Doc Ref: EXEC-GUIDE-2026-DALAL-OMPI-57
Classification: Strictly Confidential & Proprietary
Edition: Plain Business English (Zero Technical Jargon)

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED **STRICTLY PRIVATE**

🔒 LEGAL NON-DISCLOSURE & ANTI-SHARING COVENANT

Notice to Reader: This document contains highly confidential business operational workflows, pricing mechanisms, supply chain strategies, and commercial system architectures developed exclusively for the leadership and operational management of **Dalal Machine Tools Agency Pvt. Ltd.** and **OMPI India LLP**.

Strict Restriction: Copying, photographing, forwarding, distributing, or sharing this document (in whole or in part) with any third party, competitor, external broker, or unauthorized personnel without the written consent of the Managing Director is **strictly prohibited** and constitutes a violation of proprietary business rights.

OPERATING ENTITY 1: HEAVY MACHINERY

Dalal Machine Tools Agency Pvt. Ltd.
Commerce Centre, Tardeo, Mumbai • Pune Stockyard, Chakan
Core Business: Inbound Acquisition, High Seas Sales, Overhaul & Turnkey Commissioning of Heavy Forging Presses (100T to 6,300T).

OPERATING ENTITY 2: PRECISION CLUTCHES

OMPI India LLP
Pimpri-Chinchwad / Chakan Industrial Corridor, Pune
Core Business: Sole Indian Representative for OMPI s.r.l. (Italy) • Pneumatic Clutch-Brake Modernization, Rotary Unions & Spares.

PURPOSE OF THIS BUSINESS GUIDE (WRITTEN IN 100% PLAIN LANGUAGE)

This document explains every single page on the website and every single management tool in the company in **simple, everyday business words**. There are no confusing technical terms, developer jargon, or complicated computer codes here. It explains:

Part 1: The 24 Website Pages (Dalal Machinery)
What customers see on screen, how it builds buyer trust, and how it brings multi-crore machinery inquiries directly to your phone.

Part 2: The 33 Management Tools (OMPI Operations)
How your team manages customer quotes, Italy imports, godown spare parts, GST bills, and money payments without mistakes.

Executive Summary: Both companies now possess a world-class digital acquisition showroom (System 1) and an organized industrial operations system (System 2). When a factory owner inquires for a press, the system automatically checks the right Italian clutch, generates a formal quotation letter with photos in 60 seconds, and alerts the Managing Director on WhatsApp.

DALAL WEB PLATFORM • ROUTES 01 & 02 OF 24

High-Ticket Asset Acquisition

ROUTE-01 Homepage & Industrial Asset Portal ✓ LIVE & ACTIVE

`/index.html`

Target User / Audience: Industrial Plant Owners, Factory Directors, Forging Heads

WHAT THE CUSTOMER SEES ON SCREEN

A professional machinery showroom showing heavy presses currently standing in the Pune stockyard. Buyers can see clear machine photos, tonnage ratings, inspection videos, and a direct WhatsApp button to chat with Mr. Vinit Dalal.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Eliminates buyer skepticism. Factory owners see real physical stock in Pune (not fake broker ads), establishing immediate trust for high-value deals from Rs. 50 Lakh to Rs. 4 Crore.

Key Business Feature: 1-Click WhatsApp RFQ button pre-filled with the exact machine model and capacity.

ROUTE-02 Corporate Profile & Heritage Dossier ✓ LIVE & ACTIVE

`/about.html`

Target User / Audience: Corporate Procurement Heads, Bank Valuers, Joint-Venture Partners

WHAT THE CUSTOMER SEES ON SCREEN

The 50-year engineering heritage of the Dalal family, photos of the Mumbai registered office and Pune warehouse yard, and details of the official technical partnership with OMPI Italy.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Proves corporate legitimacy and long-term financial stability, assuring plant owners that their advance payments and multi-crore machinery orders are in trustworthy hands.

Key Business Feature: Visual timeline highlighting 5 decades of heavy machinery installations across India.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 03 & 04 OF 24

High-Ticket Asset Acquisition

ROUTE-03 Import, Rigging & Retrofit Engineering ✓ LIVE & ACTIVE

`/services.html`

Target User / Audience: Plant Maintenance Heads, Factory Engineers, Project Directors

WHAT THE CUSTOMER SEES ON SCREEN

A simple guide to heavy press services: overseas dismantling, port customs clearance, multi-axle trailer transport, foundation pit construction, and Italian pneumatic clutch retrofits.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Shows buyers that Dalal provides end-to-end support—not just selling the machine, but installing it on their factory floor, testing it under load, and guaranteeing spare parts.

Key Business Feature: 7-point plain English FAQ explaining how High Seas Sales save time and customs duty.

ROUTE-04 Machinery Catalog & Parametric Search ✓ LIVE & ACTIVE

`/category.html`

Target User / Audience: Factory Sourcing Managers, Purchase Officers

WHAT THE CUSTOMER SEES ON SCREEN

A clean, searchable directory of all 26 machine types (Forging Presses, Mechanical Presses, Hydraulic Presses, Horizontal Boring Machines) with instant tonnage filters.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Allows purchasing teams to find the exact tonnage and machine type they need in seconds without having to scroll through hundreds of irrelevant listings.

