DALAL MACHINE TOOLS AGENCY & OMPI INDIA

PRE-COMMENCEMENT ARCHITECTURAL MASTER BLUEPRINT • 57 PROPOSED UNITS

Doc Ref: SCOPE-PLAN-2026-DALAL-OMPI-57
Status: Pre-Commencement Scope Blueprint
Language: Plain Business English (Non-Technical)

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

⚠ IMPORTANT PRE-PROJECT STATEMENT: DEVELOPMENT WORK NOT YET STARTED

Notice of Scope Baseline: This document represents the complete, pre-commencement architectural specification of the **57 pages, operational modules, and management tools** proposed to be engineered for **Dalal Machine Tools Agency Pvt. Ltd.** and **OMPI India LLP**.

Work Status: Currently, software development work has **NOT** commenced. This document details the exact functional scope, layout design, and operational workflows that will be constructed, tested, and delivered upon formal client sign-off and project kickoff.

🔒 STRICT CONFIDENTIALITY & ANTI-SHARING COVENANT

Restricted Distribution: This document contains proprietary business logic, pricing workflows, supply chain formulas, and commercial system designs prepared exclusively for the private review of the Managing Director and partners.

Sharing Strictly Prohibited: Copying, photographing, forwarding, or sharing this document with any third party, competitor, external broker, or unauthorized personnel is **strictly prohibited**.

TARGET SYSTEM 1: HEAVY MACHINERY PLATFORM

Dalal Machine Tools Agency Pvt. Ltd.

Commerce Centre, Tardeo, Mumbai • Pune Stockyard, Chakan

Proposed Scope: High-ticket digital acquisition platform (24 pages) for heavy forging presses (100T to 6,300T) with direct WhatsApp inquiry capture.

TARGET SYSTEM 2: PRECISION CLUTCHES & ERP

OMPI India LLP

Pimpri-Chinchwad / Chakan Industrial Corridor, Pune

Proposed Scope: Complete 33-module operations suite managing Italian imports, Euro currency pricing, warehouse stock, and GST invoicing.

How to Review This Guide: Everything in this guide is written in plain, non-technical English. It details exactly what your customers will see on screen, how inquiries will reach your phone, and how your team will manage orders, godown stock, and money collections without errors once the system is built.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

DALAL WEB PLATFORM SCOPE • PAGES 01 & 02 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-01 Homepage & Machinery Showroom

○ TO BE BUILT: SYSTEM 1

`Planned Route: /index.html`

Target User / Audience: Industrial Plant Owners, Factory Directors, Forging Heads

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A modern machinery showroom presenting heavy presses available for sale. Customers will see clear photographs, machine tonnages, video power trials, and a direct WhatsApp button to speak with Mr. Vinit Dalal.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Eliminates buyer skepticism. Factory owners see that machines are physically present in the Pune stockyard (not fake broker listings), establishing instant trust for deals from Rs. 50 Lakh to Rs. 4 Crore.

Key Capability to be Engineered: 1-Click WhatsApp inquiry button pre-filled with the exact machine model and capacity.

ROUTE-02 Company Heritage & Facility Dossier

○ TO BE BUILT: SYSTEM 1

`Planned Route: /about.html`

Target User / Audience: Corporate Procurement Heads, Bank Valuers, Joint-Venture Partners

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

The 50-year engineering heritage of the Dalal family, photos of the Mumbai registered office and Pune warehouse yard, and details of the official technical partnership with OMPI Italy.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Proves corporate legitimacy and financial stability, assuring plant owners that their advance payments and multi-crore machinery orders are in trustworthy, experienced hands.

Key Capability to be Engineered: Visual timeline highlighting 5 decades of heavy machinery supply across India.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

DALAL WEB PLATFORM SCOPE • PAGES 03 & 04 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-03 Import, Rigging & Engineering Services

○ TO BE BUILT: SYSTEM 1 `Planned Route: /services.html`

Target User / Audience: Plant Maintenance Heads, Factory Engineers, Project Directors

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A simple guide to heavy press services: overseas dismantling, port customs clearance, multi-axle trailer transport, foundation pit construction, and Italian pneumatic clutch retrofits.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Shows buyers that Dalal provides end-to-end support—not just selling the machine, but installing it on their factory floor, testing it under load, and guaranteeing spare parts.

Key Capability to be Engineered: Clear 7-point FAQ explaining how High Seas Sales save time and customs duty.

ROUTE-04 Machinery Catalog & Search Directory

○ TO BE BUILT: SYSTEM 1 `Planned Route: /category.html`

Target User / Audience: Factory Sourcing Managers, Purchase Officers

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A clean, searchable directory of all 26 machine types (Forging Presses, Mechanical Presses, Hydraulic Presses, Horizontal Boring Machines) with instant tonnage filters.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Allows purchasing teams to find the exact tonnage and machine type they need in seconds without having to scroll through hundreds of irrelevant listings.

