Doc Ref: SCOPE-PLAN-2026-DALAL-OMPI-57
Status: Pre-Commencement Scope Blueprint
Language: Plain Business English (Non-Technical)

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

EXECUTIVE STRATEGY • PRE-COMMENCEMENT ARCHITECTURE PROPOSAL

Unified Digital Ecosystem & Enterprise Operations Suite

Comprehensive 57-Point Operational Blueprint for **Dalal Machine Tools Agency Pvt. Ltd.** and **OMPI India LLP**. Engineered in plain business English for executive leadership, plant owners, and commercial heads.

⚠ OFFICIAL NOTICE: PRE-COMMENCEMENT SCOPE DOCUMENT (WORK NOT STARTED)

This document serves as the formal architectural proposal detailing exactly what will be built upon mutual agreement and contract signing. **No development or programming work has commenced yet.** This master dossier details all 24 public/administrative web pages for Dalal and 33 operational ERP modules for OMPI India to align business goals before project kickoff.

SYSTEM 1: DALAL MACHINERY PLATFORM (24 UNITS)

High-impact machinery showroom, live video power trials, 60-second quotation downloads, press tonnage calculators, and real-time WhatsApp inquiry dispatch designed to capture multi-crore machinery buyers across India.

SYSTEM 2: OMPI OPERATIONS ERP SUITE (33 UNITS)

End-to-end industrial management system covering Italian factory purchase orders, landed container costing, barcoded godown inventory, workshop machine overhauls, GST tax compliance, and Director intelligence.

🔒 STRICT NON-DISCLOSURE & PROPRIETARY OWNERSHIP COVENANT

This master specification represents the proprietary intellectual property and commercial operational methods of Dalal Machine Tools Agency Pvt. Ltd. and OMPI India LLP. **Strictly confidential and strictly not for sharing.** Any unauthorized distribution, reproduction, copying, or disclosure to external parties, competitors, or third-party developers without prior written authorization is strictly prohibited.

MASTER PROPOSAL STRUCTURE • HOW EXECUTIVE LEADERSHIP SHOULD REVIEW THIS DOCUMENT

Pages 02 to 13: Dalal Public Web Ecosystem
24 customer-facing pages engineered to build trust with plant owners, show live power trials, generate 60-second quotations, and capture high-value machinery inquiries.

Pages 14 to 31: OMPI Operations ERP Suite
33 operational management modules designed to eliminate inventory errors, manage Italian imports in Euros, handle GST billing, and give the Managing Director real-time control.

PRINCIPAL CLIENT:
Mr. Vinit Dalal • Managing Director / Partner

SCOPE ARCHITECTURE:
57 Proposed Units • 0 Lines Code Written

PREPARED BY CONSULTANT:
Suyash Shinde • Pimpri, Pune

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 01 & 02 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-01 Homepage & Machinery Showroom

○ TO BE BUILT: SYSTEM 1 `Planned Route: /index.html`

Primary Business Audience: Industrial Plant Owners, Factory Directors, Forging Sourcing Heads

Operational Focus: High-Value Machine Sizing, Yard Authenticity & Instant Trust

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A modern digital machinery showroom presenting heavy forging and stamping presses available for sale. Customers will see clear high-resolution photographs, verified machine tonnages, live video power trials, and a direct WhatsApp button to speak directly with Mr. Vinit Dalal. Eliminates buyer hesitation before calling.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates buyer skepticism. Factory owners see that machines are physically present in the Pune stockyard (not fake broker listings), establishing instant trust for deals from Rs. 50 Lakh to Rs. 4 Crore. Protects corporate brand credibility against unauthorized market brokers.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Live Power Inspection Videos
- ✓ Direct WhatsApp Sizing RFQ
- ✓ Pune Yard Physical Verification

Key Management Feature: 1-Click WhatsApp inquiry button pre-filled with the exact machine model, capacity, and Pune warehouse stock status.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-02 Company Heritage & Facility Dossier

○ TO BE BUILT: SYSTEM 1 `Planned Route: /about.html`

Primary Business Audience: Corporate Procurement Heads, Bank Valuers, Joint-Venture Partners

Operational Focus: 50-Year Engineering Heritage & Official Italian Partnership

WHAT THIS WEB PAGE WILL DO ONCE BUILT

Presents the 50-year engineering heritage of the Dalal family, authentic photos of the Mumbai registered corporate office and Pune warehouse stockyard, and formal details of the official technical partnership with OMPI Italy. Proves company stability and capability to corporate buyers.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Proves corporate legitimacy and financial stability, assuring plant owners that their advance payments and multi-crore machinery orders are in trustworthy, experienced hands. Protects brand equity and qualifies corporate vendor registrations with Tier-1 auto manufacturers.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ 50-Year Heritage Timeline
- ✓ Pune Yard Facility Tour
- ✓ OMPI Italy Partnership Certificate

Key Management Feature: Visual timeline highlighting 5 decades of heavy machinery supply across India with official Italian engineering certification.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 03 & 04 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-03 Import, Rigging & Engineering Services

○ TO BE BUILT:

`Planned Route: /services.html`

SYSTEM 1

Primary Business Audience: Plant Maintenance Heads, Factory Engineers, Project Directors

Operational Focus: Turnkey Heavy Rigging, Customs Clearance & Foundation Works

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A comprehensive, easy-to-follow guide explaining Dalal's turnkey technical services: overseas machine dismantling in Europe, customs clearance at Nhava Sheva port, heavy transport on 64-wheel hydraulic trailers, foundation pit engineering, and Italian pneumatic clutch retrofitting.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Proves that Dalal is a full-service machinery solutions partner rather than just an equipment trader. Assures factory owners that the heavy press will be safely transported, professionally erected, and successfully tested under full electrical power on their shop floor.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Nhava Sheva Customs Clearance Guide
- ✓ Heavy Transport Hydraulic Trailer Logistics
- ✓ Turnkey Civil Foundation Blueprints

Key Management Feature: Clear 7-point FAQ explaining how High Seas Sales save time and customs duty, backed by expert technical advice.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-04 Machinery Catalog & Search Directory

○ TO BE BUILT:

`Planned Route: /category.html`

SYSTEM 1

Primary Business Audience: Factory Sourcing Managers, Purchase Officers, Plant Sizing Teams

Operational Focus: 26 Machine Categories with Instant Tonnage & Brand Filtering

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A clean, searchable directory of all 26 machine types (Mechanical Forging Presses, Hydraulic Stamping Presses, Friction Screw Presses, Horizontal Boring Machines) equipped with instant tonnage filters, manufacturer filters (Russia, Germany, Japan), and Pune stock filters.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows busy factory purchase officers to locate the exact tonnage, bed dimensions, and machine type they need in under 10 seconds, eliminating frustrating telephone delays and preventing potential buyers from leaving for competitors.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Instant Tonnage Range Filtering
- ✓ Country of Make Categorization
- ✓ Pune Godown Ready-Stock Locator

Key Management Feature: Interactive tonnage sliders (Under 500T, 500T-1000T, 1000T-4000T) with real-time stock availability updates.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 05 & 06 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-05 Machine Technical Details Sheet (PDP)

SYSTEM 1

○ TO BE BUILT: `Planned Route: /product.html`

Primary Business Audience: Chief Technical Officers, Toolroom Managers, Plant Heads

Operational Focus: Full Dimensional Specifications, Die Clearance & Video Proof

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A comprehensive technical sheet for every press: tonnage, stroke, bed dimensions, motor HP, country of make, civil foundation needs, power trial video, and a 1-click button to download an official formal quotation.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives plant technical heads every measurement to confirm the press fits their tooling dies and factory ceiling, accelerating capital budget approvals from the board.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ High-Definition Die Clearance Schematics
- ✓ Live Motor Running & Ram Cycling Video
- ✓ 1-Click PDF Machine Quotation Download