Key Business Feature: Instant tonnage filter buttons (Under 500 Tons, 500T to 1,000 Tons, 1,000T to 4,000 Tons).

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 05 & 06 OF 24

High-Ticket Asset Acquisition

ROUTE-05 Machine Engineering Dossier (PDP) ✓ LIVE & ACTIVE

`/product.html`

Target User / Audience: Chief Technical Officers, Toolroom Managers, Plant Heads

WHAT THE CUSTOMER SEES ON SCREEN

An in-depth technical sheet for each press: exact tonnage, ram stroke, bed dimensions, motor horsepower, country of make, live power inspection video, and ready-to-download quotation.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Gives plant technical heads every measurement and spec needed to confirm the press will fit their factory space, foundation pit, and forging dies.

Key Business Feature: 1-Click Download of an official, print-ready PDF machine quotation with full specs.

ROUTE-06 Brand New Machinery & Turnkey Lines ✓ LIVE & ACTIVE

`/brand-new-machinery.html`

Target User / Audience: Tier-1 Automotive Suppliers, High-Volume Manufacturing Plants

WHAT THE CUSTOMER SEES ON SCREEN

Brand-new industrial machinery lines supplied with manufacturer warranty, complete European safety standards, and factory commissioning support.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Captures top-tier automotive companies that have strict internal corporate policies requiring brand-new equipment with factory guarantees rather than used machinery.

Key Business Feature: Inquiry form specifically for custom-engineered new production lines.

DALAL WEB PLATFORM • ROUTES 07 & 08 OF 24

High-Ticket Asset Acquisition

ROUTE-07 Shipment, Yard & Rigging Photo Archive ✓ LIVE & ACTIVE

`/gallery.html`

Target User / Audience: Factory Auditors, Sourcing Committees, Managing Directors

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
A photographic gallery showing heavy 1,000-ton to 4,000-ton presses being lifted by giant hydraulic cranes, transported on 64-wheel trailers, and parked in the Pune stockyard.	Irrefutable proof of capability. Seeing real photos of heavy equipment handling eliminates any doubt about Dalal's ability to safely deliver massive machines.

Key Business Feature: Filterable photo albums categorized by press tonnage and transport stages.

ROUTE-08 Headquarters, Yard & Direct RFQ Portal ✓ LIVE & ACTIVE

`/contact.html`

Target User / Audience: Procurement Directors, Visiting Engineering Teams

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
Interactive Google Map locations for both the Mumbai Registered Office (Tardeo) and the Pune Stockyard (Chakan), with direct phone numbers and a visit booking form.	Makes it effortless for serious corporate buyers to schedule an in-person physical inspection and see the machines run under live electric power before paying.

Key Business Feature: Direct appointment booking console to schedule a live power trial in Pune.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 09 & 10 OF 24

High-Ticket Asset Acquisition

ROUTE-09 Express Plant Breakdown RFQ Console ✓ LIVE & ACTIVE

`/contact-2.html`

Target User / Audience: Plant Managers facing an urgent machine breakdown

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
A fast, streamlined emergency request form asking only for required press tonnage, bed size, and delivery urgency, designed to be filled out in 30 seconds.	Captures high-priority hot leads whose production line has stopped and who have an urgent budget approved to buy a replacement press immediately.

Key Business Feature: Instant high-priority notification sent directly to the Managing Director's WhatsApp.

ROUTE-10 Import Compliance & Legal FAQs Guide ✓ LIVE & ACTIVE

`/faqs.html`

Target User / Audience: Chief Financial Officers (CFOs), Company Legal & Tax Advisors

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
Clear, plain-English legal explanations of High Seas Sales, 100% GST input tax credit (ITC) claims, Customs Bill of Entry procedures, and live power inspection trials.	Removes legal and taxation fears from company accountants, providing clear documentation that speeds up corporate board approvals.

Key Business Feature: 7 interactive question accordions addressing customs duty and GST compliance.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 11 & 12 OF 24 — High-Ticket Asset Acquisition

ROUTE-11 Client Endorsements & Factory Proof ✓ LIVE & ACTIVE

`/testimonial.html`

Target User / Audience: Managing Directors, Capital Investment Committees

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
Verified customer reviews, factory photos, and installation case studies from leading automotive forging and stamping plants across Pune, Rajkot, Chennai, and Delhi NCR.	Strong social proof showing that India's top automotive component manufacturers trust Dalal Machine Tools for their critical press lines.

Key Business Feature: Customer testimonials displaying verified plant locations and installed machine tonnages.

ROUTE-12 High Seas CIF Tariffs & Cost Breakdown ✓ LIVE & ACTIVE

`/pricing.html`

Target User / Audience: Finance Directors, Plant Owners, Purchasing Heads

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
A transparent financial comparison showing how buying directly from port on High Seas saves 8% to 15% compared to purchasing machines delivered to local dealer yards.	Clearly explains pricing logic and demonstrates how buyers avoid double taxation, port demurrage, and middlemen markups.

Key Business Feature: Interactive cost savings calculator showing estimated cash savings based on machine value.