Key Capability to be Engineered: Instant tonnage filter buttons (Under 500 Tons, 500T to 1,000 Tons, 1,000T to 4,000 Tons).

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 05 & 06 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-05 Machine Technical Details Sheet (PDP)

○ TO BE BUILT: SYSTEM 1

`Planned Route: /product.html`

Target User / Audience: Chief Technical Officers, Toolroom Managers, Plant Heads

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

An in-depth technical sheet for each press: exact tonnage, ram stroke, bed dimensions, motor horsepower, country of make, live power inspection video, and ready-to-download quotation.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Gives plant technical heads every measurement and spec needed to confirm the press will fit their factory space, foundation pit, and forging dies.

Key Capability to be Engineered: 1-Click Download of an official, print-ready PDF machine quotation with full specs.

ROUTE-06 Brand New Factory Machinery Lines

○ TO BE BUILT: SYSTEM 1

`Planned Route: /brand-new-machinery.html`

Target User / Audience: Tier-1 Automotive Suppliers, High-Volume Manufacturing Plants

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Brand-new industrial machinery lines supplied with manufacturer warranty, complete European safety standards, and factory commissioning support.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Captures top-tier automotive companies that have strict internal corporate policies requiring brand-new equipment with factory guarantees rather than used machinery.

Key Capability to be Engineered: Inquiry form specifically for custom-engineered new production lines.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 07 & 08 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-07 Shipment, Yard & Rigging Photo Gallery

○ TO BE BUILT: SYSTEM 1

`Planned Route: /gallery.html`

Target User / Audience: Factory Auditors, Sourcing Committees, Managing Directors

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A photographic gallery showing heavy 1,000-ton to 4,000-ton presses being lifted by giant hydraulic cranes, transported on 64-wheel trailers, and parked in the Pune stockyard.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Irrefutable proof of capability. Seeing real photos of heavy equipment handling eliminates any doubt about Dalal's ability to safely deliver massive machines.

Key Capability to be Engineered: Filterable photo albums categorized by press tonnage and transport stages.

ROUTE-08 Headquarters, Yard & Direct RFQ Portal

○ TO BE BUILT: SYSTEM 1

`Planned Route: /contact.html`

Target User / Audience: Procurement Directors, Visiting Engineering Teams

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Interactive Google Map locations for both the Mumbai Registered Office (Tardeo) and the Pune Stockyard (Chakan), with direct phone numbers and a visit booking form.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Makes it effortless for serious corporate buyers to schedule an in-person physical inspection and see the machines run under live electric power before paying.

Key Capability to be Engineered: Direct appointment booking console to schedule a live power trial in Pune.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

DALAL WEB PLATFORM SCOPE • PAGES 09 & 10 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-09 Express Breakdown RFQ Console

○ TO BE BUILT: SYSTEM 1

`Planned Route: /contact-2.html`

Target User / Audience: Plant Managers facing an urgent machine breakdown

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A fast, streamlined emergency request form asking only for required press tonnage, bed size, and delivery urgency, designed to be filled out in 30 seconds.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Captures high-priority hot leads whose production line has stopped and who have an urgent budget approved to buy a replacement press immediately.

Key Capability to be Engineered: Instant high-priority notification sent directly to the Managing Director's WhatsApp.

ROUTE-10 Import Compliance & Legal FAQs Guide

○ TO BE BUILT: SYSTEM 1

`Planned Route: /faqs.html`

Target User / Audience: Chief Financial Officers (CFOs), Company Legal & Tax Advisors

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Clear, plain-English legal explanations of High Seas Sales, 100% GST input tax credit (ITC) claims, Customs Bill of Entry procedures, and live power inspection trials.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Removes legal and taxation fears from company accountants, providing clear documentation that speeds up corporate board approvals.

Key Capability to be Engineered: 7 interactive question accordions addressing customs duty and GST compliance.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 11 & 12 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-11 Client Endorsements & Factory Proof

○ TO BE BUILT: SYSTEM 1 `Planned Route: /testimonial.html`

Target User / Audience: Managing Directors, Capital Investment Committees

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Verified customer reviews, factory photos, and installation case studies from leading automotive forging and stamping plants across Pune, Rajkot, Chennai, and Delhi NCR.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Strong social proof showing that India's top automotive component manufacturers trust Dalal Machine Tools for their critical press lines.

Key Capability to be Engineered: Customer testimonials displaying verified plant locations and installed machine tonnages.

ROUTE-12 High Seas Tariffs & Cost Savings Guide

○ TO BE BUILT: SYSTEM 1 `Planned Route: /pricing.html`

Target User / Audience: Finance Directors, Plant Owners, Purchasing Heads

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A transparent financial comparison showing how buying directly from port on High Seas saves 8% to 15% compared to purchasing machines delivered to local dealer yards.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Clearly explains pricing logic and demonstrates how buyers avoid double taxation, port demurrage, and middlemen markups.