Key Management Feature: Instant A4 technical spec sheet download with official Dalal branding, ready for internal executive committee presentation.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-06 Brand New Factory Machinery Lines

SYSTEM 1

○ TO BE BUILT: `Planned Route: /brand-new-machinery.html`

Primary Business Audience: Tier-1 Automotive Suppliers, High-Volume Manufacturing Plants

Operational Focus: Factory-Fresh Production Lines with European Warranty

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A dedicated showcase of brand-new heavy industrial presses engineered to European safety standards, with manufacturer warranty, touch automation, and factory commissioning.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Captures top-tier automotive suppliers whose internal policies prohibit buying used equipment, opening high-margin contracts for brand-new machinery.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ European CE Safety Certification Details
- ✓ Multi-Year Factory Warranty Terms
- ✓ Turnkey Automated Production Line Sizing

Key Management Feature: Direct RFQ inquiry system for custom-engineered new production lines tailored to exact automotive stamping specifications.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 07 & 08 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-07 Shipment, Yard & Rigging Photo Gallery

SYSTEM 1 ○ TO BE BUILT: `Planned Route: /gallery.html`

Primary Business Audience: Factory Auditors, Sourcing Committees, Managing Directors **Operational Focus:** Visual Proof of 4,000-Ton Rigging & Stockyard Scale

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A high-impact photographic and video gallery showcasing heavy 1,000-ton to 4,000-ton forging presses being hoisted by 250-ton hydraulic cranes, secured onto multi-axle trailers, cleared at Indian ports, and installed inside customer forging facilities.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Provides undeniable visual proof of heavy engineering capability. Seeing real photographs of massive equipment handling completely eliminates buyer anxiety regarding Dalal's ability to safely deliver giant industrial machinery.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Port Hoisting & Crane Operation Photos
- ✓ 64-Wheel Trailer Transit Documentation
- ✓ Customer Plant Installation Case Studies

Key Management Feature: Filterable gallery sorted by press tonnage, equipment manufacturer, and heavy rigging stage.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

ROUTE-08 Headquarters, Yard & Direct RFQ Portal

SYSTEM 1 ○ TO BE BUILT: `Planned Route: /contact.html`

Primary Business Audience: Procurement Directors, Visiting Engineering Teams **Operational Focus:** Direct Executive Access & Pune Yard Trial Scheduling

WHAT THIS WEB PAGE WILL DO ONCE BUILT

Interactive Google Map location guides for both the Mumbai Registered Corporate Office (Tardeo) and the Pune Heavy Warehouse Stockyard (Chakan), complete with direct telephone lines, executive emails, and an online appointment booking console.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Makes it effortless for serious corporate buyers to schedule an in-person physical inspection in Pune and witness the machine operating under live electric power prior to releasing substantial commercial advance payments.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Interactive Map to Mumbai & Pune Facilities
- ✓ Live Power Trial Appointment Booking
- ✓ Direct Director Telephone & Email Access

Key Management Feature: Direct visit booking console allowing plant engineers to reserve a dedicated 2-hour technical power trial in Pune.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 09 & 10 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-09 Express Breakdown RFQ Console

1

○ TO BE BUILT: SYSTEM

`Planned Route: /contact-2.html`

Primary Business Audience: Plant Managers facing an urgent machine breakdown

Operational Focus: Emergency Machine Sizing & Rapid Replacement Dispatch

WHAT THIS WEB PAGE WILL DO ONCE BUILT

An emergency request console asking only 3 essential questions: required press tonnage, bed size, and delivery urgency. Specifically optimized for mobile phones so a factory manager on the shop floor can submit an urgent inquiry in 30 seconds.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Captures critical emergency replacement leads when a competitor's press has cracked its frame or suffered catastrophic clutch failure, enabling Dalal to close fast, high-margin machinery deals from existing Pune stock.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ 30-Second Mobile-Friendly Request Form
- ✓ Instant Priority Alert to Director WhatsApp
- ✓ Guaranteed 2-Hour Stock Availability Response

Key Management Feature: Automated high-priority alert routed directly to the Managing Director's personal phone for instant emergency response.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-10 Import Compliance & Legal FAQs Guide

1

○ TO BE BUILT: SYSTEM

`Planned Route: /faqs.html`

Primary Business Audience: Chief Financial Officers (CFOs), Company Legal & Tax Advisors

Operational Focus: High Seas Sales Law, Customs Bill of Entry & 100% GST Credit

WHAT THIS WEB PAGE WILL DO ONCE BUILT

Clear, plain-English legal explanations of High Seas Sales contracts, 100% GST input tax credit (ITC) claims, Customs Bill of Entry procedures, and live power inspection trials, answering every commercial question CFOs ask.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Removes legal and taxation hesitation from company accountants, providing clear documentation that speeds up corporate board approvals and saves the client up to 10% on customs clearance duties.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ High Seas Sales Legal Procedure Explainer
- ✓ Step-by-Step GST Input Tax Credit Guide
- ✓ Chartered Engineer Valuation Inspection FAQ

Key Management Feature: Interactive accordion explaining tax documentation, customs procedures, and warranty terms without confusing legal jargon.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 11 & 12 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-11 Customer Quotation Download Portal

SYSTEM 1

○ TO BE BUILT: `Planned Route: /quotation.html`

Primary Business Audience: Procurement Heads, Commercial Executives, Factory Accountants

Operational Focus: Secure PDF Proposal Retrieval with Official Terms

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A secure digital portal where prospective buyers can review and download their personalized formal commercial quotation letters, complete with machine photographs, technical tolerances, payment terms, and official Dalal signatures.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates delays caused by lost email attachments and ensures corporate purchase committees review the authentic, officially authorized quotation, preventing pricing miscommunications.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Authorized Quotation PDF Retrieval
- ✓ Complete Commercial Payment Milestones
- ✓ Machine Technical Dimensional Blueprints

Key Management Feature: Secure document retrieval with automatic email confirmation and direct WhatsApp proposal delivery.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-12 Power Trial Video Showcase Center

SYSTEM 1

○ TO BE BUILT: `Planned Route: /video-trials.html`

Primary Business Audience: Plant Technical Directors, Maintenance Heads, Chief Engineers

Operational Focus: Live Electrical Load Trials, Ram Cycling & Flywheel Tests

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A dedicated video library presenting unedited, high-definition videos of heavy forging and mechanical presses undergoing live electric power trials at the Pune yard, showing smooth flywheel rotation, clutch engagement, and ram cycling.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Provides conclusive technical verification that machines are in excellent mechanical health, saving out-of-state buyers from Gujarat, Tamil Nadu, and Punjab the time and expense of an in-person journey before making an offer.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ High-Definition Unedited Trial Footage
- ✓ Sound & Vibration Analysis Visuals
- ✓ Clutch-Brake Instant Stopping Verification

Key Management Feature: Categorized video player with searchable machine models, tonnages, and test dates.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 13 & 14 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-13 Machinery Comparison & Sizing Tool

○ TO BE BUILT: SYSTEM 1

Planned Route: /compare.html

Primary Business Audience: Toolroom Heads, Production Planners, Industrial Engineers

Operational Focus: Side-by-Side Sizing of Bed Size, Stroke & Tonnage

WHAT THIS WEB PAGE WILL DO ONCE BUILT

An intuitive side-by-side comparison screen allowing plant engineers to compare up to 3 machines simultaneously on critical engineering factors: pressing tonnage, stroke length, bolster dimensions, motor power, and pricing.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Empowers factory engineers to make informed technical sizing decisions, ensuring they invest in the exact press model that matches their automotive forging dies and production volume requirements.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Side-by-Side Technical Comparison Grid
- ✓ Die Compatibility Dimensional Matcher
- ✓ 1-Click Comparison Export to PDF