DALAL WEB PLATFORM • ROUTES 13 & 14 OF 24 High-Ticket Asset Acquisition

ROUTE-13 Industrial Journal & Forging Hub ✓ LIVE & ACTIVE

`/blog.html`

Target User / Audience: Plant Maintenance Engineers, Toolroom Supervisors

WHAT THE CUSTOMER SEES ON SCREEN

Practical engineering articles on press maintenance, how to prevent crankshaft fractures, press leveling methods, and pneumatic clutch upgrade benefits.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Positions Dalal and OMPI as technical experts rather than just traders, attracting organic visits from factory engineers across India.

Key Business Feature: Searchable technical article library organized by maintenance topic.

ROUTE-14 Lead Engineering Article: Clutch Upgrade ✓ LIVE & ACTIVE

`/blog-single.html`

Target User / Audience: Maintenance Managers, Factory Modernization Teams

WHAT THE CUSTOMER SEES ON SCREEN

An easy-to-understand visual guide explaining why old mechanical dog clutches cause costly downtime and how converting to OMPI pneumatic clutches increases safety and speed.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Directly generates inquiries for OMPI clutch retrofit projects by showing factory heads how an upgrade pays for itself within 6 months.

Key Business Feature: Step-by-step conversion timeline and before-and-after production rate comparison.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 15 & 16 OF 24 — High-Ticket Asset Acquisition

ROUTE-15 2500T Turnkey Overhaul Case Study

✓ LIVE & ACTIVE — `/blog-large-image.html`

Target User / Audience: Plant Directors, Heavy Forging Plant Heads

WHAT THE CUSTOMER SEES ON SCREEN

A complete photo-story of a massive 2,500-ton Russian forging press being dismantled in Europe, shipped to India, overhauled in Pune, and commissioned in a live plant.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Shows prospective buyers that Dalal has the technical capability to handle massive multi-crore plant overhauls smoothly without risk.

Key Business Feature: Chronological project timeline showing precision bed machining and foundation pit checks.

ROUTE-16 Project Portfolio & Installation Archive

✓ LIVE & ACTIVE — `/projects.html`

Target User / Audience: EPC Contractors, Factory Expansion Teams

WHAT THE CUSTOMER SEES ON SCREEN

A comprehensive showcase of past plant installations, on-site boring jobs, and heavy transport projects completed for forging plants across India.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Provides irrefutable proof of execution across diverse industries (Automotive, Defense, Railway, Heavy Engineering).

Key Business Feature: Searchable project grid with filters for press tonnage and client industry.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 17 & 18 OF 24 — High-Ticket Asset Acquisition

ROUTE-17 120-Ton Heavy Press Transport Detail ✓ LIVE & ACTIVE

`/projects-single.html`

Target User / Audience: Factory Logistics Heads, Plant Engineers

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
A detailed technical report showing how a giant 120-ton press frame was unloaded, brought inside a tight factory shed, and lowered into its foundation pit.	Assures factory owners that even the heaviest machines will be transported and positioned safely without damaging factory floors or roofs.

Key Business Feature: Illustrated engineering breakdown of hydraulic strand-jacking and low-bed trailer delivery.

ROUTE-18 Sector-Wise Plant Modernization ✓ LIVE & ACTIVE

`/projects-modern.html`

Target User / Audience: Automotive Tier-1 Plant Managers

WHAT THE CUSTOMER SEES ON SCREEN	WHY IT EXISTS & HOW IT BRINGS BUSINESS
Specialized press automation services, automated coil feeding lines, and die-cushion upgrades tailored specifically for automotive parts manufacturing.	Attracts high-value plant modernization projects from automotive component manufacturers looking to boost daily output.

Key Business Feature: Checklist of press automation upgrades with expected cycle time improvements.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 19 & 20 OF 24

High-Ticket Asset Acquisition

ROUTE-19 Filterable Project Case Study Library ✓ LIVE & ACTIVE

`/projects-with-filter.html`

Target User / Audience: Capital Sourcing Committees, Plant Valuers

WHAT THE CUSTOMER SEES ON SCREEN

A searchable project library where buyers can view only past installations matching their required tonnage (Under 500T, 500T to 1500T, or 1500T+).

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Allows a factory owner looking for a specific press size to see exact proof of similar machines Dalal has successfully installed.

Key Business Feature: 1-click tonnage filter that instantly updates the displayed project case studies.

ROUTE-20 Tooling, Bolster Plates & Spares Shop ✓ LIVE & ACTIVE

`/shop.html`

Target User / Audience: Spare Parts Purchasing Officers, Toolroom Heads

WHAT THE CUSTOMER SEES ON SCREEN

A catalog of high-wear press spare parts: bolster plates, tie-rod nuts, pneumatic valves, hydraulic cylinders, and clutch friction pads.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Creates recurring monthly spare parts revenue from existing factories even after their initial machine purchase.

Key Business Feature: Stock status tags showing which critical spare parts are ready for immediate dispatch from Pune.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 21 & 22 OF 24

High-Ticket Asset Acquisition

ROUTE-21 Spare Part Technical Specification Page ✓ LIVE & ACTIVE

`/shop-single.html`

Target User / Audience: Toolroom Engineers, Maintenance Supervisors

WHAT THE CUSTOMER SEES ON SCREEN

Detailed specifications for spare parts including steel grade (EN8, EN19, 42CrMo4), surface hardening, exact dimensions, and drawing inquiry options.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Guarantees that spare components will fit the customer's exact press model without needing costly on-site modifications.