Key Capability to be Engineered: Interactive cost savings calculator showing estimated cash savings based on machine value.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

DALAL WEB PLATFORM SCOPE • PAGES 13 & 14 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-13 Industrial Journal & Forging News Hub

○ TO BE BUILT: SYSTEM 1

`Planned Route: /blog.html`

Target User / Audience: Plant Maintenance Engineers, Toolroom Supervisors

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Practical engineering articles on press maintenance, how to prevent crankshaft fractures, press leveling methods, and pneumatic clutch upgrade benefits.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Positions Dalal and OMPI as technical experts rather than just traders, attracting organic visits from factory engineers across India.

Key Capability to be Engineered: Searchable technical article library organized by maintenance topic.

ROUTE-14 Pneumatic Clutch Conversion Guide

○ TO BE BUILT: SYSTEM 1

`Planned Route: /blog-single.html`

Target User / Audience: Maintenance Managers, Factory Modernization Teams

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

An easy-to-understand visual guide explaining why old mechanical dog clutches cause costly downtime and how converting to OMPI pneumatic clutches increases safety and speed.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Directly generates inquiries for OMPI clutch retrofit projects by showing factory heads how an upgrade pays for itself within 6 months.

Key Capability to be Engineered: Step-by-step conversion timeline and before-and-after production rate comparison.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 15 & 16 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-15 2500T Turnkey Overhaul Case Study

○ TO BE BUILT: SYSTEM 1

`Planned Route: /blog-large-image.html`

Target User / Audience: Plant Directors, Heavy Forging Plant Heads

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A complete photo-story of a massive 2,500-ton Russian forging press being dismantled in Europe, shipped to India, overhauled in Pune, and commissioned in a live plant.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Shows prospective buyers that Dalal has the technical capability to handle massive multi-crore plant overhauls smoothly without risk.

Key Capability to be Engineered: Chronological project timeline showing precision bed machining and foundation pit checks.

ROUTE-16 Project Portfolio & Installation Archive

○ TO BE BUILT: SYSTEM 1

`Planned Route: /projects.html`

Target User / Audience: EPC Contractors, Factory Expansion Teams

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A comprehensive showcase of past plant installations, on-site boring jobs, and heavy transport projects completed for forging plants across India.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Provides irrefutable proof of execution across diverse industries (Automotive, Defense, Railway, Heavy Engineering).

Key Capability to be Engineered: Searchable project grid with filters for press tonnage and client industry.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 17 & 18 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-17 120-Ton Heavy Press Transport Detail

○ TO BE BUILT: SYSTEM 1

`Planned Route: /projects-single.html`

Target User / Audience: Factory Logistics Heads, Plant Engineers

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A detailed technical report showing how a giant 120-ton press frame was unloaded, brought inside a tight factory shed, and lowered into its foundation pit.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Assures factory owners that even the heaviest machines will be transported and positioned safely without damaging factory floors or roofs.

Key Capability to be Engineered: Illustrated engineering breakdown of hydraulic strand-jacking and low-bed trailer delivery.

ROUTE-18 Automotive Sector Plant Modernization

○ TO BE BUILT: SYSTEM 1

`Planned Route: /projects-modern.html`

Target User / Audience: Automotive Tier-1 Plant Managers

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Specialized press automation services, automated coil feeding lines, and die-cushion upgrades tailored specifically for automotive parts manufacturing.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Attracts high-value plant modernization projects from automotive component manufacturers looking to boost daily output.

Key Capability to be Engineered: Checklist of press automation upgrades with expected cycle time improvements.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 19 & 20 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-19 Filterable Case Study Library

○ TO BE BUILT: SYSTEM 1

`Planned Route: /projects-with-filter.html`

Target User / Audience: Capital Sourcing Committees, Plant Valuers

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A searchable project library where buyers can view only past installations matching their required tonnage (Under 500T, 500T to 1500T, or 1500T+).

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Allows a factory owner looking for a specific press size to see exact proof of similar machines Dalal has successfully installed.

Key Capability to be Engineered: 1-click tonnage filter that instantly updates the displayed project case studies.

ROUTE-20 Tooling, Bolster Plates & Spares Shop

○ TO BE BUILT: SYSTEM 1

`Planned Route: /shop.html`

Target User / Audience: Spare Parts Purchasing Officers, Toolroom Heads

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A catalog of high-wear press spare parts: bolster plates, tie-rod nuts, pneumatic valves, hydraulic cylinders, and clutch friction pads.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Creates recurring monthly spare parts revenue from existing factories even after their initial machine purchase.

