DALAL MACHINE TOOLS & OMPI INDIA

MASTER STRATEGIC PROPOSAL • UNIFIED INDUSTRIAL DIGITAL INFRASTRUCTURE

Document Ref: **DMTA-OMPI-PROP-2026-v1.0**
Date of Issuance: **30 October 2026**
Classification: **STRICTLY CONFIDENTIAL**
Validity: **15 Calendar Days (Thru 14 Nov 2026)**

◆ **PREPARED FOR (CLIENT ENTITIES):**

1. Dalal Machine Tools Agency Pvt. Ltd.
Regd. Office: 202/203, Tardeo AC Market Building, Tardeo Road, Mumbai 400034, MH, India.
Pune Stockyard & Works: Gat No. 248/2, Chakan Industrial Area Phase II, Vasuli, Pune 410501.

2. OMPI India LLP
Regd. Office: Plot No. W-112, S-Block, MIDC Bhosari Industrial Area, Pune 411026, MH, India.

◆ **PREPARED BY (TECHNOLOGY CONSULTANT):**

Suyash Shinde — Lead Solutions Architect & Enterprise Consultant
Office: Baner, Pune 411045, Maharashtra, India • Phone: +91 94038 92055
Email: suyashshinde360@gmail.com • PAN on invoice • GST: Not Registered (Sec 22)

Acceptance: Countersigned proposal + Month 1 advance remittance.

Legal Precedence, Interim Binding & Conflict Rule: This commercial proposal becomes legally binding upon countersigned acceptance and remittance of the Month 1 advance. A comprehensive Master Service Agreement (MSA) shall be executed separately based on these mutual terms, which shall supersede all prior verbal discussions, emails, and draft SOWs. In the event of any conflict between this Proposal and the subsequent MSA, the terms of the MSA shall prevail; until the formal MSA is executed, this proposal shall serve as the binding agreement.

Executive Master Proposal: Turnkey Industrial Digital Infrastructure

This proposal establishes a **Single, Integrated Digital Infrastructure** engineered specifically for the complementary business operations of **Dalal Machine Tools Agency Pvt. Ltd.** (a leading heavy machinery stockyard, capital presses & metal-forming inventory across 50,000 sq. ft. in Pune) and **OMPI India LLP** (Authorized distributor for Italian pneumatic/hydraulic clutch-brake systems, landed import costing, and aftermarket spare parts).

EXECUTIVE COMMERCIAL SUMMARY • 8-MONTH MASTER RETAINER ENGAGEMENT

DALAL WEB PLATFORM (MONTH 1)	OMPI CENTRAL ERP (7 SPRINTS)	TOTAL UNIFIED INVESTMENT
₹2,00,000	₹5,60,000	₹7,60,000 Flat

* **Separate Invoicing & Joint Liability:** Distinct invoices will be raised in the names of Dalal Machine Tools Agency Pvt. Ltd. (₹2,00,000) and OMPI India LLP (₹5,60,000 in 7 monthly sprints @ ₹80,000/mo). Both companies are jointly and severally responsible for engagement fee settlement.

1. STRATEGIC ADVANTAGE OF UNIFIED ENTERPRISE ARCHITECTURE

In heavy engineering and metal forming, machinery buyers and clutch retrofit clients are identical corporate manufacturing accounts. Treating these entities as isolated projects with external IT agencies creates data silos, duplicate maintenance contracts, and costs upwards of **₹25 to ₹35 Lakhs**. This unified engagement solves both sides simultaneously under one master partnership:

System 1: Dalal Machine Tools Platform — GO-LIVE: MONTH 1

- **24-Page Public Catalog Platform:** Responsive portal covering up to 60 distinct heavy machinery items across 26 industrial categories (Client provides specs/photos in template, Consultant uploads up to 60).
- **Pune Stockyard Showcase:** 50,000 sq. ft. facility showcase with live power trial booking and buyer enquiry forms.
- **High Seas Sales Calculator:** Interactive commercial import landed savings estimator for corporate clients.
- **Staff & Super-Admin CMS Portals:** Granular role-based catalog, inquiry management & security admin controls.
- **1-Click Branded PDF Spec Sheets:** Instant A4 technical datasheets on official company letterhead for buyer committees.
- **Direct WhatsApp Routing & Telemetry:** Instant sales routing with pre-filled machine tags, GA4 event tracking & Google Search Console.

