PROPOSED STATEMENT OF WORK (SOW) • ARCHITECTURAL ENGINEERING BLUEPRINT

ed Digital Modernization Blueprint

ıine Tools Agency Pvt. Ltd. (B2B Web Portal) & OMPI India LLP (Centralized ERP)

sive pre-kickoff technical specification outlining how both systems will be engineered from the ground up to automate heavy machinery sales inquiries and streamline Italia operations upon project initiation.

rm Scope

Showcase Web Portal for Dalal + 33-Module Office ERP for OMPI

24 Public Web Pages

Complete machine catalog with tonnage filters, instant PDF spec downloads, and direct WhatsApp lead routing.

33 Office ERP Modules

Custom quoting, instant clutch sizing calculations, international import costing, and Bhosari stock control.

Bank-Grade Security

Role-based staff login protecting se prices, profit margins, and custome

rash Shinde • Pimpri, Pune • +91 96070 28594

s: Pre-Kickoff Engineering Architecture Proposal • Commercial investment positioned on Slide 21.

CONFIDENTIAL • INTERNAL

ARCHITECTURE

AR

e Proposed Solution Operates

ease of use by factory buyers, office sales engineers, and warehouse stock handlers

Web Showroom

ng Portal: Fast, mobile-friendly 24-page website built for Dalal Machine Tools Agency.

earch Filters: Factory purchase managers can by tonnage (400T, 630T, 1000T, 1600T, 2500T) e condition.

ec Sheets: One-click download of branded pecification PDFs for internal plant management

d Capture: Instant WhatsApp integration interested machinery buyers directly to the d sales team.

2. Centralized Office ERP

Internal Operations Suite: Secure 33-module operations system built specifically for OMPI India LLP's Pune office and warehouse.

Automated Sizing Calculator: Engineers input press RPM and torque to automatically select the correct Italian OMPI clutch model in seconds.

True Landed Cost Engine: Automatically calculates import duty, port customs clearance, freight, and Euro-to-INR conversions.

Stock & Spares Control: Live tracking of friction discs, seals, and valves in Bhosari depot to prevent stockouts.

3. Secure Infrastructure

Zero Cloud Lock-in: Runs on local office PCs in Bh optional secure cloud sync for remote director acc

Automated Daily Backups: Tri-level data protectio daily snapshots, external drive backup, and encryp archive.

Role-Based Security: Sales staff can create quotat cannot view confidential supplier margins or direct

No Monthly SaaS Fees: 100% custom-built for you perpetual software ownership and zero recurring u subscription fees.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

LOGY SELECTION

TEC

Modern, Proven Business Technology

hnology was chosen for your long-term speed, security, and low operating costs

st Web Engine (Node.js & Modern HTML5)

enefit: Pages load in under 1.5 seconds on mobile phones and laptops even on 4G s.

ters: Plant directors searching for machinery on their phones will never face lagging oken screens.

enance: Built to run stably 24/7 without requiring expensive daily technical e.

Industrial-Grade Database (PostgreSQL)

Business Benefit: The world's most trusted relational database used by global industria enterprises.

Why It Matters: Ensures zero data loss or duplicate records when 10 different staff mem access stock simultaneously.

Full Data Ownership: All your machine catalogs, customer contacts, and quotation reco 100% under your ownership.

N + Cloud Versatility (Node.js)

enefit: Can run completely offline inside your Bhosari office LAN server without active internet connection.

ters: Work never stops during internet outages; quotes and inventory updates continue .

dy: Easily synchronizes with private cloud whenever directors travel abroad to Italy or itions.

Bank-Grade Data Security (Role-Based RBAC)

Business Benefit: Strict password authentication and role-based permissions for every member.

Why It Matters: Yard staff see machine locations, sales engineers create quotes, but pr margins remain restricted to directors.

Audit Trails: Every quotation discount and inventory adjustment is logged with staff nan timestamp.