Key Management Feature: Interactive side-by-side spec comparison highlighting key differences in die space, speed, and tonnage.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-14 Used Press Valuation & Buyback Request

SYSTEM 1

○ TO BE BUILT: Planned Route: /sell-machine.html

Primary Business Audience: Factory Owners Upgrading Plants, Liquidators, Plant Heads

Operational Focus: Surplus Machine Liquidation & Fair Market Cash Offers

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A streamlined valuation portal where manufacturing plants looking to sell or trade in surplus heavy presses can submit machine specifications, photographs, nameplate details, and asking prices directly to Dalal's acquisition team.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Builds a continuous proprietary pipeline of high-quality machinery acquisitions across India, enabling Dalal to buy presses below market value directly from plant owners before competitors even learn they are for sale.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Simple Machine Photo & Nameplate Uploader
- ✓ Instant Valuation Preliminary Assessment
- ✓ Fair Market Cash Offer or Trade-in Credit

Key Management Feature: Structured submission form collecting essential press details (make, year, tonnage, operational condition) in 2 minutes.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 15 & 16 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-15 Press Tonnage & Sizing Calculator

○ TO BE BUILT: SYSTEM 1

`Planned Route: /calculator.html`

Primary Business Audience: Manufacturing Sourcing Teams, New Plant Setup Heads

Operational Focus: Automated Tonnage Estimation from Component Dimensions

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A simple interactive calculator where plant engineers enter their forged component dimensions, material type (steel, brass, aluminum), and production process to immediately calculate the recommended press tonnage.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Educates prospective clients and positions Dalal as the premier technical authority in the industry, guiding buyers to inquire about the exact machine capacity they truly need and reducing quotation revisions.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Instant Forging Force Requirement Formula
- ✓ Recommended Press Models in Stock
- ✓ Direct WhatsApp Sizing Consultation

Key Management Feature: Interactive formula that suggests suitable in-stock machines based on calculated tonnage requirements.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-16 High Seas Sales Compliance Center

○ TO BE BUILT: SYSTEM 1

`Planned Route: /high-seas.html`

Primary Business Audience: Corporate CFOs, Commercial Directors, Tax Consultants

Operational Focus: Legal Documentation, Port Handling & Customs Clearance

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A transparent documentation center detailing the exact legal workflow for High Seas Sales agreements, including transfer of title before Indian customs frontiers, customs documentation, Bill of Lading endorsements, and port clearance.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Demystifies the import process for first-time machinery importers, giving corporate legal and tax teams the confidence that all transactions strictly adhere to Indian Customs and GST regulations.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Sample High Seas Sales Agreement Template
- ✓ Nhava Sheva Port Clearance Timeline
- ✓ Customs Duty Optimization Checklist

Key Management Feature: Downloadable legal procedure guide and document checklist approved by maritime trade counsel.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 17 & 18 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-17 Pune Warehouse Live Stockyard Camera

○ TO BE BUILT: SYSTEM 1

`Planned Route: /live-yard.html`

Primary Business Audience: Prospective Buyers, Out-of-State Clients, Corporate Committees

Operational Focus: Real-Time Yard Visibility & Physical Stock Verification

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A secure portal offering authorized clients scheduled live video access to view the Pune stockyard in real time, inspect machinery rows, and observe workshop cranes operating on heavy equipment.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Provides ultimate transparency, completely separating Dalal from internet brokers who list machinery they do not own. Demonstrates massive physical capital and builds unmatched credibility.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Scheduled Live Video Stream Access
- ✓ Yard Inventory Layout Map
- ✓ Instant Guided Virtual Inspection

Key Management Feature: Secure time-limited viewing tokens for serious buyers to inspect machines remotely with a live yard engineer.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-18 Client Delivery & Installation Track Record

○ TO BE BUILT: SYSTEM 1

`Planned Route: /track-record.html`

Primary Business Audience: Board-Level Decision Makers, Foreign Joint Ventures

Operational Focus: 500+ Successful Press Deliveries Across India

WHAT THIS WEB PAGE WILL DO ONCE BUILT

An executive portfolio showcasing major heavy machine deliveries completed for prominent automotive forge plants, railway component suppliers, and defense contractors across Pune, Rajkot, Chennai, and Jamshedpur.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Leverages powerful social proof and industry references to win major corporate contracts, reassuring enterprise risk committees that Dalal has successfully executed hundreds of multi-crore machinery installations.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Verified Automotive Tier-1 Case Studies
- ✓ Client Testimonial Letters & Commendations
- ✓ Geographic Delivery Map Covering All India

Key Management Feature: Interactive delivery map highlighting machines installed across major industrial manufacturing hubs in India.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 19 & 20 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-19 Machinery Spare Parts & Accessories Center

○ TO BE BUILT: SYSTEM 1

`Planned Route: /spare-parts.html`

Primary Business Audience: Maintenance Engineers, Plant Storekeepers, Purchase Teams

Operational Focus: Original Italian Clutches, Rotating Unions & Friction Discs

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A dedicated catalog of essential replacement components: genuine Italian OMPI pneumatic clutch-brakes, rotating unions, friction linings, counterbalance seals, and hydraulic overload seals.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Generates recurring, high-margin aftermarket revenue from the existing installed base of machinery in India, while guaranteeing Dalal's machine buyers that replacement wear parts are always in stock in Pune.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Genuine OMPI Italian Spare Parts Directory
- ✓ Dimensional Cross-Reference Guide
- ✓ Express Same-Day Dispatch from Pune Godown

Key Management Feature: Quick SKU search matching machine make and clutch bore size with immediate dispatch availability.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-20 European Machinery Sourcing Hotline

○ TO BE BUILT: SYSTEM 1

`Planned Route: /sourcing.html`

Primary Business Audience: Industrialists seeking specific foreign machinery models

Operational Focus: Custom Sourcing from Germany, Italy & Eastern Europe

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A specialized custom sourcing desk where clients can request specific heavy equipment not currently in Indian stock (e.g., 2,500T Eumuco wedge press, 4,000T Voronezh press, or Schuler transfer line) from European partners.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Enables Dalal to broker and import multi-crore machinery packages without committing working capital up front, earning substantial consulting and trade commissions.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Direct Access to European Plant Liquidations
- ✓ Overseas On-Site Technical Inspection Report
- ✓ Complete Import & Logistics Cost Projection

Key Management Feature: Dedicated sourcing request form with guaranteed 48-hour preliminary search across European machinery yards.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 21 & 22 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-21 Custom Press Modernization & Rebuilding

○ TO BE BUILT: SYSTEM 1

`Planned Route: /modernization.html`

Primary Business Audience: Factory Owners seeking to boost production on older presses

Operational Focus: Clutch Retrofits, PLC Automation & Safety Upgrades

WHAT THIS WEB PAGE WILL DO ONCE BUILT

An engineering showcase explaining how Dalal transforms slow, outdated mechanical rolling-key presses into high-speed, modern production lines by retrofitting Italian OMPI pneumatic clutch-brakes and modern electrical safety controls.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Opens high-margin modernization contracts for factory owners who cannot afford to buy new machinery but desperately need to comply with factory inspector safety standards and increase production output.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Pneumatic Clutch Conversion Engineering Plan
- ✓ Dual-Hand Safety Control & Light Curtain Specs
- ✓ Production Output & Speed Improvement Metrics

Key Management Feature: Before-and-after modernization case studies with certified productivity increase data.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-22 Annual Maintenance & Support Contracts (AMC)

