B2B MACHINERY WEB PORTAL & OPERATIONS SUITE

Turnkey Website Engineering, Catalog System, Staff Admin Hub & Production Deployment

CLIENT ORGANIZATION	Dalal Machine Tools Agency Pvt. Ltd.	CLIENT SIGNATORY	Mr. Vinit Dalal (Managing Director)
LEAD SOFTWARE ARCHITECT	Suyash Shinde (Fullstack Engineer)	OPERATING FACILITIES	Mumbai HQ (Tardeo) & Chakan Yard (Pune)
INDUSTRY DOMAIN	Heavy Metal Forming & Cutting Machinery	DOCUMENT STATUS	**Draft for Client Review & Sign-Off**
DATE OF ISSUANCE	15 October 2026	PROPOSAL VALIDITY	**10 Days (Valid Through 25 Oct 2026)**

CONFIDENTIAL & PROPRIETARY NOTICE: This technical specification and architectural scope represent the proprietary work product of **Suyash Shinde**, formulated exclusively for the internal review of **Dalal Machine Tools Agency Pvt. Ltd.** Unauthorized reproduction, external distribution, or sharing with third-party software contractors for competitive benchmarking is strictly prohibited under the Indian Copyright Act, 1957.

1.0 EXECUTIVE OVERVIEW & COMMERCIAL INDEPENDENCE

This Statement of Work (SOW) defines the technical and operational deliverables for the turnkey digital modernization of **Dalal Machine Tools Agency Pvt. Ltd.** With over 20+ years of pedigree as a premier stocking supplier of heavy metal forming, cutting machinery, and mechanical presses, the organization requires an enterprise-class digital platform to showcase its multi-thousand-ton inventory to industrial buyers across India and global export markets.

Independence of Commercial Agreement: This document governs *purely technical and functional deliverables*. All financial consideration, milestone payment amounts, bank remittance details, and statutory tax particulars are governed exclusively under separate **Commercial Quotation / Invoice Ref: INV-SS-2026-001**. Transfer of intellectual property, source code, and administrative credentials is strictly conditioned upon receipt of full commercial payment as defined in Clause 11.0.

2.0 EXHAUSTIVE 24-PAGE PUBLIC PORTAL ROUTE INVENTORY

The public-facing web suite comprises exactly 24 fully engineered, responsive web pages (360px mobile to 1920px 4K desktop). Zero placeholder routes are utilized across the production deployment:

DIVISION 1: CORE SHOWCASE, SOURCING & CONVERSION (ROUTES 01 TO 12)	DIVISION 2: ENGINEERING PROOF, SPARES & RFQ WORKFLOWS (ROUTES 13 TO 24)
01 Homepage (index.html): Hero slider, 4 value pillars, featured machinery grid, High Seas banner, OMPI co-brand section.	**13 Industry Journal (blog.html):** Global forging trends, European machinery availability, and technical maintenance articles.
02 About Company (about.html): 20+ years pedigree, leadership, European/Japanese sourcing network, Chakan yard logistics.	**14 Featured Article (blog-large-image.html):** Lead visual article layout with high-res machinery media assets and related catalog links.
03 Import Services (services.html): 6 Pillars of machinery import, CIF shipping up to 6,300T, customs clearance, High Seas tool.	**15 Inspection Case Study (blog-single.html):** Detailed walkthrough of heavy mechanical presses inspected overseas under power.
04 Machinery Catalog (category.html): 26-category directory, instant faceted search, tonnage filters, yard location toggles.	**16 Installation Projects (projects.html):** Case studies of 1,600T to 4,000T press line installations across auto component clusters.
05 Product Detail Page (product.html): High-res lightbox gallery, 10-row technical specification matrix, foundation drawings, WhatsApp RFQ.	**17 Heavy Rigging Gallery (projects-modern.html):** Modern visual showcase of 80+ ton single-piece castings and foundation erections.
06 Brand New Units (brand-new-machinery.html): OMPI India LLP pneumatic clutch & brake units, safety valves, authorized representation.	**18 Filtered Projects (projects-with-filter.html):** Filterable plant installations by sector (Forging, Stamping, Heavy Machining, Defense).
07 Shipment Archive (gallery.html): Photographic import ledger, container un-stuffing archive, heavy rigging at Chakan yard.	**19 Turnkey Plant Project (projects-single.html):** Deep-dive case study of a complete forging press line commissioned at client factory premises.
08 Contact Center (contact.html): Mumbai HQ & Chakan yard address, interactive map, direct WhatsApp trigger, general RFQ form.	**20 Tooling & Spares (shop.html):** Auxiliary tooling, die blocks, bolster plates, clutch linings, ready-stock wear parts.
09 Express Inquiries (contact-2.html): Quick-quote submission interface with capacity/tonnage selector and immediate sales routing.	**21 Spares Detail (shop-single.html):** Technical specification view for specialized press spares, ejector pins, and lubrication units.
10 Industrial FAQs (faqs.html): Customs clearance walkthrough, High Seas benefits, under-power inspection, CIF terms.	**22 Consolidated RFQ Cart (shoping-cart.html):** Multi-machine and tooling consolidation cart for bundled package inquiries.
11 Client Endorsements (testimonial.html): Automotive and aerospace forging customer reviews, delivery credentials, repeat client proof.	**23 Formal RFQ Submission (checkout.html):** Structured multi-item quotation request dispatching client requirements to sales team inbox.
12 Import Tariffs (pricing.html): High Seas Sales savings structure, duty deferral benefits, and GST Input Tax Credit advisory.	**24 Error Recovery (404.html):** Custom 404 error page directing misplaced visitors back to active machinery catalog categories.