System 2: OMPI India Web Showcase & Central ERP — 33 MODULES + WEB

- **OMPI Web Showcase & Service Portal:** Public website showcasing Italian clutch-brakes (pneumatic/hydraulic), authorized partner status, and retrofit service enquiry forms.
- **Local LAN Multi-User Portal:** Operates at `http://192.168.x.x:3000` over office Wi-Fi/LAN for up to 15-20 concurrent staff users.
- **Sales & Costing Engine:** Customer 360°, margin sheets & multi-revision quotation engine (V1, V2) with manager sign-off.
- **Italy Landed Cost Engine:** EUR to INR FX calculation (manual/online), customs duty, port freight & landed margin protection.
- **Spares & Godown Warehouse:** Real-time SKU bin tracking in Pune godown with min-stock replenishment alerts.
- **Technician Job Cards & GST:** On-site press clutch retrofit logs, warranty claims, automated GST Invoicing (HSN 8483) & security gate passes.

2. STRATEGIC DIGITAL ENABLEMENT & OPERATIONAL MODERNIZATION

In heavy engineering and machinery distribution, operational accuracy and rapid customer response are paramount. This ecosystem equips Dalal Machine Tools and OMPI India with modern digital infrastructure to showcase stockyard inventory to national corporate buyers, automate technical quotation revisions, and eliminate manual landed cost calculation errors on European imports.

Comprehensive Breakdown of OMPI ERP Modules (33 Modules)

The OMPI ERP system is structured across 4 specialized operational engines comprising exactly **33 documented enterprise modules** covering sales, European import costing from OMPI Italy, warehouse spare parts tracking, on-site technician servicing, and GST accounting:

1. SALES & CUSTOMER PIPELINE (10 MODULES)

- **Customer Master:** Billing/shipping branches, GSTIN, PAN, credit limits.
- **Customer 360° View:** Single-pane audit of orders, quotes, and dues.
- **Enquiry Pipeline:** Status stages with mandatory lost-deal forensics.
- **Costing Sheet:** Landed cost, gross margin % & profit analytics.
- **Quotation Engine:** Immutable revisions (V1, V2) with manager sign-off.
- **Customer PO (CPO):** PO validation, delivery terms & variance check.
- **Sales Order (SO):** Confirmed orders linked directly to stock.
- **Proforma Invoice (PI):** Configurable milestone splits (e.g. 30/50/20).
- **Communication Log:** Time-stamped staff follow-up history.
- **Approval Workflow:** Manager authorization for custom quotes.

2. PURCHASE & ITALY LANDED COST (7 MODULES)

- **Supplier Master:** OMPI Italy & domestic tooling vendor profiles.
- **Supplier RFQs:** Price & lead-time requests directly to Italy.
- **Supplier Quotations:** Multi-vendor comparison & currency tracking.
- **Supplier PO (SPO):** Advance, BL milestone & dispatch terms in EUR.
- **Multi-Currency FX Engine:** EUR to INR rates via manual entry or online fetch.
- **Customs & Duty Calculator:** Landed unit cost (Freight + Port + Duty).
- **Goods Receipt Note (GRN):** Physical tally against Italian packing list.

3. WAREHOUSE, SPARES & RETROFITS (8 MODULES)

- **SKU Spares Inventory:** Clutch plates, discs, seals, and valves.
- **Bin Location Engine:** Rack/bin coordinate mapping in Pune godown.
- **Stock Transfer:** Inter-warehouse transfers between locations.
- **Delivery Challans (DC):** Full and partial dispatch challans.
- **Gate Passes:** Returnable & non-returnable security gate passes.
- **Digital Job Work Cards:** On-site technician press clutch retrofits.
- **Quality Control (QC):** Defect logging, tolerance and rework tracking.
- **RMA & Warranty Claims:** Damaged unit returns direct to Italy.

4. FINANCE, REPORTS & ADMIN (8 MODULES)

- **GST Sales Invoicing:** Automated CGST/SGST/IGST (HSN 8483).
- **Credit & Debit Notes:** Rate variance adjustments & returns.
- **Accounts Receivable:** Payment receipts & customer ageing tracker.
- **Profitability Analytics:** Gross profit per transaction & part.
- **Global Universal Search:** Instant search across serials, POs, items.
- **Automated PDF Engine:** 1-Click branded invoice & quote dispatch.
- **Role-Based Access (RBAC):** Granular permissions by staff role.
- **Disaster Recovery:** Automated 3-tier rolling database backups.