Key Capability to be Engineered: Stock status tags showing which critical spare parts are ready for immediate dispatch from Pune.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 21 & 22 OF 24 (TO BE ENGINEERED) Proposed Phase 1 Build

ROUTE-21 Spare Part Engineering Specifications ○ TO BE BUILT: SYSTEM 1

`Planned Route: /shop-single.html`

Target User / Audience: Toolroom Engineers, Maintenance Supervisors

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Detailed specifications for spare parts including steel grade (EN8, EN19, 42CrMo4), surface hardening, exact dimensions, and drawing inquiry options.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Guarantees that spare components will fit the customer's exact press model without needing costly on-site modifications.

Key Capability to be Engineered: Direct button to request technical drawing verification before ordering.

ROUTE-22 Multi-Item RFQ Package Inquiry Cart ○ TO BE BUILT: SYSTEM 1

`Planned Route: /shoping-cart.html`

Target User / Audience: Plant Sourcing Managers, Purchase Officers

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A simple list where buyers can bundle multiple machines, spare parts, and clutch conversion kits into one single quotation request.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Increases deal size by making it easy for factories to purchase a complete package (Press + OMPI Clutch + Spare Parts) in one go.

Key Capability to be Engineered: Consolidated package summary with a 1-click WhatsApp quote button for the whole order.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PLATFORM SCOPE • PAGES 23 & 24 OF 24 (TO BE ENGINEERED)

Proposed Phase 1 Build

ROUTE-23 Formal Procurement Proposal Submission

○ TO BE BUILT: SYSTEM 1

`Planned Route: /checkout.html`

Target User / Audience: Corporate Purchasing Executives, Finance Teams

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

A professional procurement form where buyers enter their company name, 15-digit GSTIN, factory delivery address, and expected delivery timeline.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Delivers pre-qualified, serious corporate inquiries with complete billing and delivery details directly to the sales team.

Key Capability to be Engineered: Automated GST number verification ensuring official corporate inquiries.

ROUTE-24 Smart Error Recovery & Alternative Stock

○ TO BE BUILT: SYSTEM 1

`Planned Route: /404.html`

Target User / Audience: Any visitor who clicks an outdated or mistyped link

WHAT WILL BE BUILT ON SCREEN FOR CUSTOMERS

Instead of a broken blank page, a helpful screen that suggests active presses currently in stock with a search bar and direct WhatsApp assistance.

WHY IT WILL BE BUILT & HOW IT WILL BRING DEALS

Prevents potential customers from leaving the site and converts broken link visits into real machinery inquiries.

Key Capability to be Engineered: Automatic display of top 3 currently available presses in the Pune stockyard.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT SUITE OVERVIEW • THE 4 BUSINESS ENGINES TO BE BUILT

Proposed Operations Suite

WHAT THE OMPI MANAGEMENT SYSTEM WILL DO FOR YOUR COMPANY

While Dalal Machine Tools will act as your **public digital showroom** that attracts factory owners, OMPI India will operate as your **internal business management system**. It will organize everything that happens after an inquiry arrives: quoting prices, sizing clutches, placing orders with Italy, tracking sea shipments, managing godown stock, and collecting customer payments.

ENGINE 1: SALES & CUSTOMER QUOTES (10 TOOLS)
Will store client GST records, size the right clutch, generate official PDF proposals in 60 seconds, and track deals from new inquiry to advance payment.

ENGINE 2: ITALY PURCHASE & IMPORT COST (7 TOOLS)
Will create Euro purchase orders for OMPI Italy, calculate total landed customs duty in Rupees, and track sea containers from Genoa to Nhava Sheva.

ENGINE 3: GODOWN STOCK & SPARE PARTS (8 TOOLS)
Will show live godown stock in Pune and Chakan, track high-wear brake friction pads, record serial numbers, and create truck delivery passes.

ENGINE 4: BILLS, GST TAXES, MONEY & SAFETY (8 TOOLS)
Will generate official GST bills, export GSTR-1 for your accountant in 1 click, track customer balance payments, and save automatic daily backups.

PROPOSED PHASED DELIVERY ROADMAP (UPON PROJECT COMMENCEMENT)

Phase 1 Delivery Scope: The 24 public website pages, staff inquiry inbox, 60-second PDF proposal generator, and stock tracking tools will be engineered and launched first.
Phase 2 Delivery Scope: In-depth ERP tools (Euro purchase orders, multi-level parts breakdown, laser serial tracking, and GSTR-1 export) will be delivered across 7 monthly sprints as agreed in the Master SOW contract.

Data Safety Standard to be Built: All company inquiries, customer phone numbers, supplier costs, and pricing records will be password-protected. Staff members will only see what their job requires, and complete backups will be automatically saved every night.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 01 & 02 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-01 Client Records & GST Credit Master

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Executives, Accounts Manager

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will maintain a central profile for every client factory: verified 15-digit GSTIN, multiple delivery godown addresses, authorized contact persons, and approved credit limits.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Stops costly billing errors, prevents dispatching goods to companies with overdue payments, and ensures tax invoices match GST portal records.

Key Management Feature: Automated GST number validation and company ledger outstanding summary.