3.0 MACHINERY DIRECTORY (26 CATEGORIES) & DATA MODEL

The catalog structures Dalal's inventory across 26 distinct categories. The software architecture supports unlimited listings under each category:

METAL FORMING MACHINERY DIVISION (16 CATEGORIES)	METAL CUTTING MACHINERY DIVISION (10 CATEGORIES)
1. Hot Forging Presses (500T to 6,300T Crank & Eccentric) 2. Knuckle Joint Coining & Sizing Presses 3. Mechanical Power Presses (C-Frame & H-Frame) 4. Hydraulic Deep Drawing & Stamping Presses 5. Pneumatic & Air Drop Forging Hammers 6. Counterblow Hammers (Beche, Lasco) 7. Friction Screw Presses (Hasenclever, Weingarten) 8. Cold Forging & Heading Machines 9. Horizontal Forging Machines (Upsetters) 10. Open Die Forging Presses & Manipulators 11. Hydraulic & Mechanical Shearing Machines 12. CNC & Hydraulic Press Brakes 13. Plate Bending & 3-Roll / 4-Roll Bending Machines 14. Section Bending & Profile Rolls 15. High-Speed Blanking & Stamping Presses 16. Forging Ring Rolling Machines	1. Horizontal Boring Machines (TOS, Skoda, Pama) 2. Floor Type Horizontal Boring & Milling Machines 3. Vertical Machining Centers (VMC 3-Axis / 5-Axis) 4. Horizontal Machining Centers (HMC) 5. Vertical Turning Lathes (VTL / Single & Double Column) 6. Heavy Duty CNC & Conventional Lathes (Up to 12m Bed) 7. Gear Hobbing Machines (Liebherr, Pfauter) 8. Gear Shaping & Gear Grinding Machines 9. Surface & Cylindrical Grinding Machines 10. Plano Millers & Heavy Gantry Milling Machines

▪ **Standardized Machine Technical Specification Grid (10 Parameters)**

Every individual machine detail page displays a standardized engineering specification matrix:

- **Identification:** Make (e.g. Voronezh, SMERAL, National), Model, Year of Manufacture, Origin (Germany, Japan, Russia, Taiwan).
- **Mechanical Capacities:** Nominal Force (Tonnage), Ram Stroke (mm), Continuous Strokes per Minute (SPM), Shut Height / Daylight (mm).
- **Bed & Table Dimensions:** Bed Size Length × Width (mm), Ram Face Dimensions (mm), Main Motor Rating (kW), Total Machine Weight (Tons).
- **Operational Status:** Location (Chakan Yard vs European/Asian Stock), Inspection Status (Seen Under Power seal), and Foundation Drawings availability.