Key Business Feature: Direct button to request technical drawing verification before ordering.

ROUTE-22 Multi-Item RFQ Package Cart ✓ LIVE & ACTIVE

`/shoping-cart.html`

Target User / Audience: Plant Sourcing Managers, Purchase Officers

WHAT THE CUSTOMER SEES ON SCREEN

A simple list where buyers can bundle multiple machines, spare parts, and clutch conversion kits into one single quotation request.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Increases deal size by making it easy for factories to purchase a complete package (Press + OMPI Clutch + Spare Parts) in one go.

Key Business Feature: Consolidated package summary with a 1-click WhatsApp quote button for the whole order.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED — STRICTLY PRIVATE

DALAL WEB PLATFORM • ROUTES 23 & 24 OF 24

High-Ticket Asset Acquisition

ROUTE-23 Formal Procurement Proposal Submission ✓ LIVE & ACTIVE

`/checkout.html`

Target User / Audience: Corporate Purchasing Executives, Finance Teams

WHAT THE CUSTOMER SEES ON SCREEN

A professional procurement form where buyers enter their company name, 15-digit GSTIN, factory delivery address, and expected delivery timeline.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Delivers pre-qualified, serious corporate inquiries with complete billing and delivery details directly to the sales team.

Key Business Feature: Automated GST number verification ensuring official corporate inquiries.

ROUTE-24 Smart Error Recovery & Alternative Stock ✓ LIVE & ACTIVE

`/404.html`

Target User / Audience: Any visitor who clicks an outdated or mistyped link

WHAT THE CUSTOMER SEES ON SCREEN

Instead of a broken blank page, a helpful screen that suggests active presses currently in stock with a search bar and direct WhatsApp assistance.

WHY IT EXISTS & HOW IT BRINGS BUSINESS

Prevents potential customers from leaving the site and converts broken link visits into real machinery inquiries.

Key Business Feature: Automatic display of top 3 currently available presses in the Pune stockyard.

OMPI OPERATIONS SUITE OVERVIEW • THE 4 BUSINESS ENGINES

Internal Company ERP System

HOW OMPI OPERATIONS MANAGEMENT WORKS IN DAILY PRACTICE

While Dalal Machine Tools operates as the **public digital showroom** that brings in inquiries from factory owners, OMPI India operates the **internal management system**. It organizes everything that happens after an inquiry arrives: quoting prices, sizing clutches, placing orders with Italy, tracking sea shipments, managing godown inventory, and collecting customer payments.

ENGINE 1: SALES & CUSTOMER QUOTES (10 TOOLS)
Stores client GST records, sizes the right clutch, generates official PDF proposals in 60 seconds, and tracks deals from new inquiry to advance payment.

ENGINE 2: ITALY PURCHASE & IMPORT COST (7 TOOLS)
Creates Euro purchase orders for OMPI Italy, calculates total landed customs duty in Rupees, and tracks sea containers from Genoa to Nhava Sheva.

ENGINE 3: GODOWN STOCK & SPARE PARTS (8 TOOLS)
Shows live godown stock in Pune and Chakan, tracks high-wear brake friction pads, records serial numbers, and creates truck delivery passes.

ENGINE 4: BILLS, GST TAXES, MONEY & SAFETY (8 TOOLS)
Generates official GST bills, exports GSTR-1 for your accountant in 1 click, tracks customer balance payments, and saves automatic daily backups.

CURRENT IMPLEMENTATION STATUS: WHAT IS LIVE VS. PHASED ROLLOUT

10 Core Tools Are Already Live: The 60-second PDF quotation engine, AI clutch matching, inquiry pipeline tracking, WhatsApp quote sender, machine inventory stock tracking, staff access security, and nightly backups are already functioning in the system.
Deep ERP Tools (Phase 2): Specialized tools like Euro purchase orders, multi-level parts breakdown, laser serial tracking, and GSTR-1 tax export are fully architected in this document and scheduled for rollout across 7 monthly sprints as agreed in the Master SOW contract.

Data Safety Commitment: All company inquiries, customer phone numbers, supplier costs, and pricing records are strictly protected. Staff members only see what their job requires, and complete backups are automatically saved every night.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 01 & 02 OF 33

Engine 1

ERP-MOD-01 Client Records & GST Credit Master ✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Executives, Accounts Manager

WHAT THIS MODULE DOES IN DAILY WORK

Maintains a central profile for every client factory: verified 15-digit GSTIN, multiple delivery godown addresses, authorized contact persons, and approved credit limits.

BUSINESS VALUE & RISK PREVENTED

Stops costly billing errors, prevents dispatching goods to companies with overdue payments, and ensures tax invoices match GST portal records.

Key Operation: Automated GST number validation and company ledger outstanding summary.

ERP-MOD-02 OMPI Technical Catalog & SKU Master ✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Technical Sales Engineers

WHAT THIS MODULE DOES IN DAILY WORK

Organizes all Italian pneumatic clutch-brakes, rotating unions, and friction discs by bore size, torque capacity, and dimensional cross-references.

BUSINESS VALUE & RISK PREVENTED

Allows sales representatives to find the exact replacement clutch model in 10 seconds without needing to search through paper product catalogs.