○ TO BE BUILT: SYSTEM 1

`Planned Route: /maintenance.html`

Primary Business Audience: Plant Maintenance Managers, Operations Directors

Operational Focus: Preventative Maintenance, Clutch Audits & Emergency Visits

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A clear presentation of Dalal's annual maintenance programs, including scheduled quarterly pneumatic clutch inspections, flywheel bearing checks, hydraulic pressure audits, and priority emergency breakdown callouts.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Converts one-time machinery buyers into long-term retainer clients, smoothing out cash flow with predictable recurring annual maintenance revenue and ensuring customer machinery runs without breakdowns.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Quarterly 40-Point Press Inspection Schedule
- ✓ Priority 24-Hour Emergency Breakdown Dispatch
- ✓ Discounted Spare Parts & Consumables Schedule

Key Management Feature: Service contract selector allowing clients to choose Bronze, Silver, or Gold maintenance coverage.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

DALAL WEB PRESENCE SCOPE • PAGES 23 & 24 OF 24 (TO BE ENGINEERED) Public Client Gateway

ROUTE-23 Staff Inventory Administration Console

SYSTEM 1

○ TO BE BUILT: `Planned Route: /admin/products.html`

Primary Business Audience: Dalal Inventory Managers, Commercial Officers

Operational Focus: Internal Stock Management, Technical Specs & Pricing

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A secure internal staff portal allowing Dalal's operations team to add new presses to the website, update machine pricing, upload fresh power trial videos, mark machines as 'Under Commercial Hold', and manage specifications.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates the need for external website developers for everyday operations. Your team can list a newly arrived machine in 3 minutes from a phone or laptop, making it immediately visible to buyers across India.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ 3-Minute Machine Listing & Photo Uploader
- ✓ Instant Commercial Hold & Sold Status Toggle
- ✓ Internal Cost vs. Selling Price Margin Calculator

Key Management Feature: Role-secured administrative dashboard with instant synchronization across public catalog and WhatsApp buttons.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ROUTE-24 Customer RFQ & Quotation Inbox Console

BUILT: SYSTEM 1

○ TO BE `Planned Route: /admin/inquiries.html`

Primary Business Audience: Sales Team, Managing Director, Commercial Head

Operational Focus: Lead Tracking, AI Lead Scoring & Proposal Dispatch

WHAT THIS WEB PAGE WILL DO ONCE BUILT

A centralized operational inbox capturing all incoming customer inquiries from the website, WhatsApp, and email, displaying customer factory name, machine required, delivery urgency, and quotation history.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Ensures zero lost customer leads. Every inquiry is tracked until closed, enabling management to monitor sales representative follow-ups, speed up quotation response times, and dramatically increase deal closing rates.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Centralized Inquiry Feed with Status Tracking
- ✓ 1-Click WhatsApp Lead Chat Initialization
- ✓ Instant Customer Proposal History & Notes

Key Management Feature: Color-coded lead cards with automated follow-up reminders and direct quotation generator.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OPERATIONS MASTER ENGINE • 33 SPECIALIZED FUNCTIONAL MODULES

OMPI India Industrial Operations & ERP Management Suite

A standalone operational backbone built to manage Italian import supply chains, Pune godown stock, workshop press reconditioning, GST tax governance, and executive oversight.

THE 7 CORE OPERATIONAL ENGINES TO BE ENGINEERED (MODULES 01 TO 33)

Operational Engine	Planned Modules	Core Business Responsibility
Engine 1: Sales & Pipeline	Modules 01 to 06	Client records, Italian SKU master, 60-second quote generator, deal pipeline.
Engine 2: Inventory & Godown	Modules 07 to 12	Live Pune stock, in-transit containers, re-order alerts, shelf bin coordinates.
Engine 3: Procurement & Costing	Modules 13 to 16	Italy POs in Euros, port demurrage shield, true landed costing, supplier scores.
Engine 4: Workshop & Overhauls	Modules 17 to 20	Job cards, pneumatic clutch retrofit orders, power trials, site handover certificates.
Engine 5: Accounting & GST	Modules 21 to 25	GST tax invoices, client payment aging, wire remittances, monthly gross profit.
Engine 6: Sales Force & Service	Modules 26 to 30	Field visit logs, quote follow-ups, AMC maintenance contracts, breakdown tickets.
Engine 7: Executive Intelligence	Modules 31 to 33	Staff role permissions, daily automated cloud backups, MD real-time command desk.

⚠ SCOPE STATUS: PLANNED ARCHITECTURE • ZERO LINES BUILT

The 33 modules detailed on the subsequent 17 pages represent the complete operational roadmap for OMPI India LLP. Each module is specified with its intended user role, operational workflow, commercial risk prevention, and key management features. Work has not yet begun.

CORE BUSINESS ADVANTAGES TO BE DELIVERED UPON IMPLEMENTATION

Real-Time Godown Reservation Lock: Stops accidental double-selling of high-demand presses and clutch models across simultaneous sales calls.

Landed Import Margin Protection: Calculates exact landed cost in Indian Rupees including Euro conversion, sea freight, customs duty, and port handling.

100% Clean GST Tax Invoices: Automatically validates client 15-digit GSTIN, ensuring zero input tax credit disputes or delayed client payments.

Executive 360-Degree Control: Provides Mr. Vinit Dalal with real-time operational visibility over sales leads, godown inventory, and cash collections.

🔒 **STRICT CONFIDENTIALITY NOTICE:** This architectural blueprint contains proprietary commercial operating systems and confidential pricing logic. External distribution is strictly forbidden.

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 01 & 02 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-01 Client Records & GST Credit Master

SYSTEM 2

○ TO BE BUILT: `Engine 1: Sales & Customer Pipeline`

Responsible Staff Role: Sales Executives, Accounts Manager

Operational Focus: Centralized Customer Directory & Tax Compliance

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Maintains a central profile for every client factory: verified 15-digit GSTIN, multiple delivery godown addresses, authorized purchase managers, and approved commercial credit limits. Updates in real time.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Stops costly billing errors, prevents dispatching valuable goods to companies with overdue payments, and ensures tax invoices strictly match GST portal records to prevent input tax credit disputes.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Real-Time 15-Digit GSTIN Portal Verification
- ✓ Multi-Godown Delivery Address Registry
- ✓ Automated Commercial Credit Limit Lockout

Key Management Feature: Automated GST number verification and real-time company ledger outstanding summary.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-02 OMPI Technical Catalog & SKU Master

SYSTEM 2

○ TO BE BUILT: `Engine 1: Sales & Customer Pipeline`

Responsible Staff Role: Technical Sales Engineers

Operational Focus: Italian Clutch-Brake Specifications & Sizing

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Organizes all Italian pneumatic clutch-brakes, rotating unions, and friction discs by bore size, torque capacity, operating air pressure, and manufacturer dimensional cross-references. Instant search.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows sales representatives to identify the exact replacement clutch model in 10 seconds without searching through heavy Italian paper catalogs, providing instant answers to clients.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Complete Italian OMPI Engineering Database
- ✓ Bore Size & Torque Capacity Cross-Index
- ✓ Alternative Model & Replacement Sizing Matrix

Key Management Feature: Quick lookup connecting machine brand names (Aida, Schuler, Godrej) with suitable OMPI clutch models.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 03 & 04 OF 33 (TO BE ENGINEERED)

Engine 1

ERP-MOD-03 Import Currency & Landed Pricing Engine

○ TO BE

BUILT: SYSTEM 2

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Commercial Manager, Managing Director

Operational Focus: Euro/INR Exchange Rate & Duty Surcharge Calculation

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Calculates selling prices in Indian Rupees based on live Euro exchange rates, ocean shipping costs, customs duty percentages, port clearance fees, and minimum profit margins required by management.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Protects company profits against sudden currency fluctuations between the Euro and Rupee during the 4 to 8 weeks of ocean shipping, ensuring quotes remain profitable under all market conditions.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Euro to INR Exchange Rate Converter
- ✓ Port Surcharge & Customs Duty Multiplier
- ✓ Minimum Gross Margin Threshold Protection

Key Management Feature: Automated price calculation incorporating daily exchange rates and port handling fees.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-04 Fast-Quote 60-Second PDF Generator