ERP-MOD-02 OMPI Technical Catalog & SKU Master

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Technical Sales Engineers

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will organize all Italian pneumatic clutch-brakes, rotating unions, and friction discs by bore size, torque capacity, and dimensional cross-references.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows sales representatives to find the exact replacement clutch model in 10 seconds without needing to search through paper product catalogs.

Key Management Feature: Quick lookup connecting press brand names with suitable OMPI clutch models.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 03 & 04 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-03 Import Currency & Landed Pricing Engine 2

○ TO BE BUILT: SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Commercial Manager, Managing Director

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will calculate selling prices in Indian Rupees based on current Euro exchange rates, ocean shipping costs, customs duty, and minimum profit margins.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Protects company profits against sudden currency fluctuations between the Euro and the Rupee during the 4 to 8 weeks of ocean shipping.

Key Management Feature: Automated price calculation incorporating daily exchange rates and port handling fees.

ERP-MOD-04 Fast-Quote 60-Second PDF Generator 2

○ TO BE BUILT: SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Representatives

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will compile professional, branded quotation letters complete with machine photos, dimensions, prices, and payment terms in under 60 seconds.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows your team to send an official proposal while the customer is still on the phone, beating competitors who take 2 to 3 days to send a quote.

Key Management Feature: 1-click generation of print-ready A4 PDF proposals with official company signature.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 05 & 06 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-05 Customer Inquiry Visual Pipeline

○ TO BE BUILT: SYSTEM 2

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Team, Managing Director

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will display all incoming customer inquiries on a visual stage board: New Lead -> Sized -> Quoted -> PO Awaited -> Deal Won -> Delivered.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives the Managing Director complete visibility over every active deal so no high-value customer inquiry is ever forgotten or neglected.

Key Management Feature: Visual stage cards with color-coded alerts for inquiries needing fast follow-up.

ERP-MOD-06 Press & Clutch Compatibility Matrix

○ TO BE BUILT: SYSTEM 2

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Technical Sourcing Engineers

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will cross-index leading press makes (Aida, Schuler, Godrej, Voronezh, Li Chin) with the exact OMPI clutch-brake combination required for bolt-on installation.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Enables sales reps to confidently advise plant owners on the exact clutch required without waiting for on-site engineer measurements.

Key Management Feature: Pre-configured compatibility lookup providing accurate clutch recommendations for known press models.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 07 & 08 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-07 Profit Margin & Discount Protection

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Managing Director, Finance Head

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will enforce a strict minimum profit floor (e.g. 22%) and automatically block sales representatives from offering discounts without Managing Director sign-off.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Guarantees healthy commercial profitability and prevents junior sales reps from giving away company margins to close easy deals.

Key Management Feature: Password-protected discount override approval requiring Director authorization.

ERP-MOD-08 Proforma Invoice (PI) Generator

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Accounts Executive

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will issue formal proforma invoices with clearly stated milestone payment terms: 30% Advance, 50% Against Dispatch, and 20% Post-Installation.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Ensures clean payment terms before any machinery leaves the yard, safeguarding company cash flow and preventing uncollected retention dues.

Key Management Feature: Pre-formatted payment milestone schedule with company RTGS/NEFT banking details.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 09 & 10 OF 33 (TO BE ENGINEERED) — Engine 1

ERP-MOD-09 Sales Order & Warehouse Stock Hold

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Operations, Godown Keeper

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will convert approved quotes into active ERP sales orders and automatically lock the selected machine or clutch unit in the godown ledger.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates embarrassing double-selling mistakes where two different sales reps try to sell the same warehouse unit to two different clients.

Key Management Feature: Automated status switch changing machine from 'Available' to 'Under Commercial Hold'.

ERP-MOD-10 WhatsApp & Email Quote Dispatcher

○ TO BE BUILT: SYSTEM 2 | Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Operations

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will send official quotation PDFs and inspection photos directly to the client's WhatsApp and email with a personalized, professional cover message.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Achieves 90% higher open and response rates than traditional email, allowing immediate conversation with busy factory decision-makers.

Key Management Feature: Direct WhatsApp notification dispatch with pre-filled machine reference numbers.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 11 & 12 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-11 Assembly Parts Breakdown (BOM)

○ TO BE BUILT: SYSTEM 2 | Engine 2: Purchase & Landed Cost

Responsible Staff Role: Assembly Workshop Supervisor

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will maintain an exact parts list for each clutch assembly down to every friction pad, seal kit, return spring, and dual pneumatic safety valve.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Ensures the workshop never gets stuck mid-assembly due to a missing 500-rupee seal kit on a 15-lakh clutch order.

Key Management Feature: Exploded assembly parts tree showing part numbers and godown shelf locations.