4.0 INTERACTIVE CALCULATORS & REGULATORY DISCLAIMERS

▪ **High Seas Sales Savings & Customs Calculator (Indicative Tool)**

Client-facing computational tool on the Services page allowing industrial buyers to estimate duty optimization under High Seas agreements:

- **Inputs:** Machine Baseline CIF Capital Valuation, applicable Customs Duty tariff rate, Port Handling charges, and domestic freight.
- **Computational Logic:** Evaluates comparative landed outflow between standard post-customs procurement versus High Seas Sales transfer prior to clearance.
- **STRICT REGULATORY & TAX DISCLAIMER:** This calculator is an indicative, informational demonstration tool. It does **not** constitute statutory customs, taxation, or legal advice under the Customs Act, 1962, or GST legislation. Customs tariff schedules, duty concessions, and IGST rates vary by HSN classification and government notifications. All tariff formulas, duty percentages, and input variables must be supplied and validated by Dalal Machine Tools Agency Pvt. Ltd. The Consultant assumes zero liability for third-party tax assessments, buyer duty discrepancies, or customs authority penalties.

▪ **1-Click WhatsApp Direct RFQ Lead Engine**

Direct lead trigger passing pre-formatted machine metadata (Title, Model, Tonnage, Page URL) into an instant WhatsApp message directed to Dalal's designated sales number. *Note: Instant trigger execution is subject to client device operating system permissions and active network connectivity.*

5.0 STAFF ADMIN PORTAL (/ADMIN) & SUPER-ADMIN CONSOLE (/SUPERADMIN)

▪ **In-House Staff Admin Operations Portal (/admin)**

- **Inventory CRUD:** Add new machinery, update mechanical specs (Stroke, Tonnage, Bed Dimensions, Motor), and upload photographic assets.
- **Lifecycle Status Toggle:** 1-Click status transitions between `Live (Active Catalog)`, `Draft (Under Verification)`, and `Sold Out (Archive)`.
- **Photo Dropzone Uploader:** Multi-image dropzone with automatic image aspect ratio normalization and thumbnail generation.
- **Customer RFQ Lead Inbox:** Consolidated inbox capturing web form submissions with Buyer Name, Company, Contact, Machine Requested, and Status tags.
- **Stock Catalog CSV/Excel Export:** Single-click stock list export generating a structured CSV/Excel spreadsheet of all live machines with full specifications.

▪ **Super-Admin Governance & Security Console (/superadmin)**

- **Executive Telemetry:** Dashboard displaying active inventory count, lead pipeline volume, and database storage utilization.
- **Staff Account Provisioning & RBAC:** Creation and revocation of staff login credentials with Role-Based Access Control (SuperAdmin vs Sales Viewer).
- **Immutable Security Audit Log:** Chronological ledger capturing administrative events (user identity, action executed, timestamp, IP address).
- **1-Click Database Snapshot Backup & Restore:** Generates point-in-time JSON database snapshots for offsite archival, with immediate restore capability.

6.0 SEO, GENERATIVE AEO & TECHNICAL PERFORMANCE BOUNDARIES

▪ **Search Engine Optimization & Generative AEO Architecture**

- **On-Page Technical SEO:** Unique Meta Titles, keyword-optimized Descriptions, OpenGraph social sharing tags, and Canonical tags across all 24 individual pages.
- **Dynamic XML Sitemap & Robots.txt:** Automated sitemap generation directing Google search crawlers to index every machine category and product listing.
- **Structured Schema Markup (JSON-LD):** Implementation of `Organization`, `LocalBusiness` (Mumbai HQ & Chakan Yard coordinates), and `Product/ItemList` schemas to trigger rich snippets in Google search results.
- **Generative AI Engine Optimization (AEO):** Semantic content hierarchy structured to facilitate direct entity indexing and factual citations by conversational AI models (ChatGPT, Perplexity, Google AI Overviews).
- **Google Search Console Verification & GA4:** Official domain ownership verification via DNS TXT records, XML sitemap indexing submission, and GA4 property setup with custom event tracking for WhatsApp clicks and RFQ completions.
- **Privacy Policy & Cookie Consent:** Inclusion of a standardized Privacy Policy page and Cookie Consent banner covering RFQ personal data processing (Name, Mobile, Email) and GA4 cookie compliance.
- **STRICT DISCLAIMER ON SEARCH ENGINE & AI PERFORMANCE:** The Consultant delivers sound technical SEO and structured data architecture compliant with Google Search Central guidelines. However, search engine ranking positions, organic traffic volumes, indexing speeds, and third-party AI conversational citations are determined by proprietary algorithms outside the Consultant's control. No specific search ranking or third-party AI citation is guaranteed.
- **Browser Performance Standard:** Zero JavaScript console errors is guaranteed specifically on the formal acceptance sign-off date across current stable evergreen desktop and mobile browsers (Google Chrome, Microsoft Edge, Mozilla Firefox, Apple Safari). Page load latency metrics depend on client VPS hosting bandwidth and end-user network ISP conditions.