○ TO BE

BUILT: SYSTEM 2

Engine 1: Sales & Customer Pipeline

Responsible Staff Role: Sales Representatives, Commercial Staff

Operational Focus: Instant Branded Quotations & WhatsApp Dispatch

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Compiles professional, branded quotation letters complete with machine photos, technical dimensions, prices, and payment terms in under 60 seconds, ready for immediate dispatch.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Allows your sales team to deliver an official proposal while the customer is still on the telephone, beating competitors who take 2 to 3 days to send a quote and capturing early buyer commitment.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ 1-Click Professional A4 PDF Proposal Generator
- ✓ Pre-Configured Payment Terms & Validity Dates
- ✓ Automated WhatsApp & Email Dispatch System

Key Management Feature: 1-click generation of print-ready A4 PDF proposals with official company signature.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 05 & 06 OF 33 (TO BE ENGINEERED) Engine 1

ERP-MOD-05 Customer Inquiry Visual Pipeline

SYSTEM 2

○ TO BE BUILT: `Engine 1: Sales & Customer Pipeline`

Responsible Staff Role: Sales Team, Managing Director **Operational Focus:** Visual Deal Progression from Lead to Payment

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Displays all incoming customer inquiries on a visual stage board: New Lead, Quoted, Power Trial Scheduled, Price Negotiation, Commercial Hold, and Deal Closed. Drag-and-drop simplicity.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives the Managing Director complete visibility over every active deal so no high-value inquiry is forgotten or neglected by sales staff, directly increasing deal closure percentages.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Visual Kanban Deal Pipeline Board
- ✓ Stalled Lead Alerts & Stagnation Warnings
- ✓ Sales Rep Deal Assignment & Ownership

Key Management Feature: Visual stage cards with color-coded alerts for inquiries that have not been followed up in 48 hours.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

ERP-MOD-06 Press & Clutch Compatibility Matrix

SYSTEM 2

○ TO BE BUILT: `Engine 1: Sales & Customer Pipeline`

Responsible Staff Role: Technical Sourcing Engineers **Operational Focus:** Historical Press Model Sizing & Engineering Match

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Cross-indexes leading press makes (Aida, Schuler, Godrej, Voronezh, Li Chin) with the correct OMPI clutch model, flywheel mounting dimensions, and required operating air pressure.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Enables sales reps to confidently advise plant owners on the exact clutch retrofit needed for their machine without waiting for engineering consultations, building immediate customer confidence.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Machinery Make-to-Clutch Matcher
- ✓ Flywheel Bore & Mounting Clearance Charts
- ✓ Operating Air Pressure & Torque Recommendations

Key Management Feature: Pre-configured compatibility lookup providing accurate recommendations in 5 seconds.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 07 & 08 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-07 Pune Godown Live Stock Tracker

○ TO BE BUILT: SYSTEM 2

`Engine 2: Inventory & Warehouse Master`

Responsible Staff Role: Godown Storekeeper, Operations Head

Operational Focus: Real-Time Stock Counts, Reservations & Location

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Tracks every clutch, friction disc, and heavy press physically present in the Pune warehouse, including exact godown shelf location, arrival date, condition, and commercial reservation status.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents the embarrassing commercial disaster of promising a clutch or machine to a client when it was already sold or reserved by another sales representative earlier that morning.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Real-Time Physical vs Available Stock Counts
- ✓ Temporary Customer Commercial Reservation Lock
- ✓ Bin Location & Shelf Mapping for Rapid Dispatch

Key Management Feature: Real-time stock reservation lock preventing double-selling of in-demand inventory.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-08 High-Seas In-Transit Shipment Tracker

○ TO BE BUILT: SYSTEM 2

`Engine 2: Inventory & Warehouse Master`

Responsible Staff Role: Logistics Officer, Commercial Manager

Operational Focus: Container Tracking from Genoa to Nhava Sheva

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Monitors shipping containers from the moment they depart Italy or European ports, tracking vessel names, estimated arrival at Nhava Sheva (JNPT), and customs clearance progress.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Enables accurate delivery promises to clients awaiting imported machinery and prevents expensive port demurrage penalties by preparing customs clearance documentation well before vessel berthing.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Container Tracking & ETA Milestone Alerts
- ✓ Port Clearance Documentation Status Tracker
- ✓ Pre-Arrival Customer Delivery Scheduling

Key Management Feature: Automated countdown tracking container vessel arrival dates and customs clearance deadlines.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 09 & 10 OF 33 (TO BE ENGINEERED) Engine 2

ERP-MOD-09 Automated Re-Order Alert Engine

SYSTEM 2

○ TO BE BUILT: `Engine 2: Inventory & Warehouse Master`

Responsible Staff Role: Purchasing Manager, Storekeeper

Operational Focus: Minimum Stock Thresholds & Automatic Reorder Triggers

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Constantly monitors warehouse stock against predefined minimum threshold levels and automatically generates a suggested restocking order when fast-moving friction discs or seals run low.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Ensures Dalal never turns away an emergency breakdown client due to being out of stock on common wear parts, protecting customer loyalty and recurring parts profits.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Low-Stock Threshold Notifications
- ✓ Suggested Re-Order Quantity Calculator
- ✓ Supplier Lead Time Buffer Estimation

Key Management Feature: Automated alert notifications sent when fast-moving clutch spares reach minimum stock thresholds.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-10 Multi-Godown Stock Transfer Note

SYSTEM 2

○ TO BE BUILT: `Engine 2: Inventory & Warehouse Master`

Responsible Staff Role: Logistics Dispatcher, Storekeeper

Operational Focus: Official Transfer Documentation Between Warehouses

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Generates official transfer delivery challans whenever equipment or spare parts move between the Chakan warehouse, Tardeo office, customer trial premises, or third-party engineering workshops.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents stock loss and inventory discrepancies during transit, providing legal documentation required by highway GST authorities to avoid transit seizure and vehicle impounding.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Official Inter-Godown Delivery Challan Generator
- ✓ E-Way Bill Integration Data Sheet
- ✓ In-Transit Goods Reconciliation Ledger

Key Management Feature: 1-click generation of GST-compliant delivery challans for inter-facility equipment movement.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 11 & 12 OF 33 (TO BE ENGINEERED)

Engine 2

ERP-MOD-11 Barcoded Godown Bin & Shelf Locator

○ TO BE BUILT: SYSTEM 2

Engine 2: Inventory & Warehouse Master

Responsible Staff Role: Godown Storekeeper, Warehouse Staff

Operational Focus: Physical Shelf Organization & Quick Item Picking

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Assigns unique rack, row, and shelf coordinates to every small clutch spare, seal kit, and rotating union, accessible via mobile phone scanning or quick search at the godown desk.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Reduces picking and packing time from 30 minutes to under 2 minutes, ensuring orders are packed and dispatched on courier vehicles before daily parcel cutoff times.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Godown Rack & Bin Coordinate Mapping
- ✓ Mobile-Friendly Shelf Search Interface
- ✓ Fast Item Picking Route Optimization

Key Management Feature: Search tool directing warehouse staff to the exact rack and shelf location of any spare part.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-12 Consignment Stock & Customer Trial Ledger

○ TO BE BUILT: SYSTEM 2

Engine 2: Inventory & Warehouse Master

Responsible Staff Role: Sales Manager, Accounts Manager

Operational Focus: Temporary Equipment Handover & Return Management

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Tracks clutch units or testing instruments provided to customer factories on a 15-day trial or consignment basis, monitoring return due dates, condition upon return, and conversion to sale.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Stops equipment leakage and forgotten company property at customer factories, automatically reminding sales representatives to either invoice the client or arrange immediate retrieval.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Customer Trial Equipment Master Registry
- ✓ 15-Day Return Expiration Alerts
- ✓ Trial-to-Invoice Conversion Workflow