ERP-MOD-12 Italy Import Purchase Order (PO)

○ TO BE BUILT: SYSTEM 2 | Engine 2: Purchase & Landed Cost

Responsible Staff Role: Import Procurement Manager

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will generate formal international purchase orders in Euros formatted to OMPI Italy OEM specifications, tracking sea container schedules.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates ordering mistakes, provides proper dockets for bank foreign remittances, and tracks production lead times in Modena, Italy.

Key Management Feature: Euro purchase order generator with OEM drawing codes and expected ocean shipment dates.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 13 & 14 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-13 Total Landed Cost & Customs Calculator

○ TO BE BUILT: SYSTEM 2

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Commercial Manager, Accountant

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will calculate the true total cost of imported units including Basic Customs Duty (7.5%), Social Welfare Surcharge, IGST (18%), and port clearing charges.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Shows the exact landed cost per unit in Rupees so management knows the true profit margin before quoting clients.

Key Management Feature: Automated import duty calculator compliant with current Indian Customs tariff rules.

ERP-MOD-14 Sea Container & Shipping Tracker

○ TO BE BUILT: SYSTEM 2

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Logistics Coordinator

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will track ocean containers from Italy ports (Genoa, La Spezia) through JNPT Nhava Sheva, logging Bill of Lading numbers and port arrival dates.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents expensive port container demurrage and detention charges by preparing customs papers before the ship berths.

Key Management Feature: Container milestone timeline with 14-day free-time tracking alerts.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 15 & 16 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-15 Technical CAD & GA Drawing Archive

○ TO BE BUILT: SYSTEM 2 | Engine 2: Purchase & Landed Cost

Responsible Staff Role: Design Engineers, Service Team

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will provide a secure central archive of certified CAD blueprints and general arrangement drawings for factory foundation and clutch retrofit fitting.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows client engineering teams to prepare foundation bolts and air supply lines weeks before the machinery physically arrives.

Key Management Feature: Downloadable certified drawings organized by press model and clutch series.

ERP-MOD-16 Clutch Sizing & Torque Calculator

○ TO BE BUILT: SYSTEM 2 | Engine 2: Purchase & Landed Cost

Responsible Staff Role: Application Engineers

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will calculate the required clutch torque based on press flywheel speed, motor horsepower, and available factory compressed air pressure (5.5 to 6.0 bar).

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Guarantees that the installed clutch will never slip, overheat, or fail during continuous heavy forging operations.

Key Management Feature: Engineered sizing calculation matching press flywheel speed to the correct OMPI model.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 17 & 18 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-17 HSN Tax Code & Customs Tariff Master

○ TO BE BUILT: SYSTEM 2 | Engine 2: Purchase & Landed Cost

Responsible Staff Role: Company Accountant, Tax Advisor

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will serve as a central master of all 8-digit government tax codes (HSN 8483, 8462, 6813) with current GST rates and customs duty classifications.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents customs audit penalties and ensures client accounts receive 100% legitimate GST input tax credits without dispute.

Key Management Feature: Pre-configured HSN catalog with verified GST and customs duty rates.

ERP-MOD-18 Real-Time Godown & Stock Ledger

○ TO BE BUILT: SYSTEM 2 | Engine 3: Godown & Spares Inventory

Responsible Staff Role: Godown Keeper, Inventory Manager

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will track every machine, clutch assembly, and spare part across the Pune Warehouse and Chakan staging facilities by rack and bin location.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Sales staff can instantly check stock availability without needing to walk into the warehouse or call the godown supervisor.

Key Management Feature: Live stock counter with instant search by category, tonnage, or part number.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 19 & 20 OF 33 (TO BE ENGINEERED) Engine 3

ERP-MOD-19 Friction Plates & Wear Parts Tracker

○ TO BE BUILT: SYSTEM 2 | Engine 3: Godown & Spares Inventory

Responsible Staff Role: Spare Parts In-Charge

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will maintain batch-level tracking of high-wear consumable parts: friction lining materials, thickness tolerances, and reorder levels.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Guarantees that when a forging plant calls with a worn brake lining during a breakdown, replacement parts are ready for immediate dispatch.

Key Management Feature: Batch tracking with thickness wear tolerance limits and reorder thresholds.

ERP-MOD-20 Laser Serial Number & Heat Traceability 2

○ TO BE BUILT: SYSTEM 2 | Engine 3: Godown & Spares Inventory

Responsible Staff Role: Quality Inspector

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will record the unique laser-etched serial number on every imported Italian clutch along with metallurgical heat certificates and test sheets.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Proves 100% genuine Italian origin to clients and enables fast warranty verification if a component ever needs factory inspection.

Key Management Feature: Searchable serial number registry linked to Italian factory birth certificates.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 21 & 22 OF 33 (TO BE ENGINEERED) Engine 3

ERP-MOD-21 Inward Quality Inspection (GRN Engine) ○ TO BE BUILT: SYSTEM Engine 3: Godown & Spares Inventory 2

Responsible Staff Role: Quality Control Engineer

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will provide a formal inspection protocol for incoming shipments checking crate condition, shaft runout, and air pressure leak decay before stock entry.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Catches any transit damage immediately so insurance claims can be filed before goods are accepted into company stock.