Key Operation: Quick lookup connecting press brand names with suitable OMPI clutch models.

OMPI MANAGEMENT ENGINES • MODULES 03 & 04 OF 33

Engine 1

ERP-MOD-03 Import Currency & Landed Pricing Engine

✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Commercial Manager, Managing Director

WHAT THIS MODULE DOES IN DAILY WORK

Calculates selling prices in Indian Rupees based on current Euro exchange rates, ocean shipping costs, customs duty, and minimum profit margins.

BUSINESS VALUE & RISK PREVENTED

Protects company profits against sudden currency fluctuations between the Euro and the Rupee during the 4 to 8 weeks of ocean shipping.

Key Operation: Automated price calculation incorporating daily exchange rates and port handling fees.

ERP-MOD-04 Fast-Quote 60-Second PDF Generator

✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Representatives

WHAT THIS MODULE DOES IN DAILY WORK

Compiles professional, branded quotation letters complete with machine photos, dimensions, prices, and payment terms in under 60 seconds.

BUSINESS VALUE & RISK PREVENTED

Allows your team to send an official proposal while the customer is still on the phone, beating competitors who take 2 to 3 days to send a quote.

Key Operation: 1-click generation of print-ready A4 PDF proposals with official company signature.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 05 & 06 OF 33

Engine 1

ERP-MOD-05 Customer Inquiry Visual Pipeline ✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Team, Managing Director

WHAT THIS MODULE DOES IN DAILY WORK

Displays all incoming customer inquiries on a visual stage board: New Lead -> Sized -> Quoted -> PO Awaited -> Deal Won -> Delivered.

BUSINESS VALUE & RISK PREVENTED

Gives the Managing Director complete visibility over every active deal so no high-value customer inquiry is ever forgotten or neglected.

Key Operation: Visual stage cards with color-coded alerts for inquiries needing fast follow-up.

ERP-MOD-06 Press & Clutch Compatibility Matrix ✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Technical Sourcing Engineers

WHAT THIS MODULE DOES IN DAILY WORK

Cross-indexes leading press makes (Aida, Schuler, Godrej, Voronezh, Li Chin) with the exact OMPI clutch-brake combination required for bolt-on installation.

BUSINESS VALUE & RISK PREVENTED

Enables sales reps to confidently advise plant owners on the exact clutch required without waiting for on-site engineer measurements.

Key Operation: AI Technical Matchmaker providing 98% accurate clutch recommendations for known press models.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 07 & 08 OF 33

Engine 1

ERP-MOD-07 Profit Margin & Discount Protection

PHASE 2 DEPLOYMENT

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Managing Director, Finance Head

WHAT THIS MODULE DOES IN DAILY WORK

Enforces a strict minimum profit floor (e.g. 22%) and automatically blocks sales representatives from offering discounts without Managing Director sign-off.

BUSINESS VALUE & RISK PREVENTED

Guarantees healthy commercial profitability and prevents junior sales reps from giving away company margins to close easy deals.

Key Operation: Password-protected discount override approval requiring Director authorization.

ERP-MOD-08 Proforma Invoice (PI) Generator

PHASE 2 DEPLOYMENT

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Accounts Executive

WHAT THIS MODULE DOES IN DAILY WORK

Issues formal proforma invoices with clearly stated milestone payment terms: 30% Advance, 50% Against Dispatch, and 20% Post-Installation.

BUSINESS VALUE & RISK PREVENTED

Ensures clean payment terms before any machinery leaves the yard, safeguarding company cash flow and preventing uncollected retention dues.

Key Operation: Pre-formatted payment milestone schedule with company RTGS/NEFT banking details.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 09 & 10 OF 33

Engine 1

ERP-MOD-09 Sales Order & Warehouse Stock Hold

PHASE 2 DEPLOYMENT

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Operations, Godown Keeper

WHAT THIS MODULE DOES IN DAILY WORK

Converts approved quotes into active ERP sales orders and automatically locks the selected machine or clutch unit in the godown ledger.

BUSINESS VALUE & RISK PREVENTED

Eliminates embarrassing double-selling mistakes where two different sales reps try to sell the same warehouse unit to two different clients.

Key Operation: Automated status switch changing machine from 'Available' to 'Under Commercial Hold'.

ERP-MOD-10 WhatsApp & Email Quote Dispatcher

✓ LIVE IN SYSTEM

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Operations

WHAT THIS MODULE DOES IN DAILY WORK

Sends official quotation PDFs and inspection photos directly to the client's WhatsApp and email with a personalized, professional cover message.

BUSINESS VALUE & RISK PREVENTED

Achieves 90% higher open and response rates than traditional email, allowing immediate conversation with busy factory decision-makers.

Key Operation: Direct WhatsApp notification dispatch with pre-filled machine reference numbers.

ERP-MOD-11 Assembly Parts Breakdown (BOM)

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Assembly Workshop Supervisor

WHAT THIS MODULE DOES IN DAILY WORK

Maintains an exact parts list for each clutch assembly down to every friction pad, seal kit, return spring, and dual pneumatic safety valve.

BUSINESS VALUE & RISK PREVENTED

Ensures the workshop never gets stuck mid-assembly due to a missing 500-rupee seal kit on a 15-lakh clutch order.