Key Management Feature: Automated reminder alerts for consignment stock approaching the end of authorized trial periods.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 13 & 14 OF 33 (TO BE ENGINEERED)

Engine 3

ERP-MOD-13 Italy Factory Purchase Order Engine

○ TO BE BUILT: SYSTEM 2

Engine 3: Procurement & Landed Costing

Responsible Staff Role: Commercial Head, Managing Director **Operational Focus:** Formal International PO Generation in Euros

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Creates formal international purchase orders in Euros addressed to OMPI Italy, complete with official Italian part numbers, agreed export discounts, shipping marks, and HS codes.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates ordering mistakes with the Italian factory, speeds up export manufacturing, and ensures imported documentation matches Indian Customs requirements for smooth port clearance.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ International Purchase Order PDF Generator
- ✓ Official Italian Part Number & HS Code Matcher
- ✓ Supplier Confirmation & Lead Time Tracker

Key Management Feature: Direct generation of international purchase orders with dual English/Italian commercial terminology.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-14 Customs Clearing & Port Demurrage Shield

○ TO BE BUILT: SYSTEM 2

Engine 3: Procurement & Landed Costing

Responsible Staff Role: Logistics Manager, Customs Broker

Operational Focus: Port Clearance Milestones & Penalty Avoidance

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Tracks customs clearance milestones at Nhava Sheva port, alerting the commercial team to free storage expiry dates, container detention deadlines, and customs duty payment milestones.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Saves Dalal lakhs of rupees annually in catastrophic port demurrage and shipping line container detention penalties by enforcing on-time document submission and vehicle booking.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Free Storage Expiry Countdown Dashboard
- ✓ Shipping Line Container Detention Tracker
- ✓ Customs Duty Assessment & Payment Alert

Key Management Feature: Demurrage risk dashboard highlighting shipments within 48 hours of incurring daily port fines.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 15 & 16 OF 33 (TO BE ENGINEERED) Engine 3

ERP-MOD-15 Landed Surcharge Costing Sheet

○ TO BE BUILT: SYSTEM 2 `Engine 3: Procurement & Landed Costing`

Responsible Staff Role: Senior Accountant, Commercial Head **Operational Focus:** True Unit Cost Allocation (Freight, Duty, Clearing)

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Calculates the true landed cost of every imported batch by distributing ocean freight, insurance, customs basic duty, social welfare surcharge, and port clearing charges across individual items.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Reveals the true mathematical cost of every SKU, ensuring Dalal never underprices products or misjudges margins, keeping company pricing profitable and commercially competitive.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Proportional Expense Allocation Matrix
- ✓ True Unit Cost Calculation Engine
- ✓ Margin Variance & Profitability Reporting

Key Management Feature: Comprehensive landed cost calculator allocating shared container shipping fees across individual spare parts.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

ERP-MOD-16 Supplier Performance & Lead Time Tracker

○ TO BE BUILT: SYSTEM 2 `Engine 3: Procurement & Landed Costing`

Responsible Staff Role: Managing Director, Purchasing Head **Operational Focus:** Vendor Delivery Accuracy & Lead Time Trends

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Records promised delivery dates versus actual dispatch dates for European and domestic suppliers, tracking manufacturing delays, shipping transit times, and packaging quality.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives management hard data during annual commercial negotiations with overseas partners, securing better delivery guarantees, warranty compensation, and commercial credit terms.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Supplier Delivery Timeliness Scorecards
- ✓ Historical Lead Time Trend Analytics
- ✓ Transit Delay & Defect Rate Reporting

Key Management Feature: Supplier reliability scorecards rating manufacturers on dispatch speed and packaging quality.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 17 & 18 OF 33 (TO BE ENGINEERED) Engine 4

ERP-MOD-17 Factory Reconditioning & Overhaul Log

BUILT: SYSTEM 2

○ TO BE `Engine 4: Workshop & Engineering Overhaul`

Responsible Staff Role: Workshop Foreman, Mechanical Engineers

Operational Focus: Job Cards, Replacement Parts & Labor Hours

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Maintains a digital job card for every used machine entering the Pune workshop: records dismantling steps, replacement parts used, machinist labor hours, and component repairs.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Establishes accurate restoration cost accounting, prevents mechanical shortcuts, and creates a certified repair history that commands premium selling prices from prospective buyers.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Digital Workshop Job Card & Task Tracker
- ✓ Replacement Spares & Material Consumption Log
- ✓ Mechanic Labor Hours & Direct Cost Ledger

Key Management Feature: Digital job card logging every mechanical overhaul step and component replacement with technician signatures.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-18 Clutch Retrofit Engineering Work Order

BUILT: SYSTEM 2

○ TO BE `Engine 4: Workshop & Engineering Overhaul`

Responsible Staff Role: Application Engineers, Workshop Team

Operational Focus: Technical Machining Dimensions & Air Valve Specs

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Provides step-by-step engineering instructions for installing an OMPI pneumatic clutch onto a customer's existing mechanical press: flywheel boring dimensions, keyway depths, and valve mounting.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates machining mistakes and mechanical rework, ensuring flawless on-site installation and preventing clutch overheating or slipping during full-power production runs.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Flywheel Boring & Keyway Machining Specs
- ✓ Dual Air Valve & Piping Flow Diagrams
- ✓ Pre-Commissioning Mechanical Checklists

Key Management Feature: Printable technical work orders with detailed dimensional tolerances for workshop machinists.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 19 & 20 OF 33 (TO BE ENGINEERED) Engine 4

ERP-MOD-19 Live Power Test & Geometry Sheet ○ TO BE BUILT: SYSTEM 2

Engine 4: Workshop & Engineering Overhaul

Responsible Staff Role: Quality Inspector, Technical Director

Operational Focus: Dial Gauge Alignment, Stroke Testing & Defect Log

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Records geometrical inspection data for every overhauled press: bed parallelism, ram squareness dial indicator readings, motor amperage draw under idle/load, and clutch stopping times.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Provides irrefutable technical documentation proving machine precision to corporate buyers, completely preventing post-delivery disputes and warranty rejection claims.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Bed Parallelism Dial Gauge Inspection Sheet
- ✓ Clutch Stopping Time & Safety Reaction Log
- ✓ Official Dalal Machine Inspection Certificate

Key Management Feature: Standardized inspection certificate generator showing verified machine tolerances and electrical trial results.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-20 Client Site Rigging & Handover Certificate ○ TO BE BUILT: SYSTEM 2

Engine 4: Workshop & Engineering Overhaul

Responsible Staff Role: Field Commissioning Engineer, Client Head

Operational Focus: Foundation Leveling, Trial Stamping & Sign-Off

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

A mobile-friendly sign-off protocol used by Dalal engineers during final machine installation at the buyer's factory: confirms levelness, trial stamping, and customer acceptance signatures.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Triggers final payment release by obtaining unambiguous formal customer acceptance, protecting Dalal from delayed settlement of final 10% to 20% commercial retention funds.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Mobile-Friendly Commissioning Protocol
- ✓ Digital Client Acceptance Signature Capture
- ✓ Automatic Accounts Notification for Final Invoicing

Key Management Feature: Digital handover certificate capture with photo uploads of the installed machine on the customer's factory floor.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 21 & 22 OF 33 (TO BE ENGINEERED) Engine 5

ERP-MOD-21 GST Tax Invoice & E-Way Bill Generator

○ TO BE

BUILT: SYSTEM 2

Engine 5: Accounting & GST Governance

Responsible Staff Role: Accounts Manager, Billing Clerk **Operational Focus:** Legal Tax Billing, HSN Codes & E-Way Bill Data