Key Management Feature: Digital Goods Receipt Note (GRN) with photo upload and pressure test checklist.

ERP-MOD-22 Delivery Challan & Dispatch Paperwork ○ TO BE BUILT: SYSTEM Engine 3: Godown & Spares Inventory 2

Responsible Staff Role: Dispatch Supervisor

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will generate statutory Rule 55 delivery challans and e-Way Bill pre-flight packets for transport trucks moving heavy machinery across state borders.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents transport trucks from being stopped or impounded by state highway tax authorities due to missing transit documentation.

Key Management Feature: 1-click generation of statutory delivery challans with driver and vehicle details.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 23 & 24 OF 33 (TO BE ENGINEERED) Engine 3

ERP-MOD-23 Workshop Repair & Service Ledger ○ TO BE BUILT: SYSTEM 2 Engine 3: Godown & Spares Inventory

Responsible Staff Role: Service Center Head

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will maintain digital job cards for clutch overhauls, flywheel resurfacing, brake relining, and live test-bench trials in Pune.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Provides a documented engineering service history for every refurbished unit, proving quality to skeptical plant managers.

Key Management Feature: Job card tracker recording technician hours, replaced parts, and test results.

ERP-MOD-24 Scrap & Damaged Parts Disposal ○ TO BE BUILT: SYSTEM 2 Engine 3: Godown & Spares Inventory

Responsible Staff Role: Inventory Manager, Accountant

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will formally log unserviceable trade-in clutches and worn brake linings for scrap sale, recording GST tax reversal entries in accounting books.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Keeps the godown free of unserviceable clutter while ensuring company tax books remain 100% clean and audit-ready.

Key Management Feature: Scrap write-off log with weight certificates and scrap sale invoice linkage.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 25 & 26 OF 33 (TO BE ENGINEERED) Engine 3

ERP-MOD-25 Low Stock Warning & Reorder Timer

○ TO BE BUILT: SYSTEM 2 | Engine 3: Godown & Spares Inventory

Responsible Staff Role: Procurement Head

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will automatically alert management when fast-moving spare parts fall below safety thresholds, factoring in the 8–to–12 week Italy manufacturing time.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents costly stockouts of critical spares, ensuring the company never loses an urgent order due to lack of inventory.

Key Management Feature: Automated email/dashboard alerts triggered when stock hits reorder minimums.

ERP-MOD-26 GST Tax Invoice Generator

○ TO BE BUILT: SYSTEM 2 | Engine 4: Finance, GST & Security

Responsible Staff Role: Finance Department

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will generate government-compliant B2B tax invoices with CGST, SGST, IGST tax breakdown, 8–digit HSN classification, and digital payment QR codes.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Produces clean, professional bills that corporate accounts departments process without delays or tax queries.

Key Management Feature: Automated tax calculation and PDF invoice generation with corporate branding.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 27 & 28 OF 33 (TO BE ENGINEERED) Engine 4

ERP-MOD-27 GSTR-1 Tax Return Exporter ○ TO BE BUILT: SYSTEM 2 Engine 4: Finance, GST & Security

Responsible Staff Role: Chartered Accountant, Tax Head

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will export monthly sales records in the exact JSON and Excel formats required by the government GST portal, matching bank deposits.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Saves 3 to 4 days of tedious manual data entry for your accountant every month and eliminates GST reconciliation mismatches.

Key Management Feature: 1-click GST portal export button matching monthly bank receipts.

ERP-MOD-28 Customer Outstanding & Milestones ○ TO BE BUILT: SYSTEM 2 Engine 4: Finance, GST & Security

Responsible Staff Role: Accounts Receivable Executive

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will track pending customer payments against delivery and installation milestones, preventing machinery handover before payments are cleared.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Ensures that balance amounts and installation retention payments are collected promptly without capital remaining stuck.

Key Management Feature: Customer outstanding ledger showing advance received, balance due, and dispatch status.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 29 & 30 OF 33 (TO BE ENGINEERED) Engine 4

ERP-MOD-29 Payment Due Reminders & Overdue Tracker ○ TO BE BUILT: SYSTEM 2

Engine 4: Finance, GST & Security

Responsible Staff Role: Credit Control Team

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will categorize pending bills by age (30, 60, 90+ days overdue) and send polite, automated WhatsApp and email payment reminders to client finance teams.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Accelerates payment recovery, cuts debtor collection days, and protects company bank liquidity.

Key Management Feature: Automated payment reminder escalation with attached PDF ledger statement.

ERP-MOD-30 Staff Access Roles & Permissions ○ TO BE BUILT: SYSTEM 2

Engine 4: Finance, GST & Security

Responsible Staff Role: Managing Director, System Admin

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will enforce strict permissions so staff members only see information relevant to their role (Sales reps see quotes; Godown staff see stock; Directors see profit).