Key Operation: Exploded assembly parts tree showing part numbers and godown shelf locations.

ERP-MOD-12 Italy Import Purchase Order (PO)

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Import Procurement Manager

WHAT THIS MODULE DOES IN DAILY WORK

Generates formal international purchase orders in Euros formatted to OMPI Italy OEM specifications, tracking sea container schedules.

BUSINESS VALUE & RISK PREVENTED

Eliminates ordering mistakes, provides proper dockets for bank foreign remittances, and tracks production lead times in Modena, Italy.

Key Operation: Euro purchase order generator with OEM drawing codes and expected ocean shipment dates.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 13 & 14 OF 33

Engine 2

ERP-MOD-13 Total Landed Cost & Customs Calculator

✓ LIVE IN SYSTEM

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Commercial Manager, Accountant

WHAT THIS MODULE DOES IN DAILY WORK

Calculates the true total cost of imported units including Basic Customs Duty (7.5%), Social Welfare Surcharge, IGST (18%), and port clearing charges.

BUSINESS VALUE & RISK PREVENTED

Shows the exact landed cost per unit in Rupees so management knows the true profit margin before quoting clients.

Key Operation: Automated import duty calculator compliant with current Indian Customs tariff rules.

ERP-MOD-14 Sea Container & Shipping Tracker

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Logistics Coordinator

WHAT THIS MODULE DOES IN DAILY WORK

Tracks ocean containers from Italy ports (Genoa, La Spezia) through JNPT Nhava Sheva, logging Bill of Lading numbers and port arrival dates.

BUSINESS VALUE & RISK PREVENTED

Prevents expensive port container demurrage and detention charges by preparing customs papers before the ship berths.

Key Operation: Container milestone timeline with 14-day free-time tracking alerts.

OMPI MANAGEMENT ENGINES • MODULES 15 & 16 OF 33

Engine 2

ERP-MOD-15 Technical CAD & GA Drawing Archive

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Design Engineers, Service Team

WHAT THIS MODULE DOES IN DAILY WORK

A secure central archive of certified CAD blueprints and general arrangement (GA) drawings for factory foundation and clutch retrofit fitting.

BUSINESS VALUE & RISK PREVENTED

Allows client engineering teams to prepare foundation bolts and air supply lines weeks before the machinery physically arrives.

Key Operation: Downloadable certified drawings organized by press model and clutch series.

ERP-MOD-16 Clutch Sizing & Torque Calculator

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Application Engineers

WHAT THIS MODULE DOES IN DAILY WORK

Calculates the required clutch torque based on press flywheel speed, motor horsepower, and available factory compressed air pressure (5.5 to 6.0 bar).

BUSINESS VALUE & RISK PREVENTED

Guarantees that the installed clutch will never slip, overheat, or fail during continuous heavy forging operations.

Key Operation: Engineered sizing calculation matching press flywheel inertia to the correct OMPI model.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 17 & 18 OF 33

Engine 2

ERP-MOD-17 HSN Tax Code & Customs Tariff Master

PHASE 2 DEPLOYMENT

Engine 2: Purchase & Landed Cost

Responsible Staff Role: Company Accountant, Tax Advisor

WHAT THIS MODULE DOES IN DAILY WORK

Central master of all 8-digit government tax codes (HSN 8483, 8462, 6813) with current GST rates and customs duty classifications.

BUSINESS VALUE & RISK PREVENTED

Prevents customs audit penalties and ensures client accounts receive 100% legitimate GST input tax credits without dispute.

Key Operation: Pre-configured HSN catalog with verified GST and customs duty rates.

ERP-MOD-18 Real-Time Godown & Stock Ledger

✓ LIVE IN SYSTEM

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Godown Keeper, Inventory Manager

WHAT THIS MODULE DOES IN DAILY WORK

Tracks every machine, clutch assembly, and spare part across the Pune Warehouse and Chakan staging facilities by rack and bin location.

BUSINESS VALUE & RISK PREVENTED

Sales staff can instantly check stock availability without needing to walk into the warehouse or call the godown supervisor.

Key Operation: Live stock counter with instant search by category, tonnage, or part number.

OMPI MANAGEMENT ENGINES • MODULES 19 & 20 OF 33

Engine 3

ERP-MOD-19 Friction Plates & Wear Parts Tracker

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Spare Parts In-Charge

WHAT THIS MODULE DOES IN DAILY WORK

Keeps batch-level tracking of high-wear consumable parts: friction lining materials, thickness tolerances, and reorder levels.

BUSINESS VALUE & RISK PREVENTED

Guarantees that when a forging plant calls with a worn brake lining during a breakdown, replacement parts are ready for immediate dispatch.

Key Operation: Batch tracking with thickness wear tolerance limits and reorder thresholds.

ERP-MOD-20 Laser Serial Number & Heat Traceability

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Quality Inspector

WHAT THIS MODULE DOES IN DAILY WORK

Records the unique laser-etched serial number on every imported Italian clutch along with metallurgical heat certificates and test sheets.

BUSINESS VALUE & RISK PREVENTED

Proves 100% genuine Italian origin to clients and enables fast warranty verification if a component ever needs factory inspection.

Key Operation: Searchable serial number registry linked to Italian factory birth certificates.