7.0 PRODUCTION SERVER HOSTING & INFRASTRUCTURE DEMARCATION

▪ **Production Server Setup, SSL & Security Hardening**

- **Process Management Daemon:** Configuration of PM2 Process Manager under Node.js runtime with automatic process recovery and static asset compression.
- **Domain DNS Mapping & SSL (HTTPS):** Full DNS configuration for official domain pointing (A-Records, CNAME records, and www canonical redirection) with Let's Encrypt TLS 1.3 automated renewal.
- **Security Hardening:** Rate limiting on administrative login routes (25 req/min) and RFQ endpoints (30 req/min), stored XSS input sanitization, security response headers (Helmet standard), and execution of a 24/24 regression test suite prior to live sign-off.
- **Hosting Responsibility Demarcation:** The Client is solely responsible for procuring, funding, and maintaining the underlying cloud VPS hosting environment (Ubuntu LTS) and domain registration. The Consultant's obligation is strictly limited to initial environment provisioning, software deployment, and server daemon configuration. Routine database backups reside within the client's VPS partition; off-site physical drive transfers and external disaster recovery storage are client operational responsibilities.

8.0 CONTENT POPULATION, CLIENT DEPENDENCIES & DEEMED ACCEPTANCE

▪ **Content Population Boundary & Initial Seed Data**

The Consultant's obligation is to build the complete software engine, 24 page templates, responsive layouts, administrative systems, and populate an initial seed dataset of **up to 15 representative machine listings** (complete with specifications and sample photography) to demonstrate production standards. Final population of the remaining machinery inventory, machine specifications, high-res photos, client testimonials, and corporate copywriting is the operational responsibility of Dalal Machine Tools Agency Pvt. Ltd. via the self-service `/admin` portal.

▪ **Client Dependencies, Feedback Timeline & Deemed Acceptance**

- **Technical Dependencies:** The Client shall furnish domain registrar DNS access, cloud VPS root credentials, and company visual assets within **3 (three) business days** of written request.
- **Review Period & Deemed Acceptance:** Upon demonstration of milestone deliverables on the staging server, the Client shall review and provide consolidated feedback within **5 (five) business days**. If no written defect notice is received within 5 business days, the milestone shall be formally deemed accepted.
- **Change Request (CR) Governance:** Any feature additions, structural workflow modifications, or new page templates requested outside this SOW shall be treated as a formal Change Request and quoted under separate scope.

▪ **Third-Party Brand Clearance (OMPI India LLP) & Cross-Client Isolation**

Brand Authorization: The Client warrants that it holds valid, written authorization and intellectual property clearance from OMPI India LLP to display its trademarks and products on `brand-new-machinery.html`.
Cross-Client Non-Disclosure: The Consultant maintains strict technical and commercial isolation between Dalal Machine Tools Agency Pvt. Ltd. and OMPI India LLP. No proprietary documentation, codebase architectures, commercial rates, or trade secrets shall be shared across client entities.

9.0 IMPLEMENTATION PHASES & VERIFICATION MILESTONES

PHASE	DELIVERABLES INCLUDED	TECHNICAL VERIFICATION & ACCEPTANCE CRITERIA
Phase 1	Information Architecture, 24-Page Web Suite, Design System & Responsive Layouts.	Full responsive layout demonstration across mobile, tablet, and desktop viewports with 0 JavaScript console errors.
Phase 2	26-Category Catalog, Faceted Filters, PDP Specification Matrix, High Seas Calculator, WhatsApp RFQ.	Catalog filtering tested across all 26 categories; WhatsApp lead generator verified on physical devices; calculator verified.
Phase 3	Staff Admin Portal (/admin), Super-Admin Console (/superadmin), Inventory CRUD, Stock CSV Export.	Admin CRUD demonstrated (add/edit/status toggle); photo dropzone tested; stock export verified in Excel; audit logs verified.
Phase 4	Production Server Daemon, Domain DNS Pointing, SSL Security, Google Search Console Verification & Handover.	Website live globally on official domain with green SSL lock; Google Search Console DNS verified; full administrative handover.