ON-PREMISE LAN INFRASTRUCTURE & MINIMUM HOST PC SPECIFICATIONS

To eliminate recurring third-party cloud SaaS user subscriptions (saving **₹2,50,000+ annually**), the OMPI Central ERP deploys on a dedicated Host PC within the Pune office. All staff access the software via standard web browsers across the local Wi-Fi/Ethernet network:

Hardware, Power & Concurrency — CLIENT DOMAIN

- **Host PC/Server:** Intel Core i5/i7 (8th Gen+) or AMD Ryzen 5+, 16 GB RAM minimum, 512 GB NVMe SSD.
- **Power Supply & UPS:** Dedicated UPS with minimum 30-minute battery backup to prevent database write corruption during power outages.
- **Local Network:** Standard Gigabit Ethernet switch or Wi-Fi 6 router connecting staff laptops and desktops.
- **Concurrency Baseline:** ACID SQLite architecture is optimized for **up to 15–20 concurrent office LAN users**. (Scaling beyond 20 concurrent write-heavy users requires migration to PostgreSQL, quotable under a future CR).

Defined 3-Tier Backup Architecture — DISASTER RECOVERY

- **Tier 1 (Host Snapshot):** Daily automated SQLite database snapshot archived to a secondary directory on Host PC.
- **Tier 2 (Physical Drive Mirror):** Daily synchronized mirror copy to an external physical USB SSD/HDD (Client ensures external drive remains connected and mounted).
- **Tier 3 (Off-Site Encrypted Cloud):** Periodic encrypted backup stored in Client's secure corporate Google Drive or OneDrive.
- **Operational Backup SLAs:** Automated scripts are provided; Client is responsible for keeping external drive connected and cloud credentials valid. Recovery Time (RTO) guarantees are disclaimed due to reliance on client-managed hardware.

*** Host Environment Boundaries:** Physical computer maintenance, continuous electrical power, operating system licensing/updates, commercial antivirus protection, and internal staff password hygiene remain the exclusive operational responsibility of the Client.

Commercial Valuation & Industry Benchmark

To maintain complete commercial transparency, the professional investment for this dual digital infrastructure is evaluated against estimated IT company market replacement costs and consolidated solutions architecture:

1. ESTIMATED COMMERCIAL IT COMPANY REPLACEMENT COMPARISON

Commercial IT companies in Pune and Mumbai price enterprise web platforms and multi-module ERP systems as separate contracts with high corporate sales overheads. Below is an estimated industry comparison:

DELIVERABLE DOMAIN	ESTIMATED IT COMPANY COST	OUR STRATEGIC ENGAGEMENT FEE
Dalal Machine Tools Web Platform (24 Pages, up to 60 Machine Catalog, High Seas Calc, Staff & Super-Admin CMS, PDF Datasheets, SEO, GEO, GA4 Telemetry)	₹4,80,000 – ₹7,30,000 (Estimated)	**₹2,00,000 Flat**
OMPI India Central ERP (33 Enterprise Modules, Italy Landed Cost Engine, Local LAN Deployment)	₹18,00,000 – ₹25,00,000 (Estimated)	**₹5,60,000 Flat**
In-Scope Technical Maintenance & Staff Training (Active during 8-month engagement lifecycle)	₹2,40,000 – ₹3,60,000 (Estimated)	**Integrated in Fee (₹0)**
TOTAL COMBINED COMMERCIAL INVESTMENT (WEBSITE + OMPI ERP)	**₹25,20,000 – ₹35,90,000 + GST** (Estimated Total)	**₹7,60,000 Flat**

* Note: IT company costs are estimated industry replacement valuations based on standard Tier-1/Tier-2 Indian software consultancy billing rates (₹1,200–₹1,800/hr) for full-stack enterprise systems.