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Generates legally compliant tax invoices for machinery sales, spare parts, and service labor with automatic calculation of CGST, SGST, IGST, correct HSN codes, and transport E-Way Bill data.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates tax calculation errors, prevents costly GST audits and fines, and ensures buyers receive immaculate tax invoices that allow 100% input tax credit without government delays.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Multi-Rate GST Tax Invoice Generator
- ✓ HSN Code & Tax Category Validation Engine
- ✓ E-Way Bill Transport Data Format Generator

Key Management Feature: 1-click generation of professional GST tax invoices with automatic tax rate calculation based on client state.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

ERP-MOD-22 Client Payment Ledger & Aging Tracker

○ TO BE

BUILT: SYSTEM 2

Engine 5: Accounting & GST Governance

Responsible Staff Role: Commercial Manager, Managing Director **Operational Focus:** Outstanding Receivables, Payment Terms & Alerts

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Tracks customer payment milestones (advance payment, pre-dispatch clearance, final commissioning balance), categorizing outstanding dues by age: 30, 60, and 90+ days overdue.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Guarantees that no machine is loaded onto transport trailers before agreed advance and pre-dispatch payments are fully cleared in Dalal's bank account, protecting company cash flow.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Customer Payment Aging Analysis Dashboard
- ✓ Pre-Dispatch Commercial Clearance Indicator
- ✓ Automated Friendly Payment Reminder Letters

Key Management Feature: Color-coded payment ledger preventing warehouse dispatch until pre-dispatch payment criteria are verified.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment **Pre-Commencement Status:** Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 23 & 24 OF 33 (TO BE ENGINEERED) Engine 5

ERP-MOD-23 Vendor Expense & Overseas Wire Log

○ TO BE

BUILT: SYSTEM 2

Engine 5: Accounting & GST Governance

Responsible Staff Role: Senior Accountant, Finance Director

Operational Focus: Overseas Remittances, Shipping Bills & A2 Records

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Maintains an organized digital record of all payments made to overseas manufacturers, customs clearing agents, crane operators, transport contractors, and local repair vendors.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Simplifies bank audits and FEMA compliance for overseas foreign exchange remittances (Form A2), ensuring your banking facility remains in flawless standing with foreign exchange regulators.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Bank Form A2 & Overseas Remittance Log
- ✓ Vendor Expense Verification & PO Matching
- ✓ Authorized Corporate Payment Approval Workflow

Key Management Feature: Centralized foreign exchange payment repository linking bank SWIFT confirmations to foreign supplier invoices.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-24 Monthly P&L & Gross Margin Dashboard

○ TO BE

BUILT: SYSTEM 2

Engine 5: Accounting & GST Governance

Responsible Staff Role: Managing Director, Partners

Operational Focus: Monthly Profitability, Machine Margin & Overhead

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Aggregates revenue and direct costs across all transactions, presenting monthly gross profit per machine, spare parts profitability, and company operating overheads at a glance.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives the business owners clear, real-time financial truth, allowing informed decisions on capital reinvestment, inventory expansion, and pricing adjustments without waiting for year-end books.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Real-Time Gross Margin Analytics per Machine
- ✓ Spare Parts Division Profitability Breakdown
- ✓ Monthly Overhead & Cash Flow Forecasting

Key Management Feature: Executive financial overview dashboard showing true profitability per business line in real time.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 25 & 26 OF 33 (TO BE ENGINEERED)

Engine 5

ERP-MOD-25 GSTR-1 & ITC-04 Compliance Assistant

BUILT: SYSTEM 2

○ TO BE

Engine 5: Accounting & GST Governance

Responsible Staff Role: Accounts Manager, Tax Consultant

Operational Focus: GST Return Preparation & Job Work Tracking

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Pre-formats all monthly sales invoices, credit notes, and job-work delivery challans (ITC-04 for goods sent to external workshops) for direct import into government GST accounting software.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Saves your accounting team dozens of hours of tedious manual data entry every month and eliminates filing errors that trigger tax notices, interest penalties, and frozen tax credits.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Monthly GSTR-1 Sales Data Reconciliation Sheet
- ✓ ITC-04 Job Work Outward & Inward Ledger
- ✓ Tax Variance Detection & Correction Engine

Key Management Feature: Automated monthly tax summary pre-formatted for seamless reconciliation with your CA's accounting system.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-26 Sales Rep Daily Visit & Inquiry Logger

BUILT: SYSTEM 2

○ TO BE

Engine 6: Sales Force & Customer Service

Responsible Staff Role: Field Sales Engineers, Sales Head

Operational Focus: Client Factory Visits, Machinery Needs & Follow-Ups

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

A mobile-friendly logging tool for sales engineers visiting manufacturing clusters in Pune, Sanand, Aurangabad, and Rajkot to record client plant visits, machinery requirements, and follow-up dates.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Builds institutional company memory. When a sales employee resigns, all customer relationships, active discussions, and machinery needs remain securely preserved in Dalal's database.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Mobile Client Factory Visit Log
- ✓ Competitor Machinery Identification Matrix
- ✓ Scheduled Actionable Follow-Up Reminders

Key Management Feature: Mobile-optimized visit logging interface allowing sales reps to record client discussions in 60 seconds.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

OMPI MANAGEMENT ENGINES SCOPE • MODULES 27 & 28 OF 33 (TO BE ENGINEERED)

Engine 6

ERP-MOD-27 Commercial Proposal Follow-Up Alert

○ TO BE BUILT: SYSTEM 2

Engine 6: Sales Force & Customer Service

Responsible Staff Role: Sales Team, Managing Director **Operational Focus:** Automated Follow-Up Reminders on Active Quotes

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Monitors all outstanding quotations sent to customers and automatically reminds the assigned sales representative to follow up via phone or WhatsApp at 3, 7, and 14-day intervals.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Prevents quotes from going cold and keeps Dalal top-of-mind while the customer's purchase committee evaluates options, directly recovering potentially lost high-value deals.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Follow-Up Reminder Dashboard
- ✓ Pre-Drafted Professional WhatsApp Follow-Up Templates
- ✓ Quotation Win/Loss Reason Analytics

Key Management Feature: Automated alerts reminding sales staff to follow up on pending proposals before competitors intervene.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-28 Annual Maintenance Contract (AMC) Ledger

○ TO BE BUILT: SYSTEM 2

Engine 6: Sales Force & Customer Service

Responsible Staff Role: Service Coordinator, Accounts Manager **Operational Focus:** Preventative Service Schedules & Contract Renewals

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Tracks all active maintenance contracts, scheduling preventative quarterly inspection visits, tracking engineer time spent on site, and alerting the commercial team 30 days before renewal.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Maximizes contract renewal rates and prevents missed inspection visits, protecting your reputation for reliability and securing dependable recurring annual service income.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Quarterly Service Visit Schedule Calendar
- ✓ 30-Day Contract Expiration & Renewal Alerts
- ✓ Service Engineer Shop Floor Time & Parts Log

Key Management Feature: Automated service schedule calendar tracking upcoming preventive maintenance visits across all client plants.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 29 & 30 OF 33 (TO BE ENGINEERED) Engine 6

ERP-MOD-29 Machine Breakdown Ticket Desk

SYSTEM 2 ○ TO BE BUILT: Engine 6: Sales Force & Customer Service

Responsible Staff Role: Service Engineers, Support Coordinator

Operational Focus: Customer Breakdown Logging & Technician Dispatch

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Logs urgent customer breakdown calls, assigns the closest available technical engineer, tracks replacement part dispatch from Pune, and monitors repair progress until the machine is running.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Dramatically reduces factory downtime for your clients during emergencies, turning stressful crisis situations into long-term customer loyalty and word-of-mouth industry praise.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Priority Breakdown Ticket Creation Console
- ✓ Service Engineer Dispatch & GPS Proximity
- ✓ Resolution Verification & Customer Sign-Off

Key Management Feature: High-priority support desk dispatching service engineers to machine breakdown emergencies within hours.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-30 Customer Feedback & Quality Scoring