STRUCTURE

24 PUB

Showroom & Inventory Pages (Routes 01 to 08)

Breakdown of the first 8 web pages, their structure, and their commercial purpose

	Website Address	Key Customer Sections	Business Purpose & Commercial Value ('Kaam')
e	/	Hero Banner, Category Grid, Featured Presses	Primary brand showcase; displays high-ticket forging & stamping presses to immediate credibility.
	/about	Company Profile, Chakan Yard & Leadership	Builds buyer trust by detailing Chakan stockyard infrastructure, crane handlir and management background.
Catalog	/inventory	Filter by Tonnage, Make, Category	Interactive inventory portal allowing factory buyers to instantly find presses n exact plant requirements.
Details	/inventory/[slug]	High-Res Gallery, Full Technical Specs, Video	Detailed showcase giving stroke rate, die height, bed size, motor HP, inspecti and WhatsApp RFQ button.
Presses	/category/mechanical	Straight-side, C-frame, link motion presses	Dedicated category for automotive component stampers seeking high-precis metal stamping lines.
resses	/category/forging	Hot forging, cold sizing, knuckle-joint presses	Showcases heavy capital forging presses targeted at auto ancillaries, defens engineering suppliers.
Presses	/category/hydraulic	Deep drawing, hydroforming, spotting presses	Lists hydraulic machinery for composite molding, sheet hydroforming, and pr tryout operations.
l Borers	/category/boring	Floor borers, table borers, milling centers	Caters to heavy fabrication plants machining large engine blocks, earthmovir and gear casings.

Capture, Trust & Compliance (Routes 17 to 24)

forms, yard location, legal terms, and machine data feeds for AI search engines

	Website Address	Key Customer Sections	Business Purpose & Commercial Value ('Kaam')
/ Search	/search	Keyword Search, Tonnage Range, Year Filter	Global search enabling buyers to find specific machinery by brand name, ton model number in under a second.
or Quote	/rfq	Machine Selection, Plant Name, WhatsApp Input	Captures high-intent buyer inquiries and immediately alerts Dalal sales direct WhatsApp and email.
Yard	/contact	Google Map Pin, Phone, Email, Visiting Hours	Facilitates factory visits to the Chakan stockyard with clear directions, drivinç direct contact numbers.
y Blog	/blog	Industry Articles, Maintenance Guides, Trends	Publishes press maintenance tips and industry articles to drive consistent orç search traffic.
ader	/blog/[slug]	Deep Content, Inspection Checklists, Spec Sheets	Provides in-depth technical guides that establish Dalal Machine Tools as Indi machinery authority.
olicy	/privacy-policy	Data Protection, Lead Privacy, DPDP 2023	Fulfills statutory Indian legal requirements (Digital Personal Data Protection A collecting lead data.
Service	/terms	Machinery Sale Terms, Inspection Governance	Defines clear commercial terms: 'As-Is Where-Is' inspection terms, quotation yard access rules.
Feed	/llms.txt	Structured Machine Data for AI Search Engines	Feeds formatted machine data to AI search engines (ChatGPT, Perplexity, Ge recommend Dalal.

VISIBILITY

SEARC

stomers Find Dalal Machinery Online

explanation of how your website will attract factory buyers from Google and AI search engines

e Search (SEO)

ans: Traditional Google search rankings for achinery keywords.

Scenario: A factory manager in Pune or d searches Google for: *'Used 1000 Ton Power ale in Maharashtra'*.

s Dalal: Your website appears on Page 1 of ults with photos, tonnage, and yard address, rified machinery buyers directly to you without Google Ads.

e: Every single machine in your yard automatically dedicated, search-optimized Google listing.

2. Direct Answer Search (AEO)

What It Means: Answer Engine Optimization — delivering instant facts to Google searchers.

Customer Scenario: A buyer asks Google on their phone: *'Where can I buy heavy forging presses in Pune?'*.

How It Helps Dalal: Google displays Dalal Machine Tools directly in a highlighted top answer box with your phone number, Chakan location, and crane capacity.

Key Feature: Structured data tables make it effortless for search engines to understand your machine specs instantly.

3. AI Search Engines (GEO)

What It Means: Generative Engine Optimization — recommended by modern AI tools.

Customer Scenario: A corporate buyer asks ChatG Perplexity: *'Recommend the top 3 reliable dealers Ton mechanical presses in India'*.

How It Helps Dalal: Because your website provides readable catalog (`/llms.txt`), AI search engines ci Machine Tools as a top verified source.

Key Feature: Puts your company ahead of competi still rely on old, unreadable PDF catalogs.

ER EXPERIENCE

er Journey on Dalal Machinery Portal

ctive factory buyer discovers, evaluates, and contacts Dalal Machine Tools in under 2 minutes

y

on website via Google
atsApp link, or industry
heir mobile or laptop.

PHASE 2

Smart Filter

Buyer filters machines by Tonnage (e.g. 800 Ton), Type (Mechanical Stamping), and Origin (Japan/Germany).

PHASE 3

Evaluation

Buyer inspects high-resolution yard photos, stroke specs, die dimensions, and machine test-run video.

