise LAN Infrastructure & Technical Specifications

The OMPI Central ERP operates completely on-premise within the Pune office local area network (`http://192.168.x.x:3000`). This eliminates ongoing third-party SaaS cloud subscription fees (saving **₹2,50,000+ annually**) and keeps confidential Italian pricing margins strictly inside the client's premises:

Minimum Host PC Hardware Specs — CLIENT DOMAIN

- **Host Computer:** Dedicated Desktop PC or Server powered by Intel Core i5/i7 (8th Gen+) or AMD Ryzen 5+, 16 GB DDR4/DDR5 RAM, and 512 GB NVMe SSD storage.
- **Dedicated UPS & Power:** Dedicated UPS with minimum 30-minute battery backup to prevent database write corruption during unexpected power outages.
- **Local Network Connectivity:** Standard Gigabit Ethernet switch or Wi-Fi 6 router connecting staff laptops and office desktops.
- **Client Maintenance Scope:** Hardware maintenance, electrical power supply, Windows/Linux OS licensing, and commercial antivirus protection remain client responsibilities.

Architecture, Concurrency & SecOps — ENGINEERING BASELINE

- **Concurrency Baseline:** High-performance ACID SQLite architecture optimized for **up to 15–20 concurrent staff users** across sales, warehouse, and accounts.
- **Cryptographic Salting:** Bcrypt with 10 salt rounds (`bcrypt.genSaltSync(10)`) protecting all user passwords; zero plain-text credentials stored anywhere.
- **Adaptive Rate Limiting:** Automated IP-based request throttling protecting authentication routes against brute-force attacks.
- **Defined 3-Tier Backups:** Tier 1: Daily local SQLite snapshot; Tier 2: Daily synchronized mirror copy to external USB drive; Tier 3: Weekly encrypted off-site cloud archive.

2.5 OMPI ERP 7-SPRINT IMPLEMENTATION PHASING & MILESTONE SCHEDULE

The ERP system is engineered and deployed across 7 structured monthly sprints, with invoicing linked directly to milestone verification:

SPRINT & TIMELINE	MILESTONE FUNCTIONAL SCOPE & DELIVERABLES	REVIEW WINDOW	MILESTONE FEE
Sprint 1 (Month 2)	**Customer Pipeline Foundation:** Customer Master, Customer 360° Profile, Enquiry Pipeline, and Communication Log.	7 Business Days	**₹80,000**
Sprint 2 (Month 3)	**Quotation & Costing Engine:** Costing Sheets, Multi-Revision Quotation Engine (PDF), and Manager Approval Workflow.	7 Business Days	**₹80,000**
Sprint 3 (Month 4)	**Italy Purchase & Landed Cost Engine:** Supplier Master, SPO in EUR, Multi-Currency FX Engine, and Customs Landed Cost Calculator.	7 Business Days	**₹80,000**
Sprint 4 (Month 5)	**Warehouse Spares & Godown Logistics:** SKU Spares Inventory, Pune Godown Bin Mapping, Stock Transfers, and Delivery Challans.	7 Business Days	**₹80,000**
Sprint 5 (Month 6)	**Retrofit Job Cards & Field Operations:** Digital Job Work Cards, Security Gate Passes (RGP/NRGP), QC Inspection, and Warranty RMA.	7 Business Days	**₹80,000**
Sprint 6 (Month 7)	**Finance & Commercial Billing:** GST Sales Invoicing (HSN 8483), Credit/Debit Notes, and Accounts Receivable Aging Tracker.	7 Business Days	**₹80,000**
Sprint 7 (Month 8)	**Final Handover, LAN Setup & Staff Training:** Multi-user LAN setup, staff onboarding, user manual, and final sign-off.	7 Business Days	**₹80,000**

SOW-02 Acceptance & IP Assignment Protocol: Client has 7 business days following delivery of each sprint to review and log defects. If no reproducible defect report is received within 7 business days, the sprint deliverable is deemed accepted. Upon full clearance of the final Month 8 fee (completing the full ₹5,60,000 ERP fee), Consultant executes a **formal written Deed of Intellectual Property Assignment** transferring custom ERP code, schemas, and assets to OMPI India LLP within 7 business days.

3.1 Staff Training Protocol & In-Scope Maintenance

Staff Onboarding & Training (12 Hours) — EMPOWERMENT

- **Structured Training Delivery:** Up to 12 hours total across structured on-site and remote sessions at the Pune yard for up to 8 staff members.
- **Recorded Video Walkthroughs:** Step-by-step video tutorials demonstrating quotation creation, inventory updates, and landed cost calculations.
- **PDF User Training Manual:** Comprehensive illustrated PDF manual for ongoing onboarding of future administrative personnel.

In-Scope Maintenance & Stability Warranty — SUPPORT COVERAGE

- **8-Month Active Lifecycle Coverage:** Bug remediation and logic corrections matching the 33-module specification included at ₹0 during engagement.
- **Support Hours & Response SLA:** Mon-Sat 10:00 AM – 6:30 PM IST (Sundays off) with initial triage response within 1 business day.
- **30-Day Post-Handover Warranty:** 30-day warranty post-handover for reproducible defects; ongoing support thereafter via optional AMC.

3.2 EXPLICIT SCOPE EXCLUSIONS (QUOTED SEPARATELY VIA CHANGE REQUEST)

EXCLUDED CAPABILITY	EXPLICIT OPERATIONAL BOUNDARY	COMMERCIAL POLICY
Hardware & Physical Infrastructure	Server PC hardware, laptops, UPS units, Ethernet switches, Wi-Fi routers, and physical cabling.	Client Procured
Manual Backlog Data Entry	Manual physical typing of historical paper invoices, physical stock ledger books, or legacy records.	Client Responsibility
Photography & Videography	Professional photo shoots, machine spec authoring, video tours, or drone footage of machinery at Pune yard.	Client Provided
Corrupt Legacy Migration	Cleansing or programmatic ETL conversion from corrupt, unstructured historical Excel spreadsheets.	Quoted Separately
Native Mobile App Packages	Native Apple App Store (.ipa) and Google Play Store (.apk) app packaging (responsive PWA included).	Phase 2 Roadmap
Government e-Invoicing (IRN) API	Automated real-time IRN/QR generation via government GSP portal (requires client GSP account).	Quoted Separately
Third-Party ERP Connectors	Direct live bidirectional REST APIs connecting to third-party suites (e.g. Tally Prime API, SAP).	Quoted Separately

3.3 CHANGE REQUEST GOVERNANCE & TERMINATION SHIELD

Change Request & Termination Protection: Any addition or modification beyond the documented 33 modules or 60 catalog items requires a formal signed Change Request (CR) with written quotation prior to work commencing. Either party may terminate on 30 days' written notice; Consultant may terminate on 7 days' written notice if invoices remain unpaid >30 calendar days. If Client terminates prior to completion, all completed milestones and active sprint retainers remain payable in full, and the Month 1 advance is strictly non-refundable. Undisputed invoice portions must be paid on schedule.