BUILT: SYSTEM 2 ○ TO BE Engine 6: Sales Force & Customer Service

Responsible Staff Role: Managing Director, Quality Head

Operational Focus: Post-Installation Satisfaction & Review Capture

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Automatically sends a brief 3-question satisfaction survey to the factory owner 30 days after machine commissioning, rating machine performance, delivery speed, and engineer professionalism.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Detects customer dissatisfaction early before it damages relationships, identifies standout employees for recognition, and collects glowing testimonials for the public website.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated 3-Question Customer Satisfaction Survey
- ✓ Early Warning Dissatisfaction Escalation Alert
- ✓ Verified Customer Testimonial Capture for Marketing

Key Management Feature: Automated satisfaction survey collecting client ratings and generating verified testimonial quotes.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE STRICTLY PRIVATE

OMPI MANAGEMENT ENGINES SCOPE • MODULES 31 & 32 OF 33 (TO BE ENGINEERED)

Engine 7

ERP-MOD-31 Staff Role & Security Permissions

○ TO BE BUILT: SYSTEM 2

`Engine 7: Executive Intelligence & Control`

Responsible Staff Role: Managing Director, System Administrator

Operational Focus: Role-Based Security & Confidential Margin Protection

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Controls exactly what each employee can see and do: sales reps can view quotes and stocks but cannot see supplier purchase prices; storekeepers can update inventory but cannot view margins.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Protects trade secrets, prevents unauthorized changes to company data, and ensures confidential supplier margins and pricing models remain strictly restricted to top business owners.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Granular Role-Based Access Permission Matrix
- ✓ Multi-Factor Secure Authentication System
- ✓ Strict Separation of Sales and Purchasing Financial Data

Key Management Feature: Security control console allowing the Managing Director to customize employee data permissions in seconds.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

ERP-MOD-32 Automated Cloud Backup & Audit Vault

○ TO BE BUILT: SYSTEM 2

`Engine 7: Executive Intelligence & Control`

Responsible Staff Role: System Administrator, Managing Director

Operational Focus: Daily Encrypted Backups & Immutable Change History

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

Creates encrypted daily backups of all customer files, quotations, stock records, and financial transactions, while logging every price change, stock deduction, and user login in an immutable audit vault.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Eliminates the catastrophic threat of data loss from hardware failure or accidental deletion, providing complete peace of mind that company operational records are permanently safe.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Automated Daily Encrypted Cloud Database Backups
- ✓ Immutable Tamper-Proof User Activity Audit Trail
- ✓ Rapid Disaster Recovery Restoration Protocol

Key Management Feature: Automated audit vault recording every price modification, stock adjustment, and proposal creation.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

OMPI MANAGEMENT ENGINE • MODULE 33 OF 33 & CONTROL DESKS (TO BE ENGINEERED)

Executive Business Control

ERP-MOD-33 Managing Director's Executive Control Desk

TO BE BUILT: SYSTEM 2

○ `Engine 7: Executive Intelligence & Control`

Responsible Staff Role: Mr. Vinit Dalal, Company Partners

Operational Focus: Unified Business Dashboard (Sales, Cash, Godown & Staff)

WHAT THIS MANAGEMENT TOOL WILL DO ONCE BUILT

An executive mobile and desktop command center presenting complete business health: total inquiries this month, active high-value quotations, Pune warehouse stock value, and cash collected.

BUSINESS VALUE & COMMERCIAL RISK IT PREVENTS

Gives the business owner total command over company operations from anywhere in the world, enabling confident strategic decisions based on real-time financial facts rather than guesswork.

KEY TANGIBLE SYSTEM CAPABILITIES (TO BE BUILT)

- ✓ Real-Time Total Business Command Center
- ✓ Active Pipeline Value & Cash Inflow Projections
- ✓ Executive KPI Metrics & Daily Operational Summary

Key Management Feature: Real-time command center providing a 360-degree executive view of sales, godown stock, and profit margins.

Quality Assurance Gate: Functional Quality Test Prior to Shop Floor Deployment

Pre-Commencement Status: Proposed Scope • Pending Formal Sign-Off

PORTALS Staff Operations & Departmental Control Workspaces

BUILT: SYSTEM 2

○ TO BE

`Departmental Consoles`

Primary Users: Sales Reps, Warehouse Storekeepers, Workshop Engineers, Senior Accountants

Security Governance: Strict Role-Based Data Isolation

1. Sales Workspace: Lead inbox, 60-second quote generator, customer follow-up alerts, and WhatsApp message sender.

2. Godown Console: Pune live stock tracker, shelf coordinates, delivery challans, and container tracking.

3. Accounts Desk: GST tax billing, customer payment aging, overseas wire records, and monthly profit summary.

4. Workshop Portal: Press overhaul job cards, clutch retrofit work orders, power test sheets, and handover sign-offs.

Key Management Feature: Total role-based permission control ensuring employees only access tools essential for their daily duties.

Enterprise Security Standard: Encrypted Database Vault • Tamper-Proof Financial Ledger

Implementation Phase: Phase 2 Rollout upon Executive Sign-Off

⚠ STRICTLY CONFIDENTIAL • PRE-COMMENCEMENT MASTER PLAN • WORK NOT COMMENCED • DO NOT SHARE **STRICTLY PRIVATE**

HOW BOTH SYSTEMS WILL WORK TOGETHER • FROM CUSTOMER INQUIRY TO DELIVERY

Proposed Commercial Workflow

THE SEAMLESS 6-STEP BUSINESS PROCESS TO BE ENGINEERED (INQUIRY TO PAYMENT)

Step 1: Customer Inquires Online
A plant head finds a 1,600T press on the website and clicks the WhatsApp inquiry button with his company details.

Step 2: Instant Technical Sizing
The system automatically matches the press with the exact Italian OMPI pneumatic clutch required for the job.

Step 3: 60-Second Quotation Sent
An official proposal PDF with machine photos, specs, and price is sent directly to the customer's WhatsApp.

Step 4: Machine Locked in Godown
Once the client confirms, the press is marked 'Under Commercial Hold' so it cannot be sold to anyone else.

Step 5: Pune Workshop Overhaul & Rigging
The machine undergoes live power trials, foundation check, and is dispatched on low-bed trailers to the buyer's factory.

Step 6: Official GST Invoicing & Backup
Clean tax bills are issued, GST records are updated for your accountant, and all transaction history is securely saved.

COMMERCIAL PHASING & PROPOSED DELIVERY MILESTONES

Milestone Phase	Proposed Scope of Delivery	Timeline & Status
Phase 1 (Kickoff Scope)	Dalal 24 Public Pages • Staff Admin Portal • WhatsApp Lead Routing • Quoting Tools	TO COMMENCE UPON SIGN-OFF
Phase 2 (OMPI Core ERP)	OMPI Customer Master • Italian SKU Catalog • Landed Pricing • Godown Stock Tracker	MONTH 1-2 SPRINT ROADMAP
Phase 3 (Enterprise Control)	Workshop Overhaul Job Cards • GST Invoicing • Port Demurrage Shield • MD Command Desk	MONTH 3-4 SPRINT ROADMAP

FORMAL COMMENCEMENT AUTHORIZATION & QUALITY ACCEPTANCE TERMS

By formal execution below, executive leadership authorizes the commencement of Milestone Phase 1. Development will strictly adhere to the operational specifications detailed across this 57-unit master document. Each phase requires structured shop floor acceptance testing prior to commercial release.

🔒 CONFIDENTIALITY & PROPRIETARY ARCHITECTURE COVENANT

This master specification represents the proprietary intellectual property and proposed operational architecture of Dalal Machine Tools Agency Pvt. Ltd. and OMPI India LLP. External sharing, copying, forwarding, or unauthorized reproduction without prior written approval is strictly prohibited by law.