PHASE 4

Spec Download

Buyer downloads branded PDF technical spec sheet with one click to share with their managing director.

PHASE 5

Direct Lead

Buyer clicks 'Inquire on
or submits RFQ form; D
team receives lead inst
full machine details.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

RY OPERATIONS

STAFF

lal Staff Manages Stock at Chakan Yard

ute inventory update workflow designed for yard managers without technical computer training

Updating Machinery in 2 Minutes

ture Photos: Yard staff photograph incoming machinery at Chakan yard using their e.

ple Form Entry: Open secure admin portal on phone or office laptop. Enter machine anufacturer (AIDA, Schuler), year, and key specifications.

tant Live Update: Click 'Publish'. The machine immediately appears on the website chnical specifications and inquiry buttons.

tus Toggle: When a client pays an advance deposit, change status from 'Available' to or 'Sold' with a single click.

enefit: Never show sold machines by mistake. Always present fresh, accurate yard rious industrial buyers.

Lead Management & Customer Inquiries

Instant Lead Notification: Whenever a customer submits an inquiry or downloads a spe Dalal directors receive an instant WhatsApp alert.

Centralized Inquiries Inbox: All buyer requests are organized in one clean screen show customer name, company, phone number, and machine of interest.

Zero Lead Loss: Staff can mark leads as 'Contacted', 'Quotation Sent', or 'Yard Visit Sch ensuring high-value machine deals are followed up.

Customer Database: Builds an organized internal registry of Indian stamping and forgin buyers for future machine dispatches.

Commercial Result: Faster response times convert serious inquiries into closed sales b competitors can respond.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

ARTMENT MAP

dia Centralized ERP: 33 Modules

o 5 streamlined business departments to run daily sales, Italian imports, and warehouse operations

nquiries (Modules 01-07)
cords, inquiry logging, quotation generation, revisions, discount controls, and win-loss tracking.

ring Sizing (Modules 08-13)
g calculator, torque ratings, press flywheel formulas, CAD drawing links, and technical datasheets.

& Customs (Modules 14-19)
om European principal, container tracking, port customs duty, port clearance, and true landed costs.

Depot (Modules 20-26)
stock, friction discs, safety valves, rotary unions, bin locations, minimum level alerts, and delivery challans.

GST (Modules 27-33)
oicing, milestone receipts (30/50/20), payment aging ledger, sales reports, and export compliance.

ES WORKFLOW

MO

perations & Instant Quotation Generation

es engineers create professional customer quotations in 60 seconds instead of hours on Excel

odules 01 to 04

stomer Registry: Centralized address book for press manufacturers, forging units, and lants across India.

quiry & RFQ Inbox: Logs every incoming customer requirement with press details, ery date, and assigned sales engineer.

)-Second Quote Builder: Select clutch model, spare discs, or valves from the system automatically compiles an official OMPI India GST quotation.

evision Tracker: When a customer requests changes, create Revision 1, Revision 2 with records. Old quotes are never lost or overwritten.

Sales Modules 05 to 07

Mod 05: Discount Approval Guard: Sales engineers can offer standard pricing. Special above 5% automatically prompt for Director authorization.

Mod 06: PDF Quotation Generator: Generates branded PDF quotations with official OM letterhead, technical specs, payment terms, and warranty terms.

Mod 07: Win-Loss Analytics: Tracks quotation status (Won, Under Negotiation, Lost) to which press manufacturers buy consistently and why deals are lost.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

RING SIZING

MO

ıted Italian Clutch Selection Engine

gineering sizing errors by digitizing Italian manufacturer formulas into automated software

ring Sizing Modules 08 to 10

utch Sizing Calculator: Engineer enters press tonnage (e.g. 630T), strokes per minute flywheel inertia. The system calculates required torque in Nm instantly.

odel Matching Engine: Automatically selects the perfect OMPI clutch-brake n unit from the master catalog, matching exact mechanical press safety factors.

ermal Dissipation Check: Calculates heat generation during continuous press nt to ensure the clutch will not overheat during high-speed stamping shifts.

Engineering Modules 11 to 13

Mod 11: Bill of Materials (BOM): Automatically lists all required sub-components: friction return springs, piston seals, and solenoid valves for the selected unit.

Mod 12: Technical Drawing Links: Instant access to certified Italian dimension drawings DXF) to send directly to customer tool designers.