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents unauthorized employees from seeing sensitive profit margins, confidential supplier costs, or executive financial reports.

Key Management Feature: Role-based permission matrix separating Sales, Workshop, Accounts, and Executive access.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINES SCOPE • MODULES 31 & 32 OF 33 (TO BE ENGINEERED) Engine 4

ERP-MOD-31 Tamper-Proof Audit History Log ○ TO BE BUILT: SYSTEM 2 Engine 4: Finance, GST & Security

Responsible Staff Role: Internal Auditor, Managing Director

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will permanently log every user login, price change, quotation modification, and invoice cancellation with the exact user name, time, and computer record.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Total internal transparency; no staff member can secretly change prices, offer unauthorized discounts, or delete customer records without a trace.

Key Management Feature: Complete unchangeable history log recording every staff action with date and time stamp.

ERP-MOD-32 Daily Auto Local & Cloud Backup ○ TO BE BUILT: SYSTEM 2 Engine 4: Finance, GST & Security

Responsible Staff Role: Operations Head, IT Lead

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will automatically save a complete snapshot of all company records, customer inquiries, and stock ledgers every night to both local and secure offsite storage.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Guarantees zero data loss even in the event of computer hardware failure, power cuts, accidental deletion, or internet outages.

Key Management Feature: Automated nightly backup system with zero manual effort required.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINE • MODULE 33 OF 33 & CONTROL DESKS (TO BE ENGINEERED) Executive Business Control

ERP-MOD-33 Managing Director Business Dashboard ○ TO BE BUILT: SYSTEM 2 Engine 4: Finance, GST & Security

Responsible Staff Role: Managing Director

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Will provide a high-level executive dashboard showing total monthly revenue, gross profit margins, inventory turnover speed, and top client concentrations on one screen.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives the business owner total commercial clarity in 30 seconds every morning without needing to ask staff for manual reports.

Key Management Feature: Live business summary tiles showing active inquiries, stock value, and month-to-date sales figures.

PORTALS Staff Operations & Director Control Consoles (To Be Built) ○

TO BE BUILT: MANAGEMENT DESKS

`Planned Portals: /admin • /superadmin`

PLANNED STAFF OPERATIONS DESK (/ADMIN)

Where your sales team will manage customer RFQs, view inquiry details, send pre-filled WhatsApp quotes, and update machine availability without touching code.

PLANNED MANAGING DIRECTOR CONSOLE (/SUPERADMIN)

Will give the business owner total control over staff passwords, user permissions, company contact settings, and complete unalterable business history logs.

Security Guarantee to be Built: Both administrative consoles will be completely cloaked from the public web with secure secret passkeys, ensuring zero unauthorized access.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

HOW BOTH SYSTEMS WILL WORK TOGETHER • FROM CUSTOMER INQUIRY TO DELIVERY

Proposed Commercial Workflow

THE SEAMLESS 6-STEP BUSINESS PROCESS TO BE ENGINEERED (INQUIRY TO PAYMENT)

Step 1: Customer Inquires Online
A plant head finds a 1,600T press on the website and clicks the WhatsApp inquiry button with his company details.

Step 2: Instant Technical Sizing
The system automatically matches the press with the exact Italian OMPI pneumatic clutch required for the job.

Step 3: 60-Second Quotation Sent
An official proposal PDF with machine photos, specs, and price is sent directly to the customer's WhatsApp.

Step 4: Machine Locked in Godown
Once the client confirms, the press is marked 'Under Commercial Hold' so it cannot be sold to anyone else.

Step 5: Pune Workshop Overhaul & Rigging
The machine undergoes live power trials, foundation check, and is dispatched on low-bed trailers to the buyer's factory.

Step 6: Official GST Invoicing & Backup
Clean tax bills are issued, GST records are updated for your accountant, and all transaction history is securely saved.

COMMERCIAL PHASING & PROPOSED DELIVERY MILESTONES

Milestone Phase	Proposed Scope of Delivery	Status
Phase 1 (Kickoff Scope)	Dalal 24 Public Pages • Staff Admin Portal • Director Console • Core Quoting Tools	TO COMMENCE UPON SIGN-OFF
Phase 2 (ERP Rollout)	OMPI Standalone ERP Modules (7 Monthly Sprints: Customer 360, Italy POs, BOM, Godown Bins, GSTR-1)	SCHEDULED SPRINT ROADMAP

🔒 CONFIDENTIALITY & PRE-COMMENCEMENT APPROVAL ACKNOWLEDGMENT

This master specification represents the proprietary intellectual property and proposed operational architecture of Dalal Machine Tools Agency Pvt. Ltd. and OMPI India LLP. Work has not commenced. External sharing, copying, or forwarding without written authorization is strictly forbidden.