10.0 SCOPE BOUNDARIES: INCLUSIONS & EXCLUSIONS

10.1 INCLUDED IN PROJECT SCOPE

- Full engineering of 24 responsive web pages.
- 26-category machinery catalog architecture.
- Standardized PDP specifications grid and lightbox.
- High Seas Sales savings calculation tool.
- 1-Click WhatsApp direct RFQ lead engine.
- Staff Admin Portal with inventory CRUD & CSV export.
- Super-Admin console with RBAC & audit logging.
- 1-Click database snapshot backup & restore system.
- On-page SEO, XML sitemaps, and Schema markup.
- Google Search Console verification & GA4 setup.
- Production server daemon setup & SSL security.
- Complimentary 30-day post-launch technical warranty.
- 100% intellectual property & source code handover.

10.2 EXCLUDED (OUTSIDE SOFTWARE SCOPE)

- Third-party annual domain registration renewals (maintained directly by Client with domain registrar).
- Cloud VPS hosting server subscriptions or email accounts (managed directly by Client with hosting infrastructure provider).
- Physical computer hardware repair, office networking cabling, or printer maintenance at Mumbai/Chakan offices.
- Native mobile application development (iOS/Android app stores) outside the responsive web suite.
- On-site international machinery photography visits to overseas seller yards in Europe, Japan, or Russia.

11.0 IP HANDOVER, BACKGROUND IP CARVE-OUT & WARRANTY VS AMC

Intellectual Property Transfer Conditioned upon Full Payment: All customized application templates, client-specific database schemas, visual branding assets, and administrative access credentials created under this engagement become the exclusive intellectual property of **Dalal Machine Tools Agency Pvt. Ltd.** strictly upon receipt of full, final commercial settlement as stipulated in Commercial Invoice `INV-SS-2026-001`.

Consultant Background IP Carve-Out: Pre-existing software patterns, modular libraries, generic UI components, utility scripts, and reusable architectural toolchains developed prior to or independently of this engagement remain the proprietary intellectual property of Suyash Shinde. Dalal Machine Tools Agency Pvt. Ltd. is granted an irrevocable, perpetual, non-exclusive, royalty-free license to use, modify, and operate such components solely as part of the delivered platform.

Portfolio & Case Study Rights: The Consultant retains the perpetual right to display non-confidential project screenshots, performance metrics, and general case study descriptions in professional portfolios, resume credentials, and technical demonstrations.

Technical Warranty vs Change Request: The complimentary 30-day warranty commences from the official live domain deployment date and covers *Defects* (reproducible programming bugs or non-conformance with this SOW). The warranty strictly excludes *Change Requests* (new fields, layout alterations, copywriting revisions, new pages, or browser updates released after delivery date).

Optional Post-Warranty Support (AMC): Following the expiration of the 30-day warranty, Dalal Machine Tools Agency Pvt. Ltd. may elect to retain the Consultant under an ongoing **Annual Maintenance Contract (AMC)** at a mutually agreed monthly retainer covering regular database backup integrity checks, security patch updates, server OS maintenance, and priority bug troubleshooting.

12.0 FORMAL CLIENT ACCEPTANCE & TECHNICAL DELIVERY SIGN-OFF

By signing below, the authorized representatives of Dalal Machine Tools Agency Pvt. Ltd. and the Lead Software Architect formally validate, accept, and sign off on this Technical Statement of Work (SOW):

CLIENT ACCEPTANCE (APPROVING AUTHORITY)

Client Organization: Dalal Machine Tools Agency Pvt. Ltd.
Authorized Signatory: Mr. Vinit Dalal
Designation: Managing Director
Headquarters: Tardeo, Mumbai - 400034

Signature & Company Seal:
Date: _____ | **Place:** Mumbai / Pune

ENGINEERING ACCEPTANCE (TECHNICAL AUTHORITY)

Consultant: Suyash Shinde
Role: Lead Software Architect & Solutions Engineer
Email: suyashshinde360@gmail.com • **Direct:** +91 94056 61922
PAN / GST Status: Threshold Exemption (Sec 22(1) CGST Act, SAC 998314)

Signature:
Date: _____ | **Place:** Pune