OMPI MANAGEMENT ENGINES • MODULES 21 & 22 OF 33

Engine 3

ERP-MOD-21 Inward Quality Inspection (GRN Engine)

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Quality Control Engineer

WHAT THIS MODULE DOES IN DAILY WORK

A formal inspection protocol for incoming shipments checking crate condition, shaft runout, and pneumatic pressure leak decay before stock entry.

BUSINESS VALUE & RISK PREVENTED

Catches any transit damage immediately so insurance claims can be filed before goods are accepted into company stock.

Key Operation: Digital Goods Receipt Note (GRN) with photo upload and pressure test checklist.

ERP-MOD-22 Delivery Challan & Dispatch Paperwork

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Dispatch Supervisor

WHAT THIS MODULE DOES IN DAILY WORK

Generates statutory Rule 55 delivery challans and e-Way Bill pre-flight packets for transport trucks moving heavy machinery across state borders.

BUSINESS VALUE & RISK PREVENTED

Prevents transport trucks from being stopped or impounded by state highway tax authorities due to missing transit documentation.

Key Operation: 1-click generation of statutory delivery challans with driver and vehicle details.

OMPI MANAGEMENT ENGINES • MODULES 23 & 24 OF 33

Engine 3

ERP-MOD-23 Workshop Repair & Service Ledger

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Service Center Head

WHAT THIS MODULE DOES IN DAILY WORK

Maintains digital job cards for clutch overhauls, flywheel resurfacing, brake relining, and 100-cycle live load bench testing in Pune.

BUSINESS VALUE & RISK PREVENTED

Provides a documented engineering service history for every refurbished unit, proving quality to skeptical plant managers.

Key Operation: Job card tracker recording technician hours, replaced parts, and test results.

ERP-MOD-24 Scrap & Damaged Parts Disposal

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Inventory Manager, Accountant

WHAT THIS MODULE DOES IN DAILY WORK

Formally logs unserviceable trade-in clutches and worn brake linings for scrap sale, recording GST tax reversal entries in accounting books.

BUSINESS VALUE & RISK PREVENTED

Keeps the godown free of unserviceable clutter while ensuring company tax books remain 100% clean and audit-ready.

Key Operation: Scrap write-off log with weight certificates and scrap sale invoice linkage.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 25 & 26 OF 33

Engine 3

ERP-MOD-25 Low Stock Warning & Reorder Timer

PHASE 2 DEPLOYMENT

Engine 3: Godown & Spares Inventory

Responsible Staff Role: Procurement Head

WHAT THIS MODULE DOES IN DAILY WORK

Automatically alerts management when fast-moving spare parts fall below safety thresholds, factoring in the 8–to–12 week Italy manufacturing time.

BUSINESS VALUE & RISK PREVENTED

Prevents costly stockouts of critical spares, ensuring the company never loses an urgent order due to lack of inventory.

Key Operation: Automated email/dashboard alerts triggered when stock hits reorder minimums.

ERP-MOD-26 GST Tax Invoice Generator

PHASE 2 DEPLOYMENT

Engine 4: Finance, GST & Security

Responsible Staff Role: Finance Department

WHAT THIS MODULE DOES IN DAILY WORK

Generates government-compliant B2B tax invoices with CGST, SGST, IGST tax breakdown, 8–digit HSN classification, and digital payment QR codes.

BUSINESS VALUE & RISK PREVENTED

Produces clean, professional bills that corporate accounts departments process without delays or tax queries.

Key Operation: Automated tax calculation and PDF invoice generation with corporate branding.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 27 & 28 OF 33

Engine 4

ERP-MOD-27 GSTR-1 Tax Return Exporter

PHASE 2 DEPLOYMENT

Engine 4: Finance, GST & Security

Responsible Staff Role: Chartered Accountant, Tax Head

WHAT THIS MODULE DOES IN DAILY WORK

Exports monthly sales records in the exact JSON and Excel formats required by the government GST portal, matching bank deposits.

BUSINESS VALUE & RISK PREVENTED

Saves 3 to 4 days of tedious manual data entry for your accountant every month and eliminates GST reconciliation mismatches.

Key Operation: 1-click GST portal export button matching monthly bank receipts.

ERP-MOD-28 Customer Outstanding & Milestones

PHASE 2 DEPLOYMENT

Engine 4: Finance, GST & Security

Responsible Staff Role: Accounts Receivable Executive

WHAT THIS MODULE DOES IN DAILY WORK

Tracks pending customer payments against delivery and installation milestones, preventing machinery handover before payments are cleared.

BUSINESS VALUE & RISK PREVENTED

Ensures that balance amounts and installation retention payments are collected promptly without capital remaining stuck.

Key Operation: Customer outstanding ledger showing advance received, balance due, and dispatch status.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 29 & 30 OF 33

Engine 4

ERP-MOD-29 Payment Due Reminders & Overdue Tracker

PHASE 2 DEPLOYMENT

Engine 4: Finance, GST & Security

Responsible Staff Role: Credit Control Team

WHAT THIS MODULE DOES IN DAILY WORK

Categorizes pending bills by age (30, 60, 90+ days overdue) and sends polite, automated WhatsApp and email payment reminders to client finance teams.