2. STRATEGIC PARTNERSHIP ADVANTAGE & DIRECT CAPITAL SAVINGS

Direct Capital Savings: Approx. ₹17,60,000 to ₹28,30,000 (Estimated) — **~70% TO 79% ESTIMATED CAPITAL REDUCTION**

By consolidating both Dalal Machine Tools and OMPI India under a single strategic technology partnership, we eliminate duplicate agency management layers, sales commissions, and administrative markups. The Client secures an institutional-grade enterprise ecosystem with clear separate allocation: **Dalal Web Platform: ₹2,00,000** and **OMPI Central ERP: ₹5,60,000** for a combined turnkey total of **₹7,60,000 Flat**.

3. ENTERPRISE DELIVERY GOVERNANCE & ARCHITECTURAL GUARANTEES

This engagement is structured under institutional engineering governance to guarantee high system reliability, strict data isolation, and entity-specific intellectual asset protection:

◆ Decoupled IP & Source Code Ownership — ENTITY-SPECIFIC

- **Dalal Web Platform IP:** Full custom source code, templates, and digital assets transfer to **Dalal Machine Tools Agency Pvt. Ltd.** via a formal written, countersigned Deed of Intellectual Property Assignment **upon formal Go-Live acceptance AND full clearance of the ₹2,00,000 mobilization fee** (executed within 7 business days thereof).
- **OMPI Central ERP IP:** Database schemas, service layer, and custom code transfer to **OMPI India LLP** via a formal written, countersigned Deed of Intellectual Property Assignment upon receipt of full settlement of the ₹5,60,000 ERP fee.
- **Active Engagement License:** During the engagement lifecycle, Client holds a **non-exclusive, non-transferable commercial license** to deploy and operate the deliverables for internal and public business operations, **valid so long as applicable engagement fees are paid in accordance with the agreed schedule**. Consultant retains pre-existing tools and open-source libraries.

✓ Industrial Reliability & Data Privacy — ENTERPRISE GRADE

- Offline-First LAN capability keeps Pune warehouse running during ISP outages.
- Confidential pricing margins, European import invoices, and customer credit ledgers remain strictly isolated within your local office network.
- Automated daily rolling snapshots support operational disaster recovery.
- Multi-tier adaptive rate limiting & cryptographic salting (Bcrypt 10 rounds) defeat brute-force intrusion and credential theft.
- Open-standard architecture ensures zero long-term dependency on proprietary vendor clouds.

Integrated Value Inclusions & Operational Boundaries

To ensure complete alignment and eliminate future project friction, this section documents the comprehensive value deliverables included within the engagement fee, alongside explicit scope exclusions and client SLA commitments:

1. INTEGRATED VALUE DELIVERABLES INCLUDED WITHIN ENGAGEMENT FEE

SERVICE / ARCHITECTURE ASSET	ESTIMATED IT COMPANY COST	ENGAGEMENT STATUS
In-Scope Technical Maintenance & Bug Remediation: Defect fixing for agreed 33 modules during 8-month lifecycle.	₹2,40,000 (Estimated)	**Included in Fee (₹0)**
On-Premise Local LAN Architecture: Eliminates recurring third-party cloud SaaS user subscriptions.	₹2,50,000+ / Year (Estimated)	**Included in Fee (₹0)**
Staff Onboarding, Role Training & Documentation: Up to 12 hours total across structured on-site/remote sessions at Pune yard for up to 8 staff members, supplemented with recorded video walkthroughs and a PDF User Training Manual.	₹75,000 (Estimated)	**Included in Fee (₹0)**
Google SEO, AI Search (GEO) /llms.txt & AEO Architecture: Sitemaps, robots.txt & rich Schema.org markup.	₹60,000 (Estimated)	**Included in Fee (₹0)**
Automated 3-Tier Rolling Disaster Recovery Engine: Scheduled database snapshots protecting business data.	₹40,000 (Estimated)	**Included in Fee (₹0)**
1-Click Excel / CSV Leads Exporter: Instant UTF-8 BOM offline buyer lead downloads with filter states.	₹30,000 (Estimated)	**Included in Fee (₹0)**

2. EXPLICIT SCOPE EXCLUSIONS (QUOTED SEPARATELY VIA CHANGE REQUEST)

To protect project timeline and focus, the following items are explicitly **out of scope** of this agreement:

- **Hardware & Physical Infrastructure:** Procurement of server PCs, laptops, UPS units, networking switches, and physical LAN cabling.
- **Manual Backlog Data Entry:** Physical typing or data entry of legacy physical invoices, paper stock registers, or historical paper records.
- **Content & Machine Photography:** Copywriting, machine spec authoring, professional photography, or video production at the Pune yard.
- **Corrupt Legacy Migration:** Cleansing or automated ETL migration from corrupt or unstructured historical Excel spreadsheets.
- **Native Mobile Apps:** Native iOS/Android app store packages (PWA responsive web mobile access is included).
- **Government e-Invoicing (IRN) Portal API:** Direct automated GST e-Invoicing portal IRN/QR code API generation (requires authorized GSP account; quoted separately if required).
- **Third-Party ERP Connectors:** Direct real-time bidirectional APIs to external accounting suites (e.g. Tally Prime API, SAP, Oracle).
- **Catalog Ceiling:** Web catalog onboarding covers up to 60 distinct machinery items (Client provides specs/photos in template; Consultant uploads and verifies up to 60 items). Batch entry beyond 60 quoted separately.

3. CLIENT RESPONSIBILITIES, FEEDBACK SLAS & DEEMED ACCEPTANCE PROTOCOLS

Client Obligations & Feedback SLA — PREREQUISITE

- **Timely Material Provisioning:** Client shall provide technical machine specifications, photographs, and Italian import pricing formula sheets in a timely manner.
- **Single Point of Contact (SPOC):** Client shall designate a single authorized project manager/approver to consolidate internal feedback and avoid contradictory instructions.
- **Feedback Turnaround SLA:** Client agrees to review sprint deliverables and provide consolidated feedback within **3 to 5 business days** of submission.

Defect Definition & Deemed Acceptance — PROTOCOL

- **7-Day Review Window:** Client has **7 business days** following milestone delivery to test and submit documented reproducible defects.
- **Deemed Acceptance:** If no written defect report is submitted within 7 business days, the milestone deliverable shall be deemed formally accepted.
- **Defect Definition vs CR:** A 'Defect' is strictly defined as a mismatch with the written 33-module specification. Requests for UI restyling, new fields, or alternative workflows are paid Change Requests. Work on any CR commences solely upon mutual written approval of a formal Change Request form and commercial quotation.

COMMERCIAL AGREEMENT & LEGAL SIGN-OFF

MILESTONE PAYMENT SCHEDULE • COMPREHENSIVE LEGAL TERMS & EXECUTION

Document Ref: **DMTA-OMPI-PROP-2026-v1.0**
Payment Structure: **1 Advance Mobilization + 7 Monthly Sprints**
Governing Law: **Republic of India (Jurisdiction: Pune)**

Commercial Milestones & Payment Schedule

ENTITY & TIMELINE	MILESTONE DELIVERABLE SCOPE	AMOUNT (INR)
A. DALAL MACHINE TOOLS DIGITAL WEB PLATFORM (DIRECT SALES ENGINE)		**₹2,00,000**
Month 1 (Advance)	**Dalal Platform Go-Live & Mobilization:** 24-Page Public Catalog Platform, High Seas Sales Calculator, Staff Admin CMS & Super-Admin Security Portals, 1-click branded PDF spec sheets, instant WhatsApp RFQ dispatch, Google SEO + AI Search feeds, GA4 telemetry (Client provides specs/photos in template, Consultant uploads up to 60 machines).	**₹2,00,000**
B. OMPI INDIA CENTRAL ERP SYSTEM (33 MODULES • 7 MONTHLY SPRINTS)		**₹5,60,000**
Month 2	Customer Master, Customer 360° Profile, and Enquiry Pipeline Management.	₹80,000
Month 3	Costing Sheets, Multi-Revision Quotation Engine (PDF) with Manager Approvals.	₹80,000
Month 4	Supplier POs & **Italy Landed Cost Engine** (EUR to INR FX + Duty).	₹80,000
Month 5	Spares & SKU Warehouse Inventory, Pune Godown Bin Tracking & Stock Transfers.	₹80,000
Month 6	Digital Job Work Cards (Clutch retrofits), QC Reports & Dispatch Gate Passes.	₹80,000
Month 7	GST Sales Invoicing, Credit/Debit Notes, and Accounts Receivable Ledger.	₹80,000
Month 8	Final Handover, LAN Multi-User Setup, Staff Training & Project Sign-Off (Formal Deed of IP Assignment executed within 7 business days following receipt of Month 8 fee).	**₹80,000**
C. In-Scope Maintenance:	Continuous defect remediation and logic corrections during 8-month engagement lifecycle.	**INCLUDED (₹0)**
TOTAL UNIFIED COMMERCIAL INVESTMENT (WEBSITE ₹2,00,000 + OMPI ERP ₹5,60,000)		**₹7,60,000**