Mod 13: Retrofit Configuration Guide: Step-by-step shaft mounting and air-line pressur guidelines for replacing outdated clutches on older Indian and European presses.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

PERATIONS

MO

g Italian Shipments & Customs Clearance

ort customs clearance, import tariffs, shipment documentation, and true landed cost calculations

racking Modules 14 to 16

lian PO Management: Tracks purchase orders sent to OMPI S.r.l. factory in European ctory with production readiness dates and commercial invoices.

ipment & Container Tracker: Monitors air shipments and ocean containers from al departure port to port customs (JNPT) with Bill of Lading (BL) and courier tracking.

stoms Duty Calculator: Applies exact Indian customs tariffs (Basic Customs Duty + are Surcharge + IGST) based on standard HS codes for clutches.

Landed Cost & Transfer Modules 17 to 19

Mod 17: True Landed Cost Engine: Combines Euro invoice amount, foreign exchange ra insurance, port handling, and customs duty into an exact per-unit INR cost.

Mod 18: High Seas Sale Documentation: Generates compliant documentation when a c clutch unit is transferred on High Seas directly to an Indian press builder before custom clearance.

Mod 19: Currency Fluctuation Protection: Alerts sales team when Euro-to-INR currenc rates move significantly, protecting company profit margins on open orders.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

JSE CONTROL

MOI

Depot Inventory & Critical Spares

ck visibility for friction linings, seals, valves, and rotating unions with safety stock alerts

perations Modules 20 to 23

entral Spares Inventory: Real-time ledger of all friction discs, seal kits, dual solenoid rotary couplings in the Bhosari warehouse.

n & Rack Location Tracking: Every spare part is mapped to its exact shelf and rack Bhosari for fast picking and dispatch.

w Stock Warning System: Automatically alerts stores staff when high-turnover friction alves drop below safe minimum levels.

oods Receipt Note (GRN): Inspection workflow for logging incoming parts arriving from al machining suppliers.

Stock Movement Modules 24 to 26

Mod 24: Outward Delivery Challans: Generates official delivery challans with serial nur spares dispatched to customer factories across India.

Mod 25: Assembly & Fitting Kit Tracking: Groups required friction discs, seals, and pin ready-to-dispatch overhaul kits for on-site press maintenance.

Mod 26: Annual Stock Audit & Valuation: Generates instant physical inventory valuatio for company auditors and year-end balance sheets.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

CIAL BILLING

MOI

oicing, Milestone Payments & Ledgers

ıanagement tailored to industrial machinery payment terms, GST compliance, and cash flow tracking

odules 27 to 30

% GST Tax Invoicing: Generates compliant GST tax invoices with HSN codes, T/IGST breakdown, and e-invoice compatibility.

ilestone Payment Tracking: Tracks multi-stage customer payments common in sales: 30% advance with order, 50% before dispatch, and 20% on commissioning.

ıstomer Outstanding Ledger: Shows aging of unpaid bills (30 days, 60 days, 90+ aff can follow up pending payments professionally.

ulti-Depot Billing Support: Facilitates billing from Bhosari warehouse or direct nt transfers to customer plants across different states.

Financial & Reporting Modules 31 to 33

Mod 31: Sales Commission Calculator: Tracks individual sales engineer performance a calculates accurate incentives on completed deals.

Mod 32: Margin & Profitability Reports: Provides directors with exact gross margin ana clutch unit sold, comparing purchase cost against selling price.

Mod 33: Executive Dashboard: High-level visual summary for Managing Partners show monthly sales volume, pending inquiries, inventory value, and cash flow.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

Y & ROLES

ACCE

rmissions & Commercial Confidentiality

ed access keeps your purchase prices, supplier discounts, and profit margins completely secure

g Directors & Partners

: Can view everything: supplier purchase costs, profit margins, company financial er permissions, and master settings.

ction: Unrestricted executive authority across both systems.

Sales Engineers

Role Scope: Can create quotations, look up stock availability, and log customer inquiries see supplier purchase costs or alter protected profit margins.

Data Protection: Restricted to authorized customer screens only.

ing & Technical Staff

: Can use clutch sizing calculations, access technical drawings, and generate Bills of Cannot view financial billing data.

ction: Technical access only; commercial tabs are hidden.

Bhosari Warehouse In-Charge

Role Scope: Can update physical stock in/out, create delivery challans, and view rack lo Cannot view customer pricing or financial balances.

Data Protection: Inventory management restricted; zero financial visibility.