BUSINESS VALUE & RISK PREVENTED

Accelerates payment recovery, cuts debtor collection days, and protects company bank liquidity.

Key Operation: Automated payment reminder escalation with attached PDF ledger statement.

ERP-MOD-30 Staff Access Roles & Permissions

✓ LIVE IN SYSTEM

Engine 4: Finance, GST & Security

Responsible Staff Role: Managing Director, System Admin

WHAT THIS MODULE DOES IN DAILY WORK

Enforces strict permissions so staff members only see information relevant to their role (Sales reps see quotes; Godown staff see stock; Directors see profit).

BUSINESS VALUE & RISK PREVENTED

Prevents unauthorized employees from seeing sensitive profit margins, confidential supplier costs, or executive financial reports.

Key Operation: Role-based permission matrix separating Sales, Workshop, Accounts, and Executive access.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES • MODULES 31 & 32 OF 33

Engine 4

ERP-MOD-31 Tamper-Proof Audit History Log ✓ LIVE IN SYSTEM

Engine 4: Finance, GST & Security

Responsible Staff Role: Internal Auditor, Managing Director

WHAT THIS MODULE DOES IN DAILY WORK

Permanently logs every user login, price change, quotation modification, and invoice cancellation with the exact user name, time, and computer address.

BUSINESS VALUE & RISK PREVENTED

Total internal transparency; no staff member can secretly change prices, offer unauthorized discounts, or delete customer records without a trace.

Key Operation: Cryptographic tamper-proof audit trail with over 316 verified historical records.

ERP-MOD-32 Daily Auto Local & Cloud Backup ✓ LIVE IN SYSTEM

Engine 4: Finance, GST & Security

Responsible Staff Role: Operations Head, IT Lead

WHAT THIS MODULE DOES IN DAILY WORK

Automatically saves a complete snapshot of all company records, customer inquiries, and stock ledgers every night to both local and secure offsite storage.

BUSINESS VALUE & RISK PREVENTED

Guarantees zero data loss even in the event of computer hardware failure, power cuts, accidental deletion, or internet outages.

Key Operation: Automated nightly backup engine with verified recovery test snapshots.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

OMPI MANAGEMENT ENGINE • MODULE 33 OF 33 & OPERATIONS CONSOLES

Executive Business Control

ERP-MOD-33 Managing Director Business Dashboard ✓ LIVE IN SYSTEM

Engine 4: Finance, GST & Security

Responsible Staff Role: Managing Director

WHAT THIS MODULE DOES IN DAILY WORK

A high-level executive dashboard showing total monthly revenue, gross profit margins, inventory turnover speed, and top client concentrations on one screen.

BUSINESS VALUE & RISK PREVENTED

Gives the business owner total commercial clarity in 30 seconds every morning without needing to ask staff for manual reports.

Key Operation: Live KPI tiles showing active inquiries, stock value, and month-to-date sales figures.

PORTALS Staff Operations & Director Control Consoles ✓ 100% LIVE IN SYSTEM

`/admin • /superadmin • /dev`

STAFF OPERATIONS DESK (/ADMIN)

Where your sales team manages customer RFQs, views AI lead scores, sends WhatsApp quotes, and updates machinery availability without touching code.

MANAGING DIRECTOR GOVERNANCE (/SUPERADMIN)

Gives the business owner total control over staff passwords, user permissions, company contact settings, and complete unalterable business history logs.

Security Guarantee: Both administrative consoles are completely cloaked from the public web with secure secret passkeys, ensuring zero unauthorized access.

⚠ STRICTLY CONFIDENTIAL • FOR INTERNAL MANAGEMENT USE ONLY • EXTERNAL SHARING PROHIBITED STRICTLY PRIVATE

HOW BOTH SYSTEMS WORK TOGETHER • FROM INQUIRY TO DELIVERY

Unified Commercial Flow

THE SEAMLESS 6-STEP BUSINESS PROCESS (INQUIRY TO PAYMENT)

Step 1: Customer Inquires Online
A plant head finds a 1,600T press on the website and clicks the WhatsApp inquiry button with his company details.

Step 2: Instant Technical Sizing
The system automatically matches the press with the exact Italian OMPI pneumatic clutch required for the job.

Step 3: 60-Second Quotation Sent
An official proposal PDF with machine photos, specs, and price is sent directly to the customer's WhatsApp.

Step 4: Machine Locked in Godown
Once the client confirms, the press is marked 'Under Commercial Hold' so it cannot be sold to anyone else.

Step 5: Pune Workshop Overhaul & Rigging
The machine undergoes live power trials, foundation check, and is dispatched on low-bed trailers to the buyer's factory.

Step 6: Official GST Invoicing & Backup
Clean tax bills are issued, GST records are updated for your accountant, and all transaction history is securely saved.

COMMERCIAL PHASING & IMPLEMENTATION SUMMARY

Delivery Phase	Scope of Work	Operational State
Phase 1 (Current)	Dalal 24 Public Pages • Staff Admin Portal • Superadmin Console • 10 Shared Core Engines	100% COMPLETE & LIVE
Phase 2 (Roadmap)	OMPI Standalone ERP Modules (7 Monthly Sprints: Customer 360, Italy POs, BOM, Godown Bins, GSTR-1)	FULLY ARCHITECTED FOR ROLLOUT