COMPREHENSIVE LEGAL TERMS, WARRANTIES & OPERATIONAL DISCLAIMERS

1. Invoicing Schedule, Commencement & Timeline Flexibility: Month 1 invoice raised upon signing; advance clearance date marks Commencement Date. Sprint Invoices for Months 2–8 raised on milestone completion of each sprint, payable within 7 business days. If payment delayed >10 calendar days, work may be paused without penalty. If Client review delays extend work beyond 8 months, sprint amounts remain fixed and dates extend proportionately without consultant penalty.

2. Separate Invoicing, Joint Liability, TDS & GST: Invoices raised separately to Dalal Machine Tools Agency Pvt. Ltd. (₹2.00L) and OMPI India LLP (₹5.60L across 7 sprints @ ₹80k/mo). Both entities are jointly and severally liable for payment. Subject to statutory TDS; Client shall deposit TDS timely and issue valid Form 16A certificates. GST currently not applicable (consultant unregistered under CGST Sec 22 threshold); if GST becomes applicable, 18% shall be levied additionally.

3. Working Hours & Response SLA: Technical support and coordination are available Monday through Saturday during standard business hours (10:00 AM – 6:30 PM IST), excluding Sundays and national holidays. Consultant commits to an initial issue acknowledgement and triage response within **1 business day**.

4. Third-Party Services & Pass-Through Costs: Domain names, Cloud VPS hosting, Google/Zoho email tenants, and Meta WhatsApp Cloud API / SMS messaging credits MUST be procured in Client's corporate legal name, registered under Client's payment cards, and paid directly by Client at actuals. Consultant bears no liability for service outages or third-party policy changes.

5. SEO, Landed Cost & Tax Disclaimers: Technical SEO and AI Search (GEO) provide discoverability architecture; specific search rankings, traffic volume, inbound inquiries, or machinery sales conversions are expressly disclaimed. European import landed cost calculation is a computational tool; statutory tariffs, IGST, cess, freight, and FX rates must be independently verified by Client or their licensed CHA. GST invoicing modules are administrative utilities; legal tax filing and regulatory compliance remain solely Client's and their CA's responsibility.

6. Mutual Confidentiality (3-Year Covenant): Both parties agree to maintain strict mutual confidentiality regarding trade secrets, source code, European import pricing, margins, customer ledgers, and technical architecture for a period of three (3) years from disclosure. Confidential information shall not be disclosed to any third party without prior written consent.

7. Limitation of Liability & Carve-Outs: To the maximum extent permitted by law, Consultant's total aggregate liability shall not exceed the professional fee actually received by Consultant. Neither party shall be liable for indirect, incidental, punitive, special, or consequential damages, including loss of business profits, goodwill, or business data. Nothing in this clause limits liability for fraud, gross negligence, or wilful misconduct.

8. Defect Dispute Protocol & Payment Integrity: In the event of a good-faith defect dispute regarding a specific deliverable, the undisputed portion of any invoice must be paid on schedule. Client shall not withhold payment for unrelated or accepted modules due to minor non-material defects.

9. Warranty, Post-Handover AMC & Client Content IP: Consultant provides a 30-day warranty post-handover to rectify critical reproducible defects matching the 33-module specification. Ongoing maintenance thereafter is available under an optional AMC. Client warrants holding full legal copyright to all logos, trademarks, and machine photographs provided.

10. Bilateral Termination, Default Protection, Notices & Stamp Duty: Either party may terminate upon 30 days' written notice. If Client terminates prior to completion, all completed milestones and active sprint retainers up to termination date remain payable in full, and the Month 1 advance mobilization fee is strictly non-refundable. Consultant may terminate upon 7 days' written notice if invoices remain unpaid >30 calendar days. Upon termination, IP assignments execute solely for deliverables fully paid. Formal notices via registered email and registered office address. Agreement executed per Maharashtra Stamp Act; stamp duty shared equally (50:50). Governed by laws of India; courts in Pune hold exclusive jurisdiction.