WORK (SOW) • DALAL MACHINE TOOLS & OMPI INDIA

NCE CRITERIA

QUALITY

datory Quality & Integrity Checks

rification standards that both systems must pass prior to go-live sign-off

ation Integrity

que Accuracy: Torque formulas verified against PI Italy engineering tables across 50 sample

st Formulas: Customs duty, freight, and foreign alculations verified against actual historical import y.

Validation: Ensures zero rounding errors on CGST, calculations and invoice totals across all evisions.

2. Data Security & Access

Zero Margin Leakage: Strict verification that sales engineers and warehouse staff can never access director-level cost margins.

Database Redundancy: Automated verification that simulated power cuts or network interruptions do not corrupt open orders.

Secure Password Hashing: All user credentials stored with bank-grade encryption; zero plaintext passwords anywhere in the system.

3. Mobile & Real-World Speed

1.5-Second Mobile Load: Website performance ve 4G mobile connections to ensure machinery buyers experience zero lag.

PDF Generation Speed: Quotation PDFs and machi sheets must generate in under 2 seconds without h screen.

Cross-Device Usability: Tested seamlessly across smartphones, iPhones, iPads, and office desktop m

NTATION PLAN

PROJE

ed 8-Month Phased Rollout Schedule

ep-by-step engineering roadmap upon contract sign-off ensuring zero disruption to daily work

rchitecture & Foundations (Months 1-2)

ct machine catalog parameters, finalize warehouse bin structures, design secure database schemas, and create high-fidelity screen mockups for Director review.

Dalal Website & OMPI Sizing Engine (Months 3-4)

unch the 24-page Dalal Machinery Showroom with Google SEO optimization. Concurrently engineer the OMPI clutch sizing calculator and instant quote builder.

mport Operations & Warehouse Depot (Months 5-6)

ernational shipment tracking, customs duty calculators, landed cost engine, and Bhosari warehouse inventory management with safety stock alerts.

Billing, GST, Testing & Handover (Months 7-8)

18% GST invoicing, milestone receipts, execute all 47 security and calculation tests, conduct staff training workshops, and hand over 100% source code.

& SUPPORT

KNOWLEDG

nboarding, Video Guides & Manuals

team in Chakan and Bhosari can operate both systems effortlessly from day one

-on Training

ed Training Hours: Interactive training sessions in Hindi, Marathi, or English for sales engineers aff.

fic Guidance: Separate focused sessions for yard anagers, technical sales engineers, and office staff.

l Practice: Staff practice creating live quotes and k using sample machine specs before full go-live.

2. Video Walkthroughs

Recorded Video Library: High-definition screen recording videos explaining every single module and screen step-by-step.

Future-Proof Onboarding: Whenever you hire a new sales coordinator or storekeeper, they can watch the videos and start working immediately.

Lifetime Reference: Stored on your office server so staff can refer to them anytime without calling external consultants.

3. Standard Operating SOP

Printed Reference Manual: Comprehensive operat reference manual provided for the yard desk and B sales office.

Quick Reference Cheat Sheets: Laminated 1-page sheets for generating quotes, uploading photos, an delivery challans.

Direct Escalation Support: Direct priority technical during the entire initial go-live and rollout period.

OMPARISON

STRAT

Custom Solution Delivers Maximum Value

stom software against generic off-the-shelf software (SAP, Tally, Salesforce)

ctor	Generic Commercial Software	Proposed Custom Solution	Direct Business Benefit to You
scription Fees	Charges Rs. 3,500 to Rs. 7,000 per user per month. Costs Rs. 4L-8L every single year.	**Rs. 0 recurring software license fees. 100% owned by your company permanently.**	Saves over Rs. 15-20 Lakhs over 3 years; zer vendor lock-in.
Automation	Cannot calculate mechanical press torque or flywheel inertia. Requires manual Excel work.	**Built-in automated sizing engine designed specifically for OMPI clutch-brake units.**	Eliminates sizing errors; generates accurate quotes in 60 seconds.
anded Costing	Generic systems cannot handle Indian customs duty, port clearance fees, and foreign currency conversion.	**Tailored landed cost engine calculates exact per-unit landed INR cost to warehouse.**	Protects gross profit margins from currency s port expense leakage.
y Workflow	Complex screens designed for large retailers with 50 unnecessary accounting fields.	**Fast 2-minute mobile upload built specifically for Chakan heavy machinery yard.**	Yard staff actually use the software without n computer degrees.
Ownership	You never own the software; if you stop paying monthly fees, you lose all your data.	**100% full source code, database, and design assets belong to you forever.**	Total business independence; you control yo destiny permanently.
